FileMaker Pro 10: The Missing Manual

An eloquent and provocative autobiography of an activist in the 1960s civil rights movement

Forthcoming Books

Suspension is probably the most misunderstood aspect of motorcycle performance. This book, by America's premier suspension specialist, makes the art and science of suspension tuning accessible to professional and backyard motorcycle mechanics alike. Based on Paul Thede's wildly popular Race Tech Suspension Seminars, this step-by-step guide shows anyone how to make their bike, or their kid's, handle like a pro's. Thede gives a clear account of the three forces of suspension that you must understand to make accurate assessments of your suspension's condition. He outlines testing procedures that will help you gauge how well you're improving your suspension, along with your riding. And, if you're inclined to perfect your bike's handling, he even explains the black art of chassis geometry. Finally, step-by-step photos of suspension disassembly and assembly help you rebuild your forks and shocks for optimum performance. The book even provides detailed troubleshooting guides for dirt, street, and supermoto--promising a solution to virtually any handling problem.

Duane Litfin, former president of Wheaton College, explores how Paul's theology of preaching can inform the church's preaching today. Through a detailed study of 1 Corinthians 1-4, Litfin shows how Paul's method of proclamation differed from Greco-Roman rhetoric and how Pauline preaching can be a model for the contemporary preaching task.

Rich and flamboyant Honeybelle Hensley, the most colorful character in Mule Stop, Texas, dies a suspicious death and enrages the whole town by leaving her worldly fortune to the most undeserving recipient-her dog. The incorrigible Miss Ruffles is a Texas Cattle Cur, not a cuddly lapdog, and when Honeybelle was alive, Miss Ruffles liked nothing better than digging up Honeybelle's famous rose garden after breakfast, chasing off the UPS man before lunch and terrorizing the many gentleman callers who came knocking at cocktail hour. But now Miss Ruffles is in danger, and it's up to Sunny McKillip, the unwilling dogsitter, to keep her safe. Sunny is new to Texas, and sometimes she feels as if she's fallen into an alien world. If it isn't the pistol-packing football fans and the sweet-talking, yet ruthless ladies of the garden club who confound her, it's the rowdy rodeo hounds and the tobacco-spitting curmudgeon at Critter Control who have her buffaloed. With a killer on the loose and a cowboy lawyer keeping a suspicious eye on her every move, Sunny needs all the help she can get understanding how Texans think. There's more to Honeybelle's death than meets this Yankee's eye, and Sunny has Miss

Ruffles to protect, too. It's a bucking bull ride of an adventure for Sunny, and if she's not careful she might just get killed . . . or her heart lassoed.in Nancy Martin's Miss Ruffles Inherits Everything.

The Making of Black Revolutionaries

For decades the crown jewels of Japan's postwar manufacturing industry, motorcycles remain one of Japan's top exports. Japan's Motorcycle Wars assesses the historical development and societal impact of the motorcycle industry, from the influence of motor sports on vehicle sales in the early 1900s to the postwar developments that led to the massive wave of motorization sweeping the Asia-Pacific region today. Jeffrey Alexander brings a wealth of information to light, providing English translations of transcripts, industry publications, and company histories that have until now been available only in Japanese. By exploring the industry as a whole, he reveals that Japan's motorcycle industry was characterized not by communitarian success but by misplaced loyalties, technical disasters, and brutal competition.

The Rupert Ratio Unit Single Manual

This book explores the practical and symbolic resources of legitimacy which the elites of medieval Scandinavia employed to

establish, justify, and reproduce their social and political standing between the end of the Viking Age and the rise of kingdoms in the thirteenth century. Geographically the chapters cover the Scandinavian realms and Free State Iceland. Thematically the authors cover a wide palette of cultural practices and historical sources: hagiography, historiography, spaces and palaces, literature, and international connections, which rulers, magnates or ecclesiastics used to compete for status and to reserve haloing glory for themselves. The volume is divided in three sections. The first looks at the sacral, legal, and acclamatory means through which privilege was conferred onto kings and ruling families. Section Two explores the spaces such as aristocratic halls, palaces, churches in which the social elevation of elites took place. Section Three explores the traditional and novel means of domestic distinction and international cultural capital which different orders of elites – knights, powerful clerics, ruling families etc. – wrought to assure their dominance and set themselves apart vis-à-vis their peers and subjects. A concluding chapter discusses how the use of symbolic capital in the North compared to wider European contexts.
