When it comes to their personal transportation, today's youth have shunned the large, heavy performance cars of their parents' generation and instead embraced what has become known as the "sport compact"--smaller, lightweight, modern sports cars of predominantly Japanese manufacture. These cars respond well to performance modifications due to their light weight and technology-laden, high-revving engines. And by far, the most sought-after and modified cars are the Hondas and Acuras of the mid-'80s to the present. An extremely popular method of improving vehicle performance is a process known as engine swapping. Engine swapping consists of removing a more powerful engine from a better-equipped or more modern vehicle and installing it into your own. It is one of the most efficient and affordable methods of improving your vehicle's performance. This book covers in detail all the most popular performance swaps for Honda Civic, Accord, and Prelude as well as the Acura Integra. It includes vital information on electrics, fit, and drivetrain compatibility, design considerations, step-by-step instruction, and costs. This book is must-have for the Honda enthusiast.

Krause Publications' Standard Catalog series is available by specific marque, in individual volumes or a set. Each book contains in-depth profiles of specific makes by model, factory photos, and up-to-date vehicle pricing. The I-to-conditional pricing system assures readers of accurate values, whether a vehicle is a #1 low-mileage, rust-free beauty or a #6 parts-only heap. "Techs & specs", original factory prices, production and serial numbers, and engine/chassis codes are noted by model, thus helping you determine authenticity accuracy. Historical, technical and pricing information are combined from hundreds of sources. James Flammang values each model according to the popular 1-6 grading system invented by Old

Some 35 years ago Datsun (now Nissan) introduced the 1970 Datsun 240Z sports car, emphatically disproving the perception that Japanese automakers could only produce economy cars. Designed specifically to appeal to the American market, the Z car has enjoyed long-term popularity with its sporty styling and impressive performance. Z car fans are loyal and numerous. Over 1.4 million Z cars have been sold worldwide, including 1 million-plus in the U.S. The five generations of Z cars include the latest version, the 350Z introduced in 2003, which has refueled interest in Z cars. This book will thoroughly cover the history of this breakthrough Japanese sports car, and will include official Datsun/Nissan photography and memorabilia such as advertising and international marketing materials.
