The Crisis, founded by W.E.B. Du Bois as the official publication of the NAACP, is a journal of civil rights, history, politics, and culture and seeks to educate and challenge its readers about issues that continue to plague African Americans and other communities of color. For nearly 100 years, The Crisis has been the magazine of opinion and thought leaders, decision

makers, peacemakers and justice seekers. It has chronicled, informed, educated, entertained and, in many instances, set the economic, political and social agenda for our nation and its multi-ethnic citizens.

This book chronicles over 75 years of engine design, development, and production at Chrysler Corporation. Every production engine built by Chrysler is covered, with descriptions, pictures, specifications, and timelines provided for each. Each engine is defined in terms of its basic structure (including its cylinder bore spacing, number of main bearings, and valve operation). In addition to the specifications, the book also looks at the personalities behind the engines' development and the vehicles in which the engines were used.
