At the Sharp End of Lightning

Iggy McMichael, a seemingly average 13-year-old boy, is stunned when he discovers that he's not human-he's an elf, and possibly the last elf prince of Geredia, a magical world connected to Earth! To Iggy's great dismay, the diabolical and odiferous Troll King, self-declared ruler of Geredia, has discovered that Iggy was long ago hidden on Earth. Now the Troll King is sending a slew of zany creatures-smelly trolls, bad-mannered dwarves, scary minotaurs, and worse-to capture Iggy, causing mayhem throughout the Pacific Northwest.

You go down upon the streets of our city to-day, and you can find for sale newspapers and magazines from every large city in the world.-from "Newspaper Law"

What if the government made it mandatory for you to have a microchip implanted in your brain, saying it was for your security, for your safety? Would you believe it? Would you take it? What if you learned world powers were setting up sophisticated spy cameras everywhere to watch and record your every move 24/7? Would you believe it? Would you run and hide? Would you become a subversive and fight back? What if you learned soldiers and law-enforcement officers had become super soldiers, genetically modified trans-humans capable of out-running Usain Bolt, out-lifting Olympic weightlifters, re-growing limbs, and even communicating telepathically through microchips installed in their heads? Would you believe it? Would you acquiesce? Would you revolt? In a chillingly real examination of these questions, post-apocalyptic disaster survivors Nathan King and Velvet Jones escape government clutches, returning to war-ravaged Prince Edward Island only to discover a living nightmare. They are plunged into a fierce battle with savage, opportunistic tribes struggling for survival; demented military soldiers, and giant insects created by the new world order.

Gornia and Sarcus had been at peace for over a hundred years since the Great War, but peace wouldn't last much longer since the powerful black magician, Druck, took control of Sarcus from his weak father. Black Magic had been outlawed after the war, but Druck studied the dark arts in hiding with the help of an old councilman who wanted revenge against Gornia. Together, they renewed the darkest of magic in order to put the entire world under the dark clouds of tyranny and slavery. Lord Nilet, the most powerful magician in Gornia, sensed the dark arts, and he made a "diplomatic" journey to Druck's castle to find out exactly what Druck was up to. He found the answers, but before he could slip away, Druck struck him with powerful magic, and the elderly magician had to protect himself from forces he had never seen before. Lord Nilet's entourage narrowly escaped Druck, and before the last guard died from an incineration spell, Lord Nilet was put into the hands of the local Healer and his son. How will Gornia survive Druck's wrath? It all begins in the small village of Heshire with a young Magician and an apprentice Healer. They don't know the challenges ahead. Friends will become enemies, spies are all around, and Druck's magic is deceptive and confusing. They have just a few days to take action, or Druck will run a dark spear through the

What's Your Green Goldfish is based on the simple premise that employees are the key drivers of customer experience and that "Happy Employees Create Happy Customers." The book focuses on 15 different ways to drive employee engagement and reinforce a strong corporate culture. It's the second book in the goldfish trilogy. The first book was an Amazon Best Seller entitled, What's Your Purple Goldfish. Purple focused on customers, whereby Green focuses on employees. Both books are based on a revolutionary new approach called marketing g.l.u.e. (marketing by giving little unexpected extras). The book is based on the findings of the Green Goldfish Project, an effort which crowd sourced 1,001 examples of signature added value for employees. Key themes emerged from the Project. The book is filled with over 200 examples. PRAISE FOR WHAT'S YOUR GREEN GOLDFISH "Stan is the sherpa that guides executives along the journey between the heart and mind of business stakeholders. Stakeholders aren't always customers though. At a time when company vision and culture matters more than ever, it takes inspired and engaged employees to bring them to life." - Brian Solis, author of What's the Future of Business #WTF, The End of Business as Usual and Engage "So often overlooked, and so very vital to building company value empowering employees to support each other and the brand. Stan Phelps 'gets' it and Green Goldfish will walk you step-by-step though achieving this critical goal." - Ted Rubin, author of Return on Relationship "Great customer centric organizations only exist because of engaged and empowered employees. The Green Goldfish is packed with awesome examples of what world class companies are doing today to inspire and reward their employees. If you see value in truly building an "A Team," Green Goldfish will be, without question, your single best reference." - Chris Zane, Founder and President of Zane's Cycles, author of Reinventing the Wheel, the

Science of Creating Lifetime Customers "Stan Phelps takes customer service to a whole new level by focusing on EMPLOYEE service, and how to do well by your employees - so they take care of your customers. Packed with stories, insights and R.U.L.E.S. any company can follow, this book is a must-read for managers of companies of all shapes and sizes who know that employees don't leave jobs - they leave managers, especially when they don't feel your love and appreciation. Pick this up, and start engaging your team and making more GREEN - Phil Gerbyshak, author of The Naked Truth of Social Media "Our large-scale research shows unequivocally that engaged employees are more likely to work longer, try harder, make more suggestions for improvement, recruit others to join their company, and go out of their way to help customers. They even take less sick time. Companies can tap into the enormous value of engaged employees by following the 15 ideas that Stan lays out in this book." - Bruce Temkin, author of The Six Laws of Customer Experience "Too often, the actual employment experience delivered on the job does not measure up to the version sold to job candidates during the interview process. In What's Your Green Goldfish, Stan Phelps offers 15 ways to close the gap." - Steve Curtin, author of Delight Your Customers: 7 Simple Ways to Raise Your Customer Service from Ordinary to Extraordinary (AMACOM, June 2013) "In What's Your Green Goldfish, Stan Phelps brilliantly applies the idea of 'doing a little something extra' for employees. You know, those people that actually get the work done and keep customers happy. Read it, put some of the ideas to work, and soon you'll be reaping more 'green' from your customers." - Bob Thompson, Founder and CEO, CustomerThink Corp.
