Accounting and Finance

Financial Accounting's distinctive focus company approach motivates students by involving them in the business decisions of a real company, demonstrating how using financial accounting information in decision making makes a difference in the success of a firm. This balanced approach ensures students understand both the preparation and use of financial statements. Libby's pedagogical features and wealth of end of chapter material have been praised by students and instructors alike - making it a market leader in financial accounting. In addition, today's students have diverse learning styles and numerous time commitments and they want technology supplements that help them study more efficiently and effectively. Lyryx Assessment, an online homework assessment solution, and iStudy, an interactive online study guide, provide students with powerful online tools tied directly to Financial Accounting Third Canadian edition. These tools will help students maximize their study time and make their learning experience more enjoyable.

Principles of Accounting Volume 1 - Financial Accounting

The Demo Docs System of instruction replicates the classroom experience by providing more “I get it” moments outside of class. We’ve talked to tons of POA instructors and our editors have even taken the accounting course (numerous times!) to figure out the following issue in this course that is consistent: & Students understand (or “get it”) right after you do a problem in class, but as soon as they leave class, with each passing hour, their ability to do the problems again and complete their homework diminishes to the point of them either having to come to office hours to get help, or they just quit and get behind in the course. & On top of this, you can end up getting behind in the course as well, in order to keep everyone on track. & The Demo Docs system helps to recreate the “I get it” moments outside of class-keeping both you and the students on track.
