Learning math can be a difficult task for any child, and for many adults. But learning to work with numbers need not be a dreaded experience; in fact, it can even be fun! Scott Flansburg, also known as "the Human Calculator," can help kids learn how to add, subtract, multiply and divide without the anxiety and frustration which often accompanies learning these skills. Using techniques that make numbers easy to work with and by demonstrating how math is essential to everyday life (contrary to the lament of a great percentage of students), Math Magic for Your Kids can help maximize your child's potential to understand math and enjoy it in the process. Flansburg has helped millions of "math phobic" adults with his popular lectures and best-selling book, Math Magic. Now he is reaching out to help America's "math phobic" kids. Math Magic for Your Kids makes it easy, even for those adults who suffer from math anxiety, to help the next generation get a leg up on essential math skills. The book is specifically designed to be combined

with various mathematics curricula approved by the National Council of Teachers of Mathematics. Aimed at children aged 5 through 8, it can also benefit younger children who demonstrate a readiness for advanced number concepts and for older children who need reinforcement of basic math skills. For kids who struggle with simple math skills, Flansburg provides activities to "build a child's math sense" and help reinforce math concepts. Math Magic for Your Kids also contains information and anecdotes that relate math concepts to everyday situations, explains principles that facilitate learning in general, and provides shortcut methods as well as challenging puzzles and riddles to keep kids interested and involved. Games and exercises are designed to be executed independently or with parents' help.

To some, chile might be considered a condiment, but in New Mexico it takes center stage. Going back four centuries, native tribes, Spanish missionaries, conquistadors and Anglos alike craved capsicum, and chile became infused in the state's cuisine, culture and heritage. Beloved events like the annual Fiery Foods Show bring together thousands of artisans specializing in chile. The Chile Pepper Institute at New Mexico State University devoutly researches the complexity of chile and releases carefully crafted varieties. Legendary farms like Jimmy Lytle's in Hatch and Matt Romero's in Alcalde carry on generations-old practices in the face of dwindling natural resources. Acclaimed restaurants continue to find inspiration in chile, from classic dishes to innovative creations. Join local author and award-winning documentary filmmaker "Chile Chica" Kelly Brinn Urig for the enchanting history of chile.

New Mexico Territory attracted outlaws and desperados as its remote locations

guaranteed non-detection while providing opportunists the perfect setting in which to seize wealth. Many wicked women on the run from their pasts headed there seeking new starts before and after 1912 statehood. Colorful characters such as Bronco Sue, Sadie Orchard and Lizzie McGrath were noted mavens of mayhem, while many other women were notorious gamblers, bawdy madams or confidence tricksters. Some paid the ultimate price for crimes of passion, while others avoided punishment by slyly using their beguiling allure to influence authorities. Follow the raucous tales of these wild women in a collection that proves crime in early New Mexico wasn't only a boys' game.

Created by the visionary Charles B. Eddy, Carlsbad rose from the humble beginnings of a tent city to become a vital community on the banks of the Pecos River. One of the largest irrigation projects known at that time made the transformation possible. The Carlsbad Caverns, discovered by James Larkin White and documented by local photographer Ray V. Davis, introduced the world to the wonders that lay beneath the desert surface. World War II saw Carlsbad members of the 200th and 515th Coast Artillery units being thrown into the midst of the Bataan Death March. With the discovery of a large deposit of potash east of town, agriculture flourished nationwide and prosperity returned to the town. As the country moved into the nuclear age, Carlsbad once again played a significant role. The detonation of the Gnome Project in 1961 and the Waste Isolation Pilot Plant of

the present day have provided the country with vital knowledge and nuclear waste storage.

The Spanish introduced European livestock to the New World—not only cattle and horses but also mules, donkeys, sheep, goats, pigs, and poultry. This survey of the history of domestic livestock in New Mexico is the first of its kind, going beyond cowboy culture to examine the ways Spaniards, Indians, and Anglos used animals and how those uses affected the region’s landscapes and cultures. The author has mined the observations of travelers and the work of earlier historians and other scholars to provide a history of livestock in New Mexico from 1540 to the present. He includes general background on animal domestication in the Old World and the New during pre-Columbian times, along with specific information on each of the six livestock species brought to New Mexico by the early Spanish colonists. Separate chapters deal with the impacts of Spanish livestock on the state’s native population and upon the land itself, and a final chapter explains New Mexico’s place in the larger American livestock scene.

Surviving would be hard enough, but after a run-in with one of the city's Protectors, she's marked by a curse that's slowly working its way to her heart. There is a cure, but the cost is astronomical—and seems well out of her reach. Enter Beck, a boy with a gift for theft and a touch of magic, who seems almost too good to be true. He tells Alli that the legendary Thieves Guild, long thought to be a myth, is real. Even better, Beck is a member and thinks she could be, too. All she has to do is pass the trial that the King of Thieves will assign to her. Join the Guild, collect her yearly reward and buy a cure. There's nae power on earth can crush the men who can sing on a day like this. A powerful re-imagining of Joe Corrie's neglected classic about a Fife mining community during the General Strike. To raise funds for the soup kitchens feeding the miners and their starving families, Corrie wrote In Time O' Strife in 1926 whilst on strike himself, exposing the brutal lives of a family staring hunger and defeat in the face. Some 87 years later, Graham McLaren has adapted, designed and directed this rarely performed classic play. Created by Graham McLaren (Men Should Weep, A Christmas Carol), the production uses fragments of Corrie's other

plays, poems and songs, celebrating his ability as a writer and his contribution to Scottish culture. This edition pairs Corrie's original text with the script created by McLaren's adaptation process.

Instructions for Officers and Non-Commissioned Officers of Cavalry

Everybody knows the legend of Captain Kidd, America's most ruthless buccanneer. Few people realize that the facts of his life make for a much better tale. Kidd was actually a tough New York sea captain hired to chase pirates, a married war hero whose secret mission took a spectacularly bad turn. This harrowing tale traces Kidd's voyages in the 1690s from his home near Wall Street to Whitehall Palace in London, from the ports of the Caribbean to a secret pirate paradise off Madagascar. Author Richard Zacks, during his research, also unearthed the story of a long forgotten rogue named Robert Culliford, who dogged Kidd and led Kidd's crew to mutiny not once but twice. The lives of Kidd and Culliford play out like an unscripted duel: one man would hang in the harbor, the other would walk away with the treasure. Filled with superb writing and impeccable research, *The Pirate Hunter* is both a masterpiece of historical detective work and a ripping good yarn, and it delivers something rare: an authentic pirate story for grown-ups.

Every vine has a story, and nearly four hundred years ago, New Mexico's wine journey began when the first Mission grapes were planted in 1629. Taste this rich legacy, the oldest in the United States, in Donna Blake Birchell's account of the

turmoil and triumph that shaped today's burgeoning industry. Despite greedy Spanish monarchs, prim teetotalers and the one-hundred-year flood's gift of root rot and alkaline deposits, New Mexico winemakers continue to harvest the fruits of sun-soaked volcanic soils and clear skies, blending their family stories with the vines and traditions of the Old World. Raise a toast and join Birchell on the trail of New Mexico's enchanted wines as she explores the heritage of more than fifty wineries in four distinct wine-growing regions.
