The Illustrated Encyclopedia of the World's Commercial Aircraft

These handbooks present the latest civil aviation directives gathered from the

Federal Aviation Regulations (FAR) and the Aeronautical Information Manual (AIM) for pilots, flight crew, and aviation maintenance technicians. All regulations that have changed since the last release are precisely marked and indexed to provide a clear listing of subject matter and to refer pilots and staff to the correct paragraph or regulation number. The FAR and AIM sections are reproduced in reset type for easier reading, and the AIM features detailed, full-color graphics. A suggested study list is provided, along with a helpful list of the addresses and phone numbers for the FAA, National Transportation Safety Board, National Ocean Service, and Flight Standards District Office.
