The Alfa Romeo 105 series Spider is one of the most admired drop-head sports cars to come out of Italy. Launched in 1966, its radical new look was not immediately welcomed. As prospective buyers gradually warmed to the model, enhancements were introduced including more powerful engines and higher-spec body and interior fittings. Despite its inauspicious start, production of this much-admired car lasted for twenty-seven years, finally stopping in 1993. Jim Talbott and Andrew Brown pay homage to the 105/115 series Alfa Spider. With over 330 photographs, many specially commissioned, this new book describes the Alfa Romeo company history

including its philosophy of incorporating driver appeal into all of its products, resulting in some of the most desirable vehicles of their age; it details the evolution of the 105/115 series through four distinct body styles; lists the technical design specifications and every major version of the Spider and finally, discusses the issues and challenges of finding and owning a classic Spider.

After 20 years of glorious 'failure', the best-loved team in Formula One is consigned to the history books, and it deserves one of its own. Minardi had a successful time in Formula Two until the tiny Italian outfit was ready to hit the big time in 1985. It somehow survived in F1's shark-infested waters as bigger teams (Lotus, Arrows, Tyrrell) were dragged under. They have a truly international fan-base and are the 'second team' of most F1 devotees. Minardi is held in such affection as everyone loves the plucky underdog - Minardi's annual budget would have lasted one month at the other Italian team up the road. Yet, from its plant in Faenza near Bologna, Minardi has produced cars that qualify, sometimes score points and often lead the way in their technology. Gian Carlo Minardi also developed a reputation as a fabulous talent-spotter - Fisichella, Trulli, Webber and the youngest ever World Champion Alonso all started their F1 careers with Minardi. For the last five years, Minardi was owned by controversial Australian tycoon Paul Stoddart. Cast as

David against the Goliath of F1's governing body, Stoddart constantly hit the headlines as he tried to get a more equal share of the sport's billions. Ultimately, he failed and Red Bull has now bought the team. Despite a petition of 15,000 names, the Minardi name has vanished from the F1 grid and true motorheads miss it. This is the one and only inside account, with exclusive, comprehensive interviews with bosses, drivers and engineers. 140 unique photos complete this revalationary tale.

Car Book Value Guide 1991

The British Motor Corporation's 1100 and 1300 model range was amongst the most successful in the Corporation's history, selling more than 2.1 million of all types between its introduction in 1962 and its demise in 1974. World-wide, it was sold under eight different marque names and in two-door saloon, four-door saloon, two-door estate, and five-door hatchback forms - and very nearly as a van as well. In Britain, it was the country's best-selling car between 1962 and 1971, being beaten just once (in 1967) by the Ford

Cortina. BMC 1100 and 1300 looks at the design and development of a model range that at the time confirmed BMC as a pioneer of new automotive ideas and had a profound impact on other manufacturers. It covers not only the full standard model range, but special conversions, cars built abroad, and owning and running the cars today. Superbly illustrated with 150 colour photographs.

Alfa Romeo Giulia Spider

This indispensable new book covers all Alfa Romeo production cars, from 1910 to 1986. Technical and descriptive detail is given for each car, as well as information about the way each model evolved through its lifetime. Within an easy-to-use format, the book offers answers to the most frequently asked questions about Alfa Romeos, and is therefore of great value to potential buyers, collectors and enthusiasts. The photos, which are of the period and therefore completely reliable, provide a further means of comparison to help identification.

Forza Minardi!

MGB & MGB GT

Immortalized as Dustin Hoffman's transport in *The Graduate*, the Alfa Romeo Spider enjoyed an

extraordinarily long production span of 27 years. Launched as the 1600cc Duetto with Pininfarina's simply-styled round-tailed body, it got a 1750cc engine and a boxed off tail in 1969, grew into a 2000cc in 1970 and was saddled with rubber bumpers in the 1980s, but mercifully lost them in 1990. Chris Rees has assembled a comprehensive production history of the car that was offered in literally dozens of different versions with a bewildering multiplicity of minor changes and variants. This task has never been properly attempted before, and the result is sure to be eagerly seized upon by the thousands of Spider enthusiasts hungry for a definitive volume.

Alfa Romeo 916 GTV and Spider

Alfa Romeo is synonymous with style and performance. These qualities are epitomized in forty years' production of the famous Alfa Romeo series of Spider sports cars. From the Giulietta Spider of 1955 to the latest style launched in 1996, John Tipler offers the full and fascinating story of the conception, design, introduction and production of these stylish automobiles.

Keith Martin on Collecting Alfa Romeo

The history of Dinky Toys, Corgi Toys and other makers of diecast metal cars has been covered in great detail in many books and magazine articles; by contrast, information on plastic toy cars is much harder to come by. Yet collectors are taking an increasing interest in plastic cars, particularly as the

rise in the value of early diecast and tinfoil models has put many of these out of reach of the average enthusiast. For the first time, this book aims to provide a systematic introduction to the vast number of plastic cars made during the 1950s and 1960s. Years of research have enabled the author to uncover many fascinating facts about the companies who made these toys. Some were major players in the toy industry, like Tri-ang and Brimtoy in the UK, Norev and Minialuxe in France, Gama and Siku in Germany and Ingap in Italy. Many others, though, were more obscure, and some only modeled one car before disappearing without trace. More than 250 photographs of these toys are included, with the emphasis being on the most colorful and realistic examples, all of them based on real vehicles of the period. In many cases, the toy is pictured alongside its original box, the presence of which can often double the value of the item to a collector. Readers will also find a handy glossary listing the names of many of the companies who were active in this field in the 1950s and 1960s, together with some evocative period advertisements and catalogue illustrations. If you thought that a model car had to be made of diecast metal to be worth collecting, this book might change your mind . . . With 250 color photos, extensive appendices and identification aids this is a must have for any collector or dealer.

The Complete Car Cost Guide

Nobody knows Alfa Romeo like the people at Sports Car Market, especially Keith Martin, who started the magazine as Alfa Romeo Market Letter almost 20 years ago. This book brings together the magazine's best articles on Alfas over the years giving detailed coverage of every car from the four-door 164s of the 90s to the Spiders of the 50s and 60s to the earliest pre-war 6C and 8C classics; from Giulias, Giuliettas, Duettos, Sprints, Zagatos, and more. Here aficionados and curious amateurs alike will find a full slate of insider information (why, for instance, is one GTV a good deal at \$30,000, and another a horrible buy at \$10,000?), in-person reviews of Alfas that have actually sold at auction, and exactly what the SCM experts think of the prices they brought. Whether you're thinking of buying your first Alfa or your tenth, you'll find information inside Keith Martin on Collecting Alfa Romeo that you won't get anywhere

else and that will help you make the right decision, the very first time.

Classic Old Car Value Guide

Alfa Romeo 916 GTV and Spider traces the complete story of the Alfa Romeo GTV and Spider models produced between 1994 - 2005, commonly known to enthusiasts by the manufacturer's project code as the 916 series. The 916 models would always be controversial - they replaced the iconic Spider, the best-selling Alfa Romeo sports model of all time, and the brand-establishing Alfetta GTV. Sharing components and a platform with a humble Fiat hatchback, would the cars ever be considered 'real' Alfa Romeos? The cars were critically acclaimed, and, though they faced tough competition in the late 1990s from the likes of the Audi TT, they remained in production for over a decade. Topics covered include: Full history of the 916 series GTV and Spider models; Design, development and evolution of the models from 1994 - 2005; Participation of the GTV in motorsport; Model variations in depth through all three facelifts; Previously unpublished production figures, and chassis numbers for the desirable, limited-edition GTV Cup model. Comprehensively researched guide to the entire lifespan of the 916 series. Will appeal to Alfa Romeo and automotive enthusiasts. The history and design process are examined along with an in-depth guide to each of the model variants produced. The cars' current position in the classic car market is considered. Superbly illustrated with 240 colour photographs. Robert Foskett is a life-long Italian

car enthusiast with a special interest in Alfa Romeo.
