### **Annual Report**

Dealing with the interface between the Alternative Dispute Resolution (ADR) movement and the phenomenon of domestic violence against women, this book examines the phenomenon of divorce disputes involving violence through the prism of 'alternative justice' and the dispute resolution mechanisms offered by the ADR movement. This book is the first academic treatise presenting the theoretical underpinnings of the correlation between the ADR movement and divorce disputes involving violence, and the potential contribution of this movement to the treatment of disputes of this nature. Through mapping the main values of the ADR movement, the book proposes a theoretical-analytical basis for understanding the inability of the legal system to deal with disputes of this nature, alongside a real alternative, in the form of the ADR mechanisms.

away, but if you approach it consciously, you can navigate it in way that not only honors everyone involved but makes it a source of deep insight as well. Seasoned mediator Diane Hamilton provides the skill set you need to engage conflict with wisdom and compassion, and even—sometimes—to be grateful for it. She teaches us how to:

- Cultivate the mirror-like quality of attention as your base
- Identify three personal conflict styles and determine which ones you fall into
- Recognize the three fundamental perspectives in any conflict situation and learn to inhabit each of them
- Turn conflicts in families, at work, and in every kind of interpersonal situation into win-win situations

Her unique approach unites Zen wisdom and Integral Spirituality with her own story and her experiences as a professional mediator in a way that shows you how to look at conflict in a new way: as an essentially spiritual practice.

The treatise covers the major ADR processes, including client counseling, negotiation, mediation, arbitration, and collaborative law and addresses legal, practical, and ethical aspects of each process. This title provides a framework for selecting the most appropriate dispute resolution process and will assist attorneys, law students, neutrals, and parties in conflict in effectively addressing, managing, and resolving disputes.

broadly outside, and separate from, national laws and customs. This groundbreaking book shows that Shari'a and its 'fiqh' (laws set forward by various Islamic legal schools) comprise a far more nuanced matrix of interpretations than is often assumed to be the case. Far from being monolithic or impervious to change from without, Muslim legal tradition has - since its beginnings in the early Islamic period - placed an emphasis on equity and non-adversarial conflict-resolution. Mohamed Keshavjee examines both Sunni and Shi'a applications of Islamic law, demonstrating how political, cultural and other factors have influenced the practice of fiqh and Shari'a in the West. Exploring in particular the modern development of Alternative Dispute Resolution (ADR), the author shows that this process can revitalise some of the essential principles that underlie Muslim teachings and jurisprudence, delivering not only formal remedies but also perceived justice, even to non-Muslims.

conflicts, civil unrest and other macro disputes are in play even in the smallest community conflicts. The converse is also true: lessons learned through community mediation, for example in South Africa, are applicable to the most complex and largest conflicts to be found on the continent. Together, the eleven chapters in this publication, in addition to the prologue and epilogue, suggest that a comprehensive assessment of efforts and investments in conflict resolution and peace studies in Africa since the mid-1990s is due in order to identify lessons and challenges, as well as best practices. Just as conflict dynamics are comparable between African conflicts, whether large or small, local or international, so are alternative dispute resolution processes. Effective approaches to resolving large-scale conflicts and civil wars are effective at the community level, and ineffectual techniques at the community level are just as likely to be counter-productive in mediating international disputes. While there may be some differences in mediating macro- and micro-conflicts (such as the time required, the need for negotiation teams, and the complexities of agenda development or pre-negotiations), as far as the mediation process is concerned, the differences are more like variations on a theme than real substantive dissimilarities. This volume provides case studies of programs and policies, and legislations on alternative dispute resolution and peace building, and examines and proposes some new, promising ideas for conflict prevention, as well as maintenance of peace, justice and security in Africa.

“Chad Ford reminds us that humanity lies within all of us, and although conflict is everywhere in today's world, we have the tools we need to overcome obstacles and to thrive. This is a fantastic, timely book that I highly recommend.” —Steve Kerr, Head Coach, Golden State Warriors

Knowing how to transform conflict is critical in both our personal and professional lives. Yet, by and large, we are terrible at it. The reason, says longtime mediator Chad Ford, is fear. When conflict comes, our instincts are to run or fight. To transform conflict, Ford says we need to turn toward the people we are in conflict with, put down our physical and emotional weapons, and really love them with the kind of love that leads us to treat others as fellow human beings, not as objects in our way. We have to open ourselves up with no guarantee that anyone on the other side will do the same. While this can feel even more dangerous than conflict itself, it allows us to see the humanity of others so clearly that their needs and desires matter to us as much as our own. Ford shows dangerous love in action through examples ranging from his work in the Middle East to a deeply moving story about reconciling with his father. He explains why we disconnect from people at the very time we need to be most connected and the predictable patterns of justification and escalation that ensue. Most importantly, he gives us a path to practice dangerous love in the conflicts that matter most to us.

This book highlights the tremendous shift in the traditional arrangements for the delivery of civil justice in the Commonwealth Caribbean, from litigation to alternative dispute resolution (ADR) processes. Over the last quarter of a century, much learning has taken place on the topic of ADR and the literature on the subject is now voluminous. This book puts forward the thesis that the peculiar experiences of the developing world ought to help reshape our traditional notions of ADR. Furthermore, the impact of globalisation on the developing world has brought with it special and peculiar challenges to our notions of civil and criminal justice which are not replicated elsewhere. This book will appeal to a wide readership. The legal profession, students of law and politics, social scientists, mediators, the police, state officers and the public at large will find its contents of interest.

Alternative Dispute Resolution (ADR) is a rapidly growing field, due to its popularity as an alternative to long and expensive lawsuits. ADR involves resolving disputes of any kind outside of the judicial system, through negotiation, mediation, arbitration, and other processes. This book is for people who work within organizations and are involved in disputes themselves, or for people who are required to deal with or resolve disputes. It covers how to set up a dispute resolution process in an organization.
