### The Apology

Between 1974 and 1990 more than thirty countries in southern Europe, Latin America, East Asia, and Eastern Europe shifted from authoritarian to democratic systems of government. This global democratic revolution is probably the most important political trend in the late twentieth century. In *The Third Wave*, Samuel P. Huntington analyzes the causes and nature of these democratic transitions, evaluates the prospects for stability of the new democracies, and explores the possibility of more countries becoming democratic. The recent transitions, he argues, are the third major wave of democratization in the modern world. Each of the two previous waves was followed by a reverse wave in which some countries shifted back to authoritarian government. Using concrete examples, empirical evidence, and insightful analysis, Huntington provides neither a theory nor a history of the third wave, but an explanation of why and how it occurred. Factors responsible for the democratic trend include the legitimacy dilemmas of authoritarian regimes; economic and social development; the changed role of the Catholic Church; the impact of the United States, the European Community, and the Soviet Union; and the "snowballing" phenomenon: change in one country stimulating change in others. Five key elite groups within and outside the nondemocratic regime played roles in shaping the various ways democratization occurred. Compromise was key to all democratizations, and elections and nonviolent tactics also were central. New democracies must deal with the "torturer problem" and the "praetorian problem" and attempt to develop democratic values and processes. Disillusionment with democracy, Huntington argues, is necessary to consolidating democracy. He concludes the book with an analysis of the political, economic, and cultural factors that will decide whether or not the third wave continues. Several "Guidelines for Democratizers" offer specific, practical suggestions for initiating and carrying out reform. Huntington's emphasis on practical application makes this book a valuable tool for anyone engaged in the democratization process. At this volatile time in history, Huntington's assessment of the processes of democratization is indispensable to understanding the future of

democracy in the world.

## **American Democracy in Context**

How propaganda undermines democracy and why we need to pay attention Our democracy today is fraught with political campaigns, lobbyists, liberal media, and Fox News commentators, all using language to influence the way we think and reason about public issues. Even so, many of us believe that propaganda and manipulation aren't problems for us—not in the way they were for the totalitarian societies of the mid-twentieth century. In *How Propaganda Works*, Jason Stanley demonstrates that more attention needs to be paid. He examines how propaganda operates subtly, how it undermines democracy—particularly the ideals of democratic deliberation and equality—and how it has damaged democracies of the past. Focusing on the shortcomings of liberal democratic states, Stanley provides a historically grounded introduction to democratic political theory as a window into the misuse of democratic vocabulary for propaganda's selfish purposes. He lays out historical examples, such as the restructuring of the US public school system at the turn of the twentieth century, to explore how the language of democracy is sometimes used to mask an undemocratic reality. Drawing from a range of sources, including feminist theory, critical race theory, epistemology, formal semantics, educational theory, and social and cognitive psychology, he explains how the manipulative and hypocritical declaration of flawed beliefs and ideologies arises from and perpetuates inequalities in society, such as the racial injustices that commonly occur in the United States. *How Propaganda Works* shows that an understanding of propaganda and its mechanisms is essential for the preservation and protection of liberal democracies everywhere.

## **Analyzing American Democracy**

Instant New York Times Bestseller "A richly documented indictment of power and corruption." —Kirkus Reviews Through diligent research, Seth Abramson exposes a story that U.S. media has largely missed: a pre-election geopolitical conspiracy involving Saudi Arabia, the United Arab Emirates, Israel, and Russia that sought to put Trump in the White House—and succeeded. In late 2015, convicted pedophile, international dealmaker, and cooperating witness in Special Counsel Robert Mueller's Russia investigation George Nader convened a secret meeting aboard a massive luxury yacht in the Red Sea. Nader pitched Saudi Crown Prince Mohammed bin Salman, Emirati Crown Prince Mohammed bin Zayed, Egyptian President Abdel Fattah el-Sisi and other Middle Eastern leaders a plan for a new pro-U.S., pro-Israel alliance of Arab nations that would fundamentally alter the geopolitics of the Middle East while marginalizing Iran, Qatar, and Turkey. To succeed, the plan would need a highly placed American politician willing to drop sanctions on Russia so that Vladimir Putin would in turn agree to end his support for Iran. They agreed the perfect American partner was Donald Trump, who had benefited immensely from his Saudi, Emirati, and Russian dealings for many years, and who, in 2015, became the only U.S. presidential candidate to argue for a unilateral end to Russian sanctions and a far more hostile approach to Iran. So begins New York Times bestselling author Seth Abramson's explosive new book *Proof of Conspiracy: How Trump's International Collusion Threatens American Democracy*, a story of international intrigue whose massive cast of characters

includes Israeli intelligence operatives, Russian oligarchs, Saudi death squads, American mercenary companies, Trump's innermost circle, and several members of the Trump family as well as Trump himself—all part of a clandestine multinational narrative that takes us from Washington, D.C. and Moscow to the Middle Eastern capitals of Riyadh, Abu Dhabi, Jerusalem, Cairo, Tehran, and Doha. *Proof of Conspiracy* is a chilling and unforgettable depiction of the dangers America and the world now face.

## **American Government**

2015 Recipient of the American Book Award  
The first history of the United States told from the perspective of indigenous peoples  
Today in the United States, there are more than five hundred federally recognized Indigenous nations comprising nearly three million people, descendants of the fifteen million Native people who once inhabited this land. The centuries-long genocidal program of the US settler-colonial regimen has largely been omitted from history. Now, for the first time, acclaimed historian and activist Roxanne Dunbar-Ortiz offers a history of the United States told from the perspective of Indigenous peoples and reveals how Native Americans, for centuries, actively resisted expansion of the US empire. In *An Indigenous Peoples' History of the United States*, Dunbar-Ortiz adroitly challenges the founding myth of the United States and shows how policy against the Indigenous peoples was colonialist and designed to seize the territories of the original inhabitants, displacing or eliminating them. And as Dunbar-Ortiz reveals, this policy was praised in popular culture, through writers like James Fenimore Cooper and Walt Whitman, and in the highest offices of government and the military. Shockingly, as the genocidal policy reached its zenith under President Andrew Jackson, its ruthlessness was best articulated by US Army general Thomas S. Jesup, who, in 1836, wrote of the Seminoles: "The country can be rid of them only by exterminating them." Spanning more than four hundred years, this classic bottom-up peoples' history radically reframes US history and explodes the silences that have haunted our national narrative.

## **American Government in Black and White**

Focuses on what happens when the American public gets decide on the fate of capital punishment.

## **Star Power**

Increase student performance, student engagement, and critical analysis skills with the third edition of *American Democracy Now*. This program is available with *GinA*, an educational game in which students learn American Government by doing, as well as McGraw-Hill's *LearnSmart*, an adaptive questioning tool proven to increase content comprehension and improve student results. Unique to this program, *American Democracy Now 3e* is a student-centered text focused on student performance. This contemporary approach and design, coupled with market-leading digital products, make this an ideal solution to course goals.

## **American Government**

## **Harrison, American Democracy Now, Reinforced Binding**

What is the Green New Deal and how can we afford it? To protect the future of life on earth, we need to do more than just reimagine the economy--we have to change everything. One of the seminal thinkers of the program that helped ignite the US Green New Deal campaign, Ann Pettifor explains how we can afford what we can do, and what we need to do, before it is too late. The Case for the Green New Deal argues that economic change is wholly possible, based on the understanding that finance, the economy and the ecosystem are all tightly bound together. The GND demands total decarbonization and a commitment to an economy based on fairness and social justice. It proposes a radical new understanding of the international monetary system. Pettifor offers a roadmap for financial reform both nationally and globally, taking the economy back from the 1%. This is a radical, urgent manifesto that we must act on now.

## **The New Global Politics of the Asia Pacific**

Perkins, a former chief economist at a Boston strategic-consulting firm, confesses he was an "economic hit man" for 10 years, helping U.S. intelligence agencies and multinationals cajole and blackmail foreign leaders into serving U.S. foreign policy and awarding lucrative contracts to American business.

## **Hitler's First Hundred Days**

Named one of the most important nonfiction books of the 21st century by Entertainment Weekly, Slate, Chronicle of Higher Education, Literary Hub, Book Riot, and Zora A tenth-anniversary edition of the iconic bestseller—"one of the most influential books of the past 20 years," according to the Chronicle of Higher Education—with a new preface by the author "It is in no small part thanks to Alexander's account that civil rights organizations such as Black Lives Matter have focused so much of their energy on the criminal justice system." —Adam Shatz, London Review of Books Seldom does a book have the impact of Michelle Alexander's *The New Jim Crow*. Since it was first published in 2010, it has been cited in judicial decisions and has been adopted in campus-wide and community-wide reads; it helped inspire the creation of the Marshall Project and the new \$100 million Art for Justice Fund; it has been the winner of numerous prizes, including the prestigious NAACP Image Award; and it has spent nearly 250 weeks on the New York Times bestseller list. Most important of all, it has spawned a whole generation of criminal justice reform activists and organizations motivated by Michelle Alexander's unforgettable argument that "we have not ended racial caste in America; we have merely redesigned it." As the Birmingham News proclaimed, it is "undoubtedly the most important book published in this century about the U.S." Now, ten years after it was first published, The New Press is proud to issue a tenth-anniversary edition with a new preface by Michelle Alexander that discusses the impact the book has had and the state of the criminal justice reform movement today.

## **How Propaganda Works**

The original edition of this accessible and interdisciplinary textbook was the first to consider the ethical issues of digital media from a global, cross-cultural perspective. This third edition has been thoroughly updated to incorporate the latest research and developments, including the rise of Big Data, AI, and the Internet of Things. The book's case studies and pedagogical material have also been extensively revised and updated to include such watershed events as the Snowden revelations, #Gamergate, the Cambridge Analytica scandal, privacy policy developments, and the emerging Chinese Social Credit System. New sections include "Death Online," "Slow/Fair Technology", and material on sexbots. The "ethical toolkit" that introduces prevailing ethical theories and their applications to the central issues of privacy, copyright, pornography and violence, and the ethics of cross-cultural communication online, has likewise been revised and expanded. Each topic and theory are interwoven throughout the volume with detailed sets of questions, additional resources, and suggestions for further research and writing. Together, these enable readers to foster careful reflection upon, writing about, and discussion of these issues and their possible resolutions. Retaining its student- and classroom-friendly approach, Digital Media Ethics will continue to be the go-to textbook for anyone getting to grips with this important topic.

## **Gateways to Democracy: An Introduction to American Government**

The new, fully updated second edition of The New Global Politics of the Asia Pacific builds on its coherent framework for understanding the complex international and global politics of the Asia Pacific. The textbook provides an introductory guide for the main frameworks needed to understand the region (realism, liberalism, critical theory), which is reader-friendly while still offering sophisticated competing interpretations. Key content includes: the US in the Asia Pacific; China and Japan in the Asia Pacific; Southeast Asia in the Asia Pacific; India in the Asia Pacific; Russia in the Asia Pacific; Australia in the Asia Pacific; Europe in the Asia Pacific; globalization, regionalism and political economy; Asian values, democracy and human rights; transnational actors; region security order and the impact of terrorism on the region. A highly topical account, which provides an overview of the main actors, institutions and contemporary issues such as security, terrorism and transnational actors, the book is required reading for undergraduate students of Asian studies, international politics, and anyone interested in the region.

## **In Our Defense**

In this Second Edition of this radical social history of America from Columbus to the present, Howard Zinn includes substantial coverage of the Carter, Reagan and Bush years and an Afterword on the Clinton presidency. Its commitment and vigorous style mean it will be compelling reading for under-graduate and post-graduate students and scholars in American social history and American studies, as well as the general reader.

## **Digital Media Ethics**

American Democracy and Citizenship: A Reader uses thought-provoking contemporary articles and book chapters by well-known authors and political commentators to address a wide variety of subjects--some controversial--in American government. Students will explore topics such as citizenship, constitutional foundations, federalism, and civil liberties. Reading selections also examine civil rights, political participation and voting behavior, and public opinion and political socialization. Students will learn about the important role interest groups play in politics and expand their understanding of congress, the presidency, and the judiciary. With its fresh take on familiar institutions and ideas, American Democracy and Citizenship is designed to spark interest and generate debate. The book serves as an ideal companion reader to standard textbooks for introductory American government courses.

### **The Undermining of American Democracy**

In 1996 Amy Goodman began hosting a show on Pacifica Radio called Democracy Now! to focus on the issues and movements that are too often ignored by the corporate media. Today Democracy Now! is the largest public media collaboration in the US, broadcasting on over 1,400 public television and radio stations around the world, with millions accessing it online at DemocracyNow.org. Now Amy, along with her journalist brother, David, and co-author Denis Moynihan, share stories of the heroes -- the whistleblowers, the organizers, the protesters -- who have brought about remarkable change. This important book looks back over the past two decades of Democracy Now! and the powerful movements and charismatic leaders who are re-shaping our world.

### **Introduction to American Democracy and Citizenship**

#### **The Soul of America**

This is an introductory American politics text covering the constitutional framework of American government, political behavior and informal institutions, the formal institutions of American government, and a concluding chapter on public policy. Every chapter highlights the most current thinking in political science research and discusses related public policy. This text teaches students to think analytically by presenting current political science theories and research in answering the engaging, big questions facing American politics today. It serves as an introduction to the discipline by reflecting the theoretical developments and types of empirical inquiry conducted by researchers. New to the Third Edition: 2016 and 2018 election updates and analysis of their political and policy impact Social media's growing influence on politics The impact of the alt-right and rising populism on elections and policy New trends in public opinion Weakening of the Voting Rights Act Campaign finance upheaval The changing congressional landscape Updated tables, figures, and photos present the empirical details of American politics, helping students gain quantitative literacy Landmark court cases, now highlighted and linked to key concepts Refreshed feature boxes reinforce the book's dedication to helping students understand the scientific approach to politics, incorporating intriguing new topics including genetics and public opinion, the biology of political

participation, and evolution and the bureaucracy

## **The Case for the Green New Deal**

Discover what makes American democracy unique and how its government impacts your life American Democracy in Context provides a combined comparative and historical approach to inspire students to better understand American government and become active citizens. Bestselling authors Maltese, Pika, and Shively explain the distinctive features of how Americans practice democracy—how they vote, translate election results into representation of interests, make policy decisions, enforce laws and maintain justice—and how those practices differ from other democracies throughout the world. The emphasis is always on the American political system, but the search for understanding encourages students to examine how the American system has developed over time (historical context) and how it compares with similar practices in other democracies (comparative context). This combined approach motivates students to understand why politics is relevant to their everyday lives and how they can affect changes and make a difference. ## **My Vanishing Country**

GATEWAYS TO DEMOCRACY introduces the American political system to students, pointing out in each chapter the gateways that facilitate, or at times block, participation. In emphasizing how the political system works-and how individuals and groups have opened gates to influence public policy-the text helps students see the relevance of government in their lives. The third edition provides coverage of the 2014 midterm elections as well as enhanced discussion of the politics, policies, and issues affecting Latinos in the United States. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

## **U.S. History**

Technology and increasing levels of education have exposed people to more information than ever before. These societal gains, however, have also helped fuel

a surge in narcissistic and misguided intellectual egalitarianism that has crippled informed debates on any number of issues. Today, everyone knows everything: with only a quick trip through WebMD or Wikipedia, average citizens believe themselves to be on an equal intellectual footing with doctors and diplomats. All voices, even the most ridiculous, demand to be taken with equal seriousness, and any claim to the contrary is dismissed as undemocratic elitism. Tom Nichols' *The Death of Expertise* shows how this rejection of experts has occurred: the openness of the internet, the emergence of a customer satisfaction model in higher education, and the transformation of the news industry into a 24-hour entertainment machine, among other reasons. Paradoxically, the increasingly democratic dissemination of information, rather than producing an educated public, has instead created an army of ill-informed and angry citizens who denounce intellectual achievement. When ordinary citizens believe that no one knows more than anyone else, democratic institutions themselves are in danger of falling either to populism or to technocracy or, in the worst case, a combination of both. An update to the 2017 breakout hit, the paperback edition of *The Death of Expertise* provides a new foreword to cover the alarming exacerbation of these trends in the aftermath of Donald Trump's election. Judging from events on the ground since it first published, *The Death of Expertise* issues a warning about the stability and survival of modern democracy in the Information Age that is even more important today.

### **American Government**

The Pulitzer Prize-winning novel that tells the story of two sisters through their correspondence. With a new Preface by the author.

### **Modern Democracies**

The public believes that politicians in the US favor special interests over their constituents and that our political institutions have become corrupt—and they are right. A growing body of evidence shows that special interests have disproportionate sway over policy via campaign contributions and lobbying. In this book, the author presents this evidence in a logical, understandable way; he then illustrates how campaign contributions harm our economy, exacerbate inequality, and undermine our democracy. One of the most startling findings of the book is that campaign contributions led to the Financial Crisis and Great Recession. The author concludes that campaign contributions have effectively created an oligarchy in the US, and, thus, reform is needed to save our democracy. The final chapter of the book suggests a number of different reforms that could be pursued—and highlights some ways in which these reforms can be achieved.

### **Democracy Now!**

Learn why the Roman Republic collapsed -- and how it could have continued to thrive -- with this insightful history from an award-winning author. In *Mortal Republic*, prize-winning historian Edward J. Watts offers a new history of the fall of the Roman Republic that explains why Rome exchanged freedom for autocracy. For centuries, even as Rome grew into the Mediterranean's premier military and

political power, its governing institutions, parliamentary rules, and political customs successfully fostered negotiation and compromise. By the 130s BC, however, Rome's leaders increasingly used these same tools to cynically pursue individual gain and obstruct their opponents. As the center decayed and dysfunction grew, arguments between politicians gave way to political violence in the streets. The stage was set for destructive civil wars -- and ultimately the imperial reign of Augustus. The death of Rome's Republic was not inevitable. In *Mortal Republic*, Watts shows it died because it was allowed to, from thousands of small wounds inflicted by Romans who assumed that it would last forever.

## **The Death Penalty on the Ballot**

Are celebrity politics the spice of American public life or a pox on policy progress? This book identifies and measures the attributes of celebrities that make them well-equipped to win campaigns and yet poorly prepared to govern effectively. The framers of the U.S. Constitution worried about the propensity of an undereducated public to elect unqualified entertainers rather than fit characters to government positions. Celebrities have come to play an increasingly central role in the American political process as fundraisers, surrogates, and as candidates themselves, yet remain a sorely understudied topic in political science. Through a multimethod approach that includes qualitative analysis, novel public opinion surveys, and survey experiments, this book assesses whether Americans are more likely to vote for celebrities than well-known traditional politicians and the implications of these preferences for democracy in the U.S. Perfect for students, scholars, and interested citizens, *Star Power* looks at the contemporary American political landscape through new lenses of research as well as popular appeal.

## **An Indigenous Peoples' History of the United States**

Published by OpenStax College, *U.S. History* covers the breadth of the chronological history of the United States and also provides the necessary depth to ensure the course is manageable for instructors and students alike. *U.S. History* is designed to meet the scope and sequence requirements of most courses. The authors introduce key forces and major developments that together form the American experience, with particular attention paid to considering issues of race, class and gender. The text provides a balanced approach to U.S. history, considering the people, events and ideas that have shaped the United States from both the top down (politics, economics, diplomacy) and bottom up (eyewitness accounts, lived experience).

## **The New Jim Crow**

This unsettling and illuminating history reveals how Germany's fractured republic gave way to the Third Reich, from the formation of the Nazi party to the rise of Hitler. Amid the ravages of economic depression, Germans in the early 1930s were pulled to political extremes both left and right. Then, in the spring of 1933, Germany turned itself inside out, from a deeply divided republic into a one-party dictatorship. In *Hitler's First Hundred Days*, award-winning historian Peter Fritzsche offers a probing account of the pivotal moments when the majority of Germans

seemed, all at once, to join the Nazis to construct the Third Reich. Fritzsche examines the events of the period -- the elections and mass arrests, the bonfires and gunfire, the patriotic rallies and anti-Jewish boycotts -- to understand both the terrifying power the National Socialists exerted over ordinary Germans and the powerful appeal of the new era they promised. Hitler's First Hundred Days is the chilling story of the beginning of the end, when one hundred days inaugurated a new thousand-year Reich.

## **Ghosting the News**

centerWe The People The Bill of Rights defines and defends the freedoms we enjoy as Americans -- from the right to bear arms to the right to a civil jury. Using the dramatic true stories of people whose lives have been deeply affected by such issues as the death penalty and the right to privacy, attorneys Ellen Alderman and Caroline Kennedy reveal how the majestic principles of the Bill of Rights have taken shape in the lives of ordinary people, as well as the historic and legal significance of each amendment. In doing so, they shed brilliant new light on this visionary document, which remains as vital and as controversial today as it was when a great nation was newly born.

## **Confessions of an Economic Hit Man**

Our American Government textbook adheres to the scope and sequence of introductory American government courses nationwide. We have endeavored to make the workings of American Government interesting and accessible to students while maintaining the conceptual coverage and rigor inherent in the subject at the college level. With this objective in mind, the content of this textbook has been developed and arranged to provide a logical progression from the fundamental principles of institutional design at the founding, to avenues of political participation, to thorough coverage of the political structures that constitute American government. The book builds upon what students have already learned and emphasizes connections between topics as well as between theory and applications. The goal of each section is to enable students not just to recognize concepts, but to work with them in ways that will be useful in later courses, future careers, and as engaged citizens. The organization and pedagogical features were developed and vetted with feedback from American government instructors dedicated to the project.

## **Mortal Republic**

## **Sport, Culture and Society**

"American Government in Black and White: Diversity and Democracy, Fifth Edition, covers all of the standard topics found in an Introduction to American Government text while also speaking to today's students who want to examine how racial inequality has shaped-and will continue to shape-who we are and what we believe. Authors Paula D. McClain and Steven C. Tauber address issues of inequality in major facets of American government, including the U.S. Constitution, key political

institutions, and the making of public policy. Engaging the original voices of racial and ethnic actors in our nation's history, the text shows how to measure and evaluate the importance of equality in America, from its founding up to today"--

## **Unforgetting**

From the bestselling author of *The Vagina Monologues*--a powerful, life-changing examination of abuse and atonement. "A triumph of artistry and empathy."  
--Naomi Klein "A crucial step forward . . . This is an urgently needed book right now." --Jane Fonda "Unflinching candor . . . immeasurable grace." --Anita Hill "Courageous, transformative, and yes--healing." --Anne Lamott "Unflinchingly increases our understanding of the human experience." --Michael Cunningham "[The Apology] will change how all of us think about our souls." --Johann Hari "Shatteringly brilliant." --The Times "The geometry of toxic masculinity is contained within these pages." --Marc Maron Like millions of women, Eve Ensler has been waiting much of her lifetime for an apology. Sexually and physically abused by her father, Eve has struggled her whole life from this betrayal, longing for an honest reckoning from a man who is long dead. After years of work as an anti-violence activist, she decided she would wait no longer; an apology could be imagined, by her, for her, to her. *The Apology*, written by Eve from her father's point of view in the words she longed to hear, attempts to transform the abuse she suffered with unflinching truthfulness, compassion, and an expansive vision for the future. Through *The Apology* Eve has set out to provide a new way for herself and a possible road for others, so that survivors of abuse may finally envision how to be free. She grapples with questions she has sought answers to since she first realized the impact of her father's abuse on her life: How do we offer a doorway rather than a locked cell? How do we move from humiliation to revelation, from curtailing behavior to changing it, from condemning perpetrators to calling them to reckoning? What will it take for abusers to genuinely apologize? Remarkable and original, *The Apology* is an acutely transformational look at how, from the wounds of sexual abuse, we can begin to re-emerge and heal. It is revolutionary, asking everything of each of us: courage, honesty, and forgiveness.

## **A People's History of the United States**

New York Times Bestseller What J. D. Vance did for Appalachia with *Hillbilly Elegy*, CNN analyst and one of the youngest state representatives in South Carolina history Bakari Sellers does for the rural South, in this important book that illuminates the lives of America's forgotten black working-class men and women. Part memoir, part historical and cultural analysis, *My Vanishing Country* is an eye-opening journey through the South's past, present, and future. Anchored in Bakari Seller's hometown of Denmark, South Carolina, *Country* illuminates the pride and pain that continues to fertilize the soil of one of the poorest states in the nation. He traces his father's rise to become, friend of Stokely Carmichael and Martin Luther King, a civil rights hero, and member of the Student Non-Violent Coordinating Committee (SNCC), to explore the plight of the South's dwindling rural, black working class—many of whom can trace their ancestry back for seven generations. In his poetic personal history, we are awakened to the crisis affecting the other "Forgotten Men & Women," who the media seldom acknowledges. For Sellers, these are his family members, neighbors, and friends. He humanizes the

struggles that shape their lives: to gain access to healthcare as rural hospitals disappear; to make ends meet as the factories they have relied on shut down and move overseas; to hold on to precious traditions as their towns erode; to forge a path forward without succumbing to despair. My Vanishing Country is also a love letter to fatherhood—to Sellers' father, his lodestar, whose life lessons have shaped him, and to his newborn twins, who he hopes will embrace the Sellers family name and honor its legacy.

## **The Color Purple**

#1 NEW YORK TIMES BESTSELLER • Pulitzer Prize-winning author Jon Meacham helps us understand the present moment in American politics and life by looking back at critical times in our history when hope overcame division and fear. NAMED ONE OF THE BEST BOOKS OF THE YEAR BY NPR • The Christian Science Monitor • Southern Living Our current climate of partisan fury is not new, and in *The Soul of America* Meacham shows us how what Abraham Lincoln called the “better angels of our nature” have repeatedly won the day. Painting surprising portraits of Lincoln and other presidents, including Ulysses S. Grant, Theodore Roosevelt, Woodrow Wilson, Franklin D. Roosevelt, Harry S. Truman, Dwight Eisenhower, and Lyndon B. Johnson, and illuminating the courage of such influential citizen activists as Martin Luther King, Jr., early suffragettes Alice Paul and Carrie Chapman Catt, civil rights pioneers Rosa Parks and John Lewis, First Lady Eleanor Roosevelt, and Army-McCarthy hearings lawyer Joseph N. Welch, Meacham brings vividly to life turning points in American history. He writes about the Civil War, Reconstruction, and the birth of the Lost Cause; the backlash against immigrants in the First World War and the resurgence of the Ku Klux Klan in the 1920s; the fight for women’s rights; the demagoguery of Huey Long and Father Coughlin and the isolationist work of America First in the years before World War II; the anti-Communist witch-hunts led by Senator Joseph McCarthy; and Lyndon Johnson’s crusade against Jim Crow. Each of these dramatic hours in our national life have been shaped by the contest to lead the country to look forward rather than back, to assert hope over fear—a struggle that continues even now. While the American story has not always—or even often—been heroic, we have been sustained by a belief in progress even in the gloomiest of times. In this inspiring book, Meacham reassures us, “The good news is that we have come through such darkness before”—as, time and again, Lincoln’s better angels have found a way to prevail. Praise for *The Soul of America* “Brilliant, fascinating, timely . . . With compelling narratives of past eras of strife and disenchantment, Meacham offers wisdom for our own time.”—Walter Isaacson “Gripping and inspiring, *The Soul of America* is Jon Meacham’s declaration of his faith in America.”—Newsday “Meacham gives readers a long-term perspective on American history and a reason to believe the soul of America is ultimately one of kindness and caring, not rancor and paranoia.”—USA Today

## **Proof of Conspiracy**

This exciting, accessible introduction to the field of Sports Studies is the most comprehensive guide yet to the relationships between sport, culture and society. Taking an international perspective, *Sport, Culture and Society* provides students with the insight they need to think critically about the nature of sport, and includes: a clear and comprehensive structure unrivalled coverage of the history,

culture, media, sociology, politics and anthropology of sport coverage of core topics and emerging areas extensive original research and new case study material. The book offers a full range of features to help guide students and lecturers, including essay topics, seminar questions, key definitions, extracts from primary sources, extensive case studies, and guides to further reading. Sport, Culture and Society represents both an important course resource for students of sport and also sets a new agenda for the social scientific study of sport.

## **How Democracies Die**

NEW YORK TIMES BESTSELLER “Comprehensive, enlightening, and terrifyingly timely.” —New York Times Book Review “Cool and persuasive How Democracies Die comes at exactly the right moment.” —The Washington Post Donald Trump’s presidency has raised a question that many of us never thought we’d be asking: Is our democracy in danger? Harvard professors Steven Levitsky and Daniel Ziblatt have spent more than twenty years studying the breakdown of democracies in Europe and Latin America, and they believe the answer is yes. Democracy no longer ends with a bang—in a revolution or military coup—but with a whimper: the slow, steady weakening of critical institutions, such as the judiciary and the press, and the gradual erosion of long-standing political norms. The good news is that there are several exit ramps on the road to authoritarianism. The bad news is that, by electing Trump, we have already passed the first one. Drawing on decades of research and a wide range of historical and global examples, from 1930s Europe to contemporary Hungary, Turkey, and Venezuela, to the American South during Jim Crow, Levitsky and Ziblatt show how democracies die—and how ours can be saved.

## **American Democracy Now**

Real People. Real Stories. Real Politics. Politics involves people, from many backgrounds, struggling to make their voices heard. Real people, telling their stories, reflect our ideals, choices, and collective experiences as a nation. In *American Government: Stories of a Nation*, author Scott Abernathy tunes in to these voices, showing how our diverse ideas shape the way we participate and behave, the laws we live by, and the challenges we face. Each chapter features real stories illustrating how the American political system is the product of strategies, calculations, and miscalculations of countless individuals. Students learn the nuts and bolts of political science through these compelling stories. Learning concepts in context is a tested learning technique that works to help ideas stick. The key concepts are memorable because they are tied to real politics, where students see political action and political choices shaping how institutions advance or impede the fulfillment of fundamental ideas. Not only will all students see themselves reflected in the pages, but they will come to understand that they, too, are strategic players in American politics, with voices that matter. Just like the Full version, The Essentials edition is perfect for instructors who don’t wish to cover the last three chapters on policy.

## **The Third Wave**

George Takei has captured hearts and minds worldwide with his captivating stage

presence and outspoken commitment to equal rights. But long before he braved new frontiers in Star Trek, he woke up as a four-year-old boy to find his own birth country at war with his father's--and their entire family forced from their home into an uncertain future. In a stunning graphic memoir, Takei revisits his haunting childhood in American concentration camps, as one of over 100,000 Japanese Americans imprisoned by the U.S. government during World War II. Experience the forces that shaped an American icon--and America itself--in this gripping tale of courage, country, loyalty, and love.

## **Campaigns and Elections**

A The Millions Most Anticipated Book of the Year "Gripping and beautiful. With the artistry of a poet and the intensity of a revolutionary, Lovato untangles the tightly knit skein of love and terror that connects El Salvador and the United States." —Barbara Ehrenreich, author of *Natural Causes* and *Nickel and Dimed* An urgent, no-holds-barred tale of gang life, guerrilla warfare, intergenerational trauma, and interconnected violence between the United States and El Salvador, Roberto Lovato's memoir excavates family history and reveals the intimate stories beneath headlines about gang violence and mass Central American migration, one of the most important, yet least-understood humanitarian crises of our time—and one in which the perspectives of Central Americans in the United States have been silenced and forgotten. The child of Salvadoran immigrants, Roberto Lovato grew up in 1970s and 80s San Francisco as MS-13 and other notorious Salvadoran gangs were forming in California. In his teens, he lost friends to the escalating violence, and survived acts of brutality himself. He eventually traded the violence of the streets for human rights advocacy in wartime El Salvador where he joined the guerilla movement against the U.S.-backed, fascist military government responsible for some of the most barbaric massacres and crimes against humanity in recent history. Roberto returned from war-torn El Salvador to find the United States on the verge of unprecedented crises of its own. There, he channeled his own pain into activism and journalism, focusing his attention on how trauma affects individual lives and societies, and began the difficult journey of confronting the roots of his own trauma. As a child, Roberto endured a tumultuous relationship with his father Ramón. Raised in extreme poverty in the countryside of El Salvador during one of the most violent periods of its history, Ramón learned to survive by straddling intersecting underworlds of family secrets, traumatic silences, and dealing in black-market goods and guns. The repression of the violence in his life took its toll, however. Ramón was plagued with silences and fits of anger that had a profound impact on his youngest son, and which Roberto attributes as a source of constant reckoning with the violence and rebellion in his own life. In *Unforgetting*, Roberto interweaves his father's complicated history and his own with first-hand reportage on gang life, state violence, and the heart of the immigration crisis in both El Salvador and the United States. In doing so he makes the political personal, revealing the cyclical ways violence operates in our homes and our societies, as well as the ways hope and tenderness can rise up out of the darkness if we are courageous enough to unforget.

## **The Death of Expertise**

Thoroughly and rigorously revised and updated through the 2018 elections by an

author team of esteemed teacher-scholars. This text uses a consistent framework to reveal the strategies and choices that face candidates and other practitioners in the American political system.
