Amplified Holy Bible, Compact

“A monumental achievement of deep reporting and expert storytelling.” —Michael

Sokolove, author of *The Last Temptation of Rick Pitino* "I just can't live with this pain anymore," were among the final words in the diary of Zac Easter, a young man from small-town Iowa. In December 2015, Zac decided to take his own life rather than continue his losing battle against the traumatic brain injuries he had sustained as a no-holds-barred high school football player. In this deeply reported and powerfully moving true story, award-winning sportswriter Reid Forgrave speaks to Zac's family, friends, and coaches; he explores Zac's tightly knit, football-obsessed Midwestern community; he interviews cutting-edge brain scientists, psychologists, and sports historians; and he takes a deep dive into the triumphs and sins of the sports entertainment industry. Forgrave shows us how football mirrors America, from the fighting spirit it has helped inscribe in our national character to the problematic side effects of traditional notions of manhood that it affirms. But, above all, this is a story of how one young man's obsession with football led him and many of those entrusted with his care to ignore the warning signs of CTE until it was too late. What do Zac's life and death mean for a society addicted to a sport that can be thrilling and character forming but also dangerous and sometimes tragic for those who play it? Eye-opening, important, and ultimately inspiring, *Love, Zac* challenges us to think carefully about the ideals and values we as a nation want to instill in future generations.

The Wire

American policy-makers have long been locked in a heated battle over whether, how many, and what kind of immigrants to allow to live and work in the country. Those in favor of welcoming more immigrants often cite humanitarian reasons, while those in favor of more restrictive laws argue the need to protect native citizens. But economist Bryan Caplan adds a new, compelling perspective to the immigration debate: He argues that opening all borders could eliminate absolute poverty worldwide and usher in a booming worldwide economy—undeniably benefiting all of humanity. With a clear and conversational tone, exhaustive research, and vibrant illustrations by Zach Weinersmith, *Open Borders* makes the case for unrestricted immigration easy to follow and hard to deny.

Marine Geobiology

It was just a simple singing competition that would be fun to audition for. Who knew what kind of doors it might open for a sixteen-year-old from Garner, North Carolina. *Go Big or Go Home* is the story of a kid with country songs in his soul. The special thing with Scotty McCreery, however, is that he has this God-given ability to sing those tunes the exact way they should be sung. Daring to enter the limelight at such a young age, Scotty finds himself embraced by the nation, and even overseas, as he competes on "American Idol". This is his journey from his North Carolina roots to winning America's most popular singing competition and launching a musical career he had always dreamt about. *Go Big or Go Home* narrates Scotty's journey from a kid imitating Elvis on the school bus to 30 million across America tuning in to see him win Season 10 of "American Idol". Now as he completes his ground-breaking fourth album, Scotty shares a glimpse of where he came from and the impact his faith, family and friends have had on a humbled guy who keeps asking "why me?"

How We Change

Dancing electronic violinist Lindsey Stirling shares her unconventional journey in an inspiring New York Times bestselling memoir filled with the energy, persistence, and humor that have helped her successfully pursue a passion outside the box. A

classically trained musician gone rogue, Lindsey Stirling is the epitome of independent, millennial-defined success: after being voted off the set of America's Got Talent, she went on to amass more than ten million social media fans, record two full-length albums, release multiple hits with billions of YouTube views, and to tour sold-out venues across the world. Lindsey is not afraid to be herself. In fact, it's her confidence and individuality that have propelled her into the spotlight. But the road hasn't been easy. After being rejected by talent scouts, music reps, and eventually on national television, Lindsey forged her own path, step by step. Detailing every trial and triumph she has experienced until now, Lindsey shares stories of her humble yet charmed childhood, humorous adolescence, life as a struggling musician, personal struggles with anorexia, and finally, success as a world-class entertainer. Lindsey's magnetizing story—at once remarkable and universal—is a testimony that there is no singular recipe for success, and despite what people may say, sometimes it's okay to be The Only Pirate at the Party.

The instant New York Times bestseller! A Wall Street Journal Best Science Book of the Year! A Popular Science Best Science Book of the Year! From a top scientist and the creator of the hugely popular web comic Saturday Morning Breakfast Cereal, a hilariously illustrated investigation into future technologies -- from how to fling a ship into deep space on the cheap to 3D organ printing What will the world of tomorrow be like? How does progress happen? And why do we not have a lunar colony already? What is the hold-up? In this smart and funny book, celebrated cartoonist Zach Weinersmith and noted researcher Dr. Kelly Weinersmith give us a snapshot of what's coming next -- from robot swarms to nuclear fusion powered-toasters. By weaving their own research, interviews with the scientists who are making these advances happen, and Zach's trademark comics, the Weinersmiths investigate why these technologies are needed, how they would work, and what is standing in their way. New technologies are almost never the work of isolated geniuses with a neat idea. A given future technology may need any number of intermediate technologies to develop first, and many of these critical advances may appear to be irrelevant when they are first discovered. The journey to progress is full of strange detours and blind alleys that tell us so much about the human mind and the march of civilization. To this end, Soonish investigates ten different emerging fields, from programmable matter to augmented reality, from space elevators to robotic construction, to show us the amazing world we will have, you know, soonish. Soonish is the perfect gift for science lovers for the holidays!

Manor of Secrets

A paradigm-shifting, instant classic in the making that challenges our assumptions about change by encouraging us to understand and embrace our resistance to it. We all have something we want to change about ourselves. But whether it's quitting smoking, losing weight, or breaking some common bad habit or negative behavior pattern, we feel a sense of failure when we don't succeed. This often sets off a cascade of negative feelings and discouragement, making it even harder to change. The voice in our head tells us: Why bother? Successful change depends far more on understanding why we don't change, psychotherapist and sociologist Ross Ellenhorn insists. His decades-long career as a pioneer in helping people overcome extreme psychiatric experiences and problematic substance use issues—especially those whom the behavioral healthcare system has failed—especially those whom the mental healthcare system has failed—has lead him to develop an effective, long-term method to achieve transformation, from the simplest shifts to the most profound. In *How We Change*, Ellenhorn looks to the evolutionary imperatives driving us. We are wired to double down on the familiar because of what he calls the Fear of Hope—the act of protecting ourselves from further disappointment. He identifies the “10 Reasons Not to Change” to help us see why we behave the way we do, making it clear that there is nothing broken inside us—it's how we're built. By addressing this little known reality, he gives us hope and helps us work toward the change we seek. Ellenhorn speaks to the core of our insecurities and fears about ourselves, with a humor and kindness. By turning our judgements about self-destructive behaviors into curious questions about them, he teaches us to think about our actions to discover what we truly want—even if we're going about getting it in the wrong way. *How We Change* is a brilliant approach that will forever alter our perspective—and help us achieve the transformation we truly seek.

The Only Pirate at the Party

Modern worship leaders are restless. They have inherited a model of leadership that equates leading worship with being a rock star. But leading worship is more than a performance, it's about shaping souls and making disciples. Every worship leader is really a pastor. The Worship Pastor is a practical and biblical introduction to this essential pastoral role. Filled with engaging, illustrative stories it is organized to address questions of theory and practice, striving to balance conversational accessibility with informed instruction. Part One presents a series of evocative "vignettes"--intriguing and descriptive titles and metaphors of who a Worship Pastor is and what he or she does. It shows the Worship Pastor as Church-Lover, Disciple Maker, Corporate Mystic, and Doxological Philosopher. Part Two covers specific roles related to ministry within the worship service itself--the Worship Pastor as Theological Dietician, Caregiver, Mortician, Emotional Shepherd, War General, Prophetic Guardian, Missional Historian, and Liturgical Architect. Part Three looks at ministry beyond the worship service--the Worship Pastor as Visionary Teacher, Evangelist, Artist Chaplain, and Team Leader. While some

worship leaders are eager to embrace their pastoral role, many are lost and confused or lack the resources of time or money to figure out what this role looks like. Pastor Zac Hicks gives us a clear guide to leading worship, one that takes the pastoral call seriously.
