The Nags Head Woods complex (Outer Banks, Dare County, North Carolina) hosts the best remaining example of exceedingly rare, mid-Atlantic maritime deciduous forest and also includes an extensive system of open dunes, evergreen forest, interdunal ponds, swamps, and marshes. Over 550 plant species in 122 families have been reported from the site, constituting nearly three-quarters of the known Outer Banks flora. This manual was developed based on field and herbarium study and seeks to document the rich flora of Nags Head Woods. Keys, descriptions, and illustrations, as well as notes on

phenology, habitat, and the broader distribution of included taxa on the Outer Banks, are provided. Relevant herbarium specimens known to the author from the main depositories of Outer Banks collections, as well as important literature reports, are cited after the species descriptions.

This manual is acknowledged to be the essential reference in the field of securities arbitration. It systematically describes the issues that arise in a dispute, how to evaluate the merits of a case, & how to prepare & present cases to arbitration panels anywhere in the country. In the Third Edition, David Robbins updates his work to reflect the important new issues governing discovery on the Internet, NASD's new eligibility rule, & its rule on punitive damages.
