Cambridge O Level Principles of Accounts

Accounting and Bookkeeping

The focus of Deutsch and Chikarovski's Accounting for Non-Accountants A Question and Answer Handbook, is to promote an understanding of the fundamentals of accounting and financial statements. It is not a short cut to an in-depth knowledge of accounting. However the book will provide some useful insights to the language of accounting, the key principles involved and the sources and use of accounting information commonly encountered. The book should therefore be useful for lawyers and other users of accounting information to guide their understanding of that information. You might for example be: a barrister involved in a commercial matter requiring the review of the financial statements of a listed company a family law solicitor looking at the accounts of family entities as part of a property settlement an immigration lawyer presenting accounts as part of a visa application a small business operator reviewing the accounts of your business a so called mum and dad investor reviewing the accounts of the listed company that you have acquired shares in recently or a student studying business, accounting or commerce This book is intended to be a useful guide for all such readers and others. Information in the book is presented in an easy to follow question and answer format. Each answer is supported by examples where relevant based on sample financial information included in an appendix. Key accounting terms are also highlighted in bold and explained in a Glossary section at the end of the book.

ACCA P3 Business Analysis

An up-to-date introduction to the principles of financial, cost and management accounting. Written for the non-specialist, it contains easy-to-follow chapters, student activities and extended assignments.

Credit Management - Pocket Notes

"The sixth edition is written in a straightforward and engaging style and has been fully updated to reflect the latest NZ interpretations of IFRS standards. Major changes in this edition relate to areas such as financial instruments, financial statement presentation and consolidation accounting"--Back cover.

Leaving Certificate Accounting

On 30 September 1938 Neville Chamberlain flew back to London from his meeting at Munich with the German Chancellor, Adolf Hitler. As he paused on the aircraft steps, he held aloft the piece of paper which bore both his and the Führer's signature, the promise that Britain and Germany would never go to war with one another again. He had returned bringing 'Peace with honour - Peace for our Time.' Drawing on a wealth of original archival material, David Faber sheds new light on this extraordinary story, tracing the key incidents leading up to the meeting at Munich and its immediate aftermath: Lord Halifax's ill-fated visit to Hitler; Chamberlain's secret negotiations with Mussolini, and the Berlin scandal that rocked Hitler's régime. He takes us to Vienna, to the Sudetenland, and to Prague. In Berlin, we witness Hitler inexorably preparing for war; and in London, we watch helplessly as Chamberlain makes one supreme effort after another to appease Hitler.

The book reflects the changes in the O Level Principles of Accounts syllabus and applies international accounting terminology.

The Due Process of Law

Business Accounting

Thielicke here studies the themes of doubt and appropriation in modern Protestant thought. A leading advocate of dialectical theology, Thielicke examines the work of the great German Protestant religious philosophers from Lessing and Schliermacher through Barth and Tillich, probing these theologians' understanding of their context and how this tradition can impact our own engagement with our times. Clear, finely nuanced, historically and philosophically mature, this is a vital reflection on the history of theology and in systematic theology.

The Introduction to Hegel's Philosophy of Fine Art

Two central themes run through this book. The first is the workings of the various 'measures authorised by the law so as to keep the streams of justice pure', and the second is the recent development of family law, focusing particularly on Lord Denning's contribution to the law of husband and wife.
