## **The Moment of Truth**

In early modern England, religious sorrow was seen as a form of spiritual dialogue between the soul and God,

expressing how divine grace operates at the level of human emotion. Through close readings of both Protestant and Catholic poetry, Kuchar explains how the discourses of 'devout melancholy' helped generate some of the most engaging religious verse of the period. From Robert Southwell to John Milton, from Aemilia Lanyer to John Donne, the language of 'holy mourning' informed how poets represented the most intimate and enigmatic aspects of faith as lived experience. In turn, 'holy mourning' served as a way of registering some of the most pressing theological issues of the day. By tracing poetic representations of religious sorrow from Crashaw's devotional verse to Shakespeare's weeping kings, Kuchar expands our understanding of the interconnections between poetry, theology and emotion in post-Reformation England.

Many significant problems in metaphysics are tied to ontological questions, but ontology and its relation to larger questions in metaphysics give rise to a series of puzzles that suggest that we don't fully understand what ontology is supposed to do, nor what ambitions metaphysics can have for finding out about what reality is like. Thomas Hofweber aims to solve these puzzles about ontology and consequently to make progress on four central metaphysical problems: the philosophy of arithmetic, the metaphysics of ordinary objects, the problem of universals, and the question of whether the reality is independent of us. Crucial parts of the proposed solution involve considerations about quantification and its relationship to ontology, the place of reference in natural languages, the possibility of ineffable facts, the extent of empirical evidence in metaphysics, and whether metaphysics can be properly esoteric. Overall, Hofweber defends a rationalist account of arithmetic, an empiricist picture in the philosophy of ordinary objects, a restricted form of nominalism, and realism about reality, understood as all there is, but idealism about reality, understood as all that is the case. He defends metaphysics as having some questions of fact that are distinctly its own, with a limited form of autonomy from other parts of inquiry, but rejects several metaphysical projects and approaches as being based on a mistake.

"Collection of games aimed at enhancing children's

self-awareness and social and emotional skills, helping them understand and deal with problems in daily interactions with other children and adults"--Provided by publisher.

## **101 Life Skills Games for Children**

The choice of structural design and material is essential in preventing the external walls of a vessel from buckling under pressure. In this revised second edition of *Pressure vessels*, Carl Ross reviews the problem and uses both theoretical and practical examples to show how it can be solved for different structures. The second edition opens with an overview of the types of vessels under external pressure and materials used for construction. Axisymmetric deformation and different types of instability are discussed in the following chapters, with chapters 5 and 6 covering vibration of pressure vessel shells, both in water and out. Chapters 7 and 8 focus on novel pressure hulls, covering design, vibration and collapse, while chapters 9 and 10 concentrate on the design and non-linear analysis of submarine pressure hulls under external hydrostatic pressure. In chapter 11, the design, structure and materials of deep-diving underwater pressure vessels are discussed, focusing on their application in missile defence systems. Finally, chapter 12 analyses the vibration of a thin-walled shell under external water pressure, using ANSYS technology. Drawing on the author's extensive experience in engineering and design both in an industrial and academic capacity, the second edition of *Pressure vessels* is an essential

reference for stress analysts, designers, consultants and manufacturers of pressure vessels, as well as all those with an academic research interest in the area. Presents an overview of the types of vessels under external pressure and materials used for construction Assesses axisymmetric deformation and different types of instability covering vibration of pressure vessel shells Explores novel pressure hulls, covering design, vibration and collapse concentrating on the design and non-linear analysis of submarine pressure hulls

This new edition has been expanded and updated to include installation of pneumatic mechanical instrumentation, which is used in monitoring various process systems.

## **The Poetry of Religious Sorrow in Early Modern England**

## **A Life Less Ordinary**

"HOURS SPENT IN PRISON." By Gorky, Andreyeff, and Korolenko. This title is the heading of a book, which gives a few biographical words about the poor and sad existence of three authors who represent the literary talent of contemporary Russia. It is a curious fact that under the stringent censorship of Nicholas I there were great writers, like Pushkin, Gogol, Lermontoff, etc., and that most of them belonged to the higher strata of society. At present the Russian Press itself is notorious for its license, but talented authors are scarce, and mostly of low origin, who, on

principle, describe the slums. Gorky's "Song about a Hawk" is an allegory, and the "Destroyed Dam" is a poetical picture of the raging sea, probably suggesting a surging crowd overpowering tyranny. "Pogrom" is a ghastly representation of how the Russian mob slaughtered and robbed Jews. No reasons are, however, given why they did it. Cossacks and policemen come on the scene to save the situation. Now the mob began to climb the wall, and so invaded the courtyards. The Cossacks surrounded the flying crowd. A few moments ago these men had been mercilessly tormenting and killing wretched men, human beings like themselves. In a few seconds the same murderers had become nothing more than frightened, trembling cowards, who were trying to escape over any wall that was possible. If true, this suggests that the Jews are passive, the Russian mob ferocious and brutal, while the authorities represented by Cossacks and police are supine. Andreyeff's "An Abyss" is offensive and revolting, even for this decadent author; while the substance of "Marseillaise" is a description of a silly, feeble boy, who is unjustly imprisoned, but is supposed to become a hero because, when dying, he asks the other prisoners, who used to deride him, to sing the "Marseillaise" over him instead of reading a prayer for his burial service. Last, but not least, we have Vladimir Korolenko's "Strange Character" (from Personal Remembrances), a touching story of a soldier who had to watch a lady, evidently persecuted and exiled for being a sectarian. The story is remarkable for its simplicity and hidden meaning. Korolenko is very popular among the peasant class in Russia, and his books are more read in village circulating libraries

(where such landmarks of civilization exist) than the works of other authors, whose eminent names are better known in Western Europe. - "Proceedings by Anglo-Russian Literary Society" [1908]
