Church Doctrine, Volume 2

The presence of Irish writers is almost invisible in literary studies of London. The Irish Writing London redresses the critical deficit. A range of experts on particular Irish writers reflect on the diverse experiences and impact this immigrant group has had on the city. Such sustained attention to a location and concern of Irish writing, long passed over, opens up new terrain to not only reveal but create a history of Irish-London writing. Alongside discussions of MacNeice, Boland and McGahern, the autobiography of Brendan Behan and identity of Irish-language writers in London is considered. Written by an internal array of scholars, these new essays on key figures challenge the deep-seated stereotype of what constitutes the proper domain of Irish writing, producing a study that is both culturally and critically alert and a dynamic contribution to literary criticism of the city.

The Writings of James Monroe Volume 2

Plutarch's Lives, written at the beginning of the second century A.D., is a brilliant social history of the ancient world by one of the greatest biographers and moralists of all time. In what is by far his most famous and influential work, Plutarch reveals the character and personality of his subjects and how they led ultimately to tragedy or victory. Richly anecdotal and full of detail, Volume I contains profiles and comparisons of Romulus and Theseus, Numa and Lycurgus, Fabius and Pericles, and many more powerful figures of ancient Greece and Rome. The present translation, originally published in 1683 in conjunction with a life of Plutarch by John Dryden, was revised in 1864 by the poet and scholar Arthur Hugh Clough, whose notes and preface are also included in this edition.

Letters and Literary Memorials of Samuel J. Tilden Volume 2 (of 2)

Booker T. Washington Papers Volume 2

At an early period of his life Samuel J. Tilden seems to have had a sense of its importance not ordinarily felt by youth of his age. This may be accounted for in part by the circumstance that while barely out of his teens, both by pen and speech, he had secured the respectful attention of many of the leading statesmen of his generation. At school he preserved all his composition exercises, and from that time to the close of his life it may well be doubted if he ever wrote a note or document of any kind of which he did not preserve the draft or a copy. As the events with which he had to deal came to assume, as they naturally did, increasing importance with his years, one or more corrected drafts were made of important papers, most, if not all, of which were carefully preserved. As what may fitly enough be termed Mr. Tilden's public life covered more than half a century, during most of which time he was one of the recognized leaders of one of the great parties of the country, the public will learn without surprise that the accumulations of social, political, and documentary correspondence which fell into the hands of his executors, to be measured by the ton, embraced among its topics almost every important political question by which this nation has been agitated since the accession of General Andrew Jackson to the Presidency in 1829. A collection of Tilden's Public Writings and Speeches was published in 1885, only a year before his death, but very little of his private correspondence appeared in that publication. The duty imposed upon his executors of looking through such a vast collection of

papers and selecting such as would be profitable for publication has been a long and a very tedious one. They indulge the hope, however, that the volumes now submitted will be found to shed upon the history of our country during the latter half of the last century much light unlikely to be reflected with equal lustre from any other quarter. It will also, they believe, help to transmit to posterity a juster sense than as yet generally prevails of the majestic proportions of one of the most gifted statesmen our country has produced. Tilden may be said to have fleshed his maiden sword in politics as a champion of President Jackson in his war against the recharter of a United States bank of discount and deposit. He next became somewhat more personally conspicuous as a fervent champion of Mr. Van Buren's substitute for the national bank, now known as the Assistant Treasury. In 1848 he led the revolt of the Democratic party in New York State against the creation of five slave States, with their ten slave-holding Senators, out of the Territory of Texas. Among the immediate results of this revolt were the defeat of General Cass, the Democratic candidate for President, and the development of a Free-soil party, which later took the name of the Republican, nominated and elected Abraham Lincoln to the Presidency—synchronously with which, and for the first time in the nation's history, the decennial census of 1860 disclosed the fact that the political supremacy of the nation had been transferred to the non-slave-holding States. Though averse to resisting the secession of the slave States by flagrant war, Tilden did his best and much during the war to prevent an irreconcilable alienation of the people of the two sections, while at the same time building up for himself a

reputation in his profession scarcely second to that of any other in the country; and by it, before he had reached the fiftieth year of his age, a fortune which made him no longer dependent upon it for his livelihood. The first public use he made of this independence was to retrieve the fortunes of the Democratic party by delivering the city of New York from a municipal combination which was threatening it with bankruptcy. This second of a three-volume collection contains the letters Lewis wrote after his conversion to Christianity, as he began a lifetime of serious writing. Lewis corresponded with many of the twentieth century's major literary figures, including J. R. R. Tolkien and Dorothy Sayers. Here we encounter a surge of letters in response to a new audience of laypeople who wrote to him after the great success of his BBC radio broadcasts during World War II -- talks that would ultimately become his masterwork, *Mere Christianity*. Volume II begins with C. S. Lewis writing his first major work of literary history, *The Allegory of Love*, which established him as a scholar with imaginative power. These letters trace his creative journey and recount his new circle of friends, "The Inklings," who meet regularly to share their writing. Tolkien reads aloud chapters of his unfinished *The Lord of the Rings*, while Lewis shares portions of his first novel, *Out of the Silent Planet*. Lewis's weekly letters to his brother, Warnie, away serving in the army during World War II, lead him to begin writing his first spiritual work, *The Problem of Pain*. After the serialization of *The Screwtape Letters*, the director of religious broadcasting at the BBC approached Lewis and the "Mere Christianity" talks were born. With his new broadcasting career, Lewis was inundated with letters from all over the world. His faithful, thoughtful responses to numerous questions reveal the clarity and wisdom of his theological and intellectual beliefs. Volume II includes Lewis's correspondence with great writers such as Owen Barfield, Arthur C. Clarke, Sheldon Vanauken, and Dom Bede Griffiths. The letters address many of Lewis's interests -- theology, literary criticism, poetry, fantasy, and children's stories -- as

well as reveal his relationships with close friends and family. But what is apparent throughout this volume is how this quiet bachelor professor in England touched the lives of many through an amazing discipline of personal correspondence. Walter Hooper's insightful notes and comprehensive biographical appendix of the correspondents make this an irreplaceable reference for those curious about the life and work of one of the most creative minds of the modern era.

Drawn to Life - Volume 2

What role does viscosity play in accretion discs? How do you calculate the 'glitch function' of a pulsar? And can strong shocks account for the energy spectrum of electrons in our Galaxy? These are just some of the exciting questions that Professor Longair uses to develop the physics needed by the astronomer and high energy astrophysicist. The highly acclaimed first edition of High Energy Astrophysics instantly established itself as a classic in the teaching of contemporary astronomy. Reflecting the immense interest and developments in the subject, Professor Longair has developed the second edition into three texts; in this second volume he provides a comprehensive discussion of the high energy astrophysics of stars, the Galaxy and the interstellar medium. He develops an understanding for the essential physics with an elegance and infectious enthusiasm for which his teaching is internationally renowned, illustrating the issues throughout with results from forefront research. This book takes the student with a knowledge of physics and mathematics at the undergraduate level - but not necessarily with training in astronomy - to the point where current astronomical research can be understood.

The present volume is the second in a five-volume study of church doctrine. The multivolume set will cover the major parts of church doctrine: Canon, God, Creation, Reconciliation, and Redemption. The first volume (now in print) begins with an introduction to the entire project on why doctrine matters, which stresses the ecumenical, global, and above all biblical horizons of church doctrine as a primary expression of Christian witness. The purpose of this second volume can be simply stated: to let God be God. In a world in which the God of the Christian witness is often confused with the tribal god of religion--a god who sets "us" against "them," who divides humanity into nations, peoples, regions, races--the gospel proclaims the living God of the Bible who fashions a new humanity on the earth. This God in the freedom of his love elects to be for humanity, and calls all humanity to live for him. Church doctrine is not a luxury, but a necessity for the living community of faith, by which its witness in word and deed is tested against the one true measure of Christ the risen Lord.

Sense and Sensibility, Volume 2

Volume 2 Sermons 54-106 Charles Spurgeon (19 June 1834 – 31 January 1892) is one of the church's most famous preachers and Christianity's foremost prolific writers. Called the "Prince of Preachers," he was one of England's most notable ministers for most of the second half of the nineteenth century, and he still remains highly influential among Christians of different denominations today. His sermons have spread all over the world, and his many printed works have been cherished classics for decades. In his lifetime, Spurgeon preached to more than 10 million people, often up to ten times each week. He was the pastor of the congregation of the New Park Street Chapel (later the Metropolitan Tabernacle) in London for 38 years. He was an inexhaustible author of various kinds of works including sermons, commentaries, an autobiography, as well as books on prayer, devotionals, magazines, poetry, hymns and more. Spurgeon was known to produce powerful sermons of penetrating thought and divine inspiration, and his oratory and writing skills held his audiences spellbound. Many Christians have discovered Spurgeon's messages to be among the best in Christian literature. Edward Walford wrote in *Old and New London: Volume 6 (1878)* quoting an article from the *Times* regarding one of Spurgeon's meetings at Surrey: "Fancy a congregation consisting of 10,000 souls, streaming into the hall, mounting the galleries, humming, buzzing, and swarming—a mighty hive of bees—eager to secure at first the best places, and, at last, any place at all. After waiting more than half an hour—for if you wish

to have a seat you must be there at least that space of time in advance—Mr. Spurgeon ascended his tribune. To the hum, and rush, and trampling of men, succeeded a low, concentrated thrill and murmur of devotion, which seemed to run at once, like an electric current, through the breast of every one present, and by this magnetic chain the preacher held us fast bound for about two hours. It is not my purpose to give a summary of his discourse. It is enough to say of his voice, that its power and volume are sufficient to reach every one in that vast assembly; of his language, that it is neither high-flown nor homely; of his style, that it is at times familiar, at times declamatory, but always happy, and often eloquent; of his doctrine, that neither the 'Calvinist' nor the 'Baptist' appears in the forefront of the battle which is waged by Mr. Spurgeon with relentless animosity, and with Gospel weapons, against irreligion, cant, hypocrisy, pride, and those secret bosom-sins which so easily beset a man in daily life; and to sum up all in a word, it is enough to say of the man himself, that he impresses you with a perfect conviction of his sincerity." More than a hundred years after his death, Charles Spurgeon's legacy continues to effectively inspire the church around the world. For this reason, Delmarva Publications has chosen to publish the complete works of Charles Spurgeon.
