"Character" has become a front-and-center topic in contemporary discourse, but this term does not have a fixed meaning. Character may be simply defined by what someone does not do, but a more active and thorough definition is necessary, one that addresses certain vital questions. Is character a singular characteristic of an individual, or is it composed of different aspects? Does character--however we define it--exist in degrees, or is it simply something one happens to have? How can character be developed? Can it be learned? Relatedly, can it be taught, and who might be the most effective teacher? What roles are played by family, schools, the media, religion, and the larger culture? This groundbreaking handbook of character strengths and virtues is the first progress report from a prestigious group of researchers who have undertaken the systematic classification and measurement of widely valued positive traits. They approach good character in terms of separate strengths--authenticity, persistence, kindness, gratitude, hope, humor, and so on--each of which exists in degrees. *Character Strengths and Virtues* classifies twenty-four specific strengths under six broad virtues that consistently emerge across history and culture: wisdom, courage, humanity, justice, temperance, and transcendence. Each strength is thoroughly examined in its own chapter, with special attention to its meaning, explanation, measurement, causes, correlates, consequences, and development across the life span, as well as to strategies for its deliberate cultivation. This book demands the attention of anyone interested in psychology and what it can teach about the good life.

The Official Handbook for Boys

Original Boy Scout Handbook is the official handbook of the Boy Scouts of America. It is a descendant of Baden-Powell's original handbook, Scouting for Boys, which has been the basis for Scout handbooks in many countries, with some variations to the text of the book depending on each country's codes and customs. The original edition of the handbook was based on Baden-Powell's work. Ernest Thompson Seton combined his Woodcraft manual, the Birch Bark Rolls, with Baden-Powell's Scouting for Boys. Subsequent works were done by other authors. William "Green Bar Bill" Hillcourt wrote the 6th, 7th, and 9th editions. Frederick L. Hines wrote the 8th, and Robert Birkby the 10th, 11th and 12th editions. The first Official Handbook, subtitled A Handbook of Woodcraft, Scouting, and Life-craft was published from July 1910 until March 1911 and appeared in eight distinct variations. It was written by Ernest Seton and drew greatly on Baden-Powell's Scouting for Boys, it included information on the organization of Scouting, signs and signaling, and camping, as well as Scouting games and a description of several Scouting honours. Notably, this book did not place emphasis on first aid, knife and axe use, or map and compass work, as later editions would. Because this edition was intended solely as a temporary guide until an authoritative handbook could be made, it is now known as the 1910 Original Edition Handbook. Spirit of Adventure

In this essay collection, Michael Cohen presents the odd idea of the suicide note as a writing project that can be critiqued like any other, describes encounters with illegal border crossers in south Texas, and ponders the sudden popularity of books about atheism. Books are a frequent subject here, and Cohen makes an argument for *The Maltese Falcon* as the Great American Novel, searches for the perfect, the Platonic, nature handbook, and compares playing golf to reading about it. Reading is, for him, as engrossing a form of experience as any other—say hitchhiking through the Southwest with an old friend, the joys of flying small planes, or the charm of studying ancient Greek while people-watching at the gym, all experiences chronicled here. He looks back at the effect a 1956 collision of two airliners over the Grand Canyon had on him as a kid fond of flying, and how he learned about the joys of good food during a wanderjahr in Europe. Many of these essays begin with a question: whether Americans deserve their reputation for materialism, why we seem to have lost the climate change battle, and whether talking to yourself might really be beneficial. Another frequent topic is how our ideal places cannot avoid being bruised by time. He looks at what happened as the Tucson bars of his college days closed or morphed into very different places. He traces seasonal changes in the desert. He notes what happens to its effect when a giant cross beside I-40 in Texas is joined by equally giant windmills. And he takes a mind's-eye tour through Paris's terrace cafés and their literary associations after the 2015 terrorist attack there. Michael's previous collection with IP is *A Place to Read*.

Be Prepared! Time-tested advice on emergency preparedness. An official publication of the Boy Scouts of America! Each year hundreds of outdoor enthusiasts find themselves in an unexpected outdoor emergency. They get lost, injured, or stranded. Cut off from the rest of the world, they have to depend upon their survival skills to survive. For most people,

thanks to modern communications such as cell phones, satellite messengers, and personal locator beacons (PLB), it is merely a sobering two- or three-hour adventure. However, for some who did not take the proper precautions before they left home or do not have survival skills, it can end in tragedy. J. Wayne Fears uses his Army and Air Force training to make sure that everyone in the outdoors remembers the Boy Scout motto "Be Prepared." His practical advice offers help with:

- How to build a fire
- How to purify water
- How to identify common edible plants and mushrooms
- How to signal for help
- How to build simple shelters
- Practical navigation skills
- And so much more!

Since 1910, the Boy Scouts of America has helped build the future leaders of this country by combining educational activities and lifelong values with fun. The BSA is committed to training youth in responsible citizenship, character development, and self-reliance through participation in a wide range of outdoor activities.

Rovering to Success

In the groundbreaking tradition of his award-winning *Monster and Bad Boy: A Memoir*, Walter Dean Myers fashions a highly readable, powerful novel about the rules for success for young men, especially those navigating coming of age while Black. Share this book in the classroom, in a father-son reading group, or as a summer reading (or anytime) choice that's likely to spark conversation and be a favorite. "When the proprietor of a Harlem barbershop takes over as the court-appointed mentor for two troubled teenagers, he conveys the message that the future is built not only on hard work but on sustaining dreams as well." (Smithsonian magazine). In his introduction to *Handbook for Boys*, Walter Dean Myers wrote: "I know as a

troubled teenager I would have loved to have a neighborhood barbershop to sit in and a group of worldly and knowledgeable men to counsel me. Thinking about this was my motivation in writing this book, hoping it will be, in the least, a jumping-off point for many interesting conversations about success."

Concepts of Biology is designed for the single-semester introduction to biology course for non-science majors, which for many students is their only college-level science course. As such, this course represents an important opportunity for students to develop the necessary knowledge, tools, and skills to make informed decisions as they continue with their lives. Rather than being mired down with facts and vocabulary, the typical non-science major student needs information presented in a way that is easy to read and understand. Even more importantly, the content should be meaningful. Students do much better when they understand why biology is relevant to their everyday lives. For these reasons, Concepts of Biology is grounded on an evolutionary basis and includes exciting features that highlight careers in the biological sciences and everyday applications of the concepts at hand. We also strive to show the interconnectedness of topics within this extremely broad discipline. In order to meet the needs of today's instructors and students, we maintain the overall organization and coverage found in most syllabi for this course. A strength of Concepts of Biology is that instructors can customize the book, adapting it to the approach that works best in their classroom. Concepts of Biology also includes an innovative art program that incorporates critical thinking and clicker questions to help students understand--and apply--key concepts.

The Boy Scouts' Book of Campfire Stories

Please note This is NOT the current edition of the BSA Handbook. It is a reprint of an historical edition of the BSA Handbook. For the first time, we are pleased to present this facsimile copy of the 1910 Original Edition of the Boy Scouts of America Official Handbook! Written primarily by Ernest Thompson Seton, with sections added from Lieutenant General Sir Robert Baden-Powell's "Scouting for Boys" and "Aids to Scouting." The 1910 Original Edition is a milestone in the history of the Boy Scouts of America. Published only from July 1910 to March 1911, this short-lived BSA Handbook was cobbled together using material from Seton's earlier work "The Birch Bark Roll" and then fused with Baden-Powell's Boy Scouts concept. Always meant as a temporary handbook until a proper one could be written and published, the 1910 Original Edition is super interesting and contains a wealth of woodsman's lore and military scouting techniques and training which do not appear in later editions of the BSA Handbooks. Many experts consider this book to be quite a useful backwoods survival manual, and it definitely has appeal to the modern "classic camping" movement. The content of this edition is presented exactly as per the original, with the same page count, illustrations and table of contents. It's the original text exactly as it was presented in 1910 without some modern "expert" analysis or introduction. Today's reader can make up their own mind by actually reading the book. A perfect gift for the classic camping enthusiast, old Eagle Scout or the young Indiana Jones in your life. With all original illustrations, this new paperback replica edition brings this exceptionally rare book to a 21st Century audience. Lives of the Hunted

Finally! Board member orientation truly simplified. Serving on a nonprofit board can be an incredibly rewarding experience for the properly prepared board member. This book is for the generous and busy people who agree to give of their time and talents by serving on nonprofit boards. Nonprofit boards often fail to do a good job of board member orientation for a variety of reasons. It takes a significant amount of time and effort to plan and conduct quality board member orientation programs, and every time a new board member arrives, it's time to do it again! Because of the challenges associated with providing quality board member orientation, many nonprofit organizations do not do it at all, leaving their board members to wing it. This book provides help and support to the truly great men and women serving on nonprofit boards whose service makes a positive difference in the lives of countless people every day. This book is a concise and appropriately

comprehensive guide to nonprofit board service designed especially for new board members. It is a quick read, (about one hour), yet it addresses with accuracy the most significant elements of board service, such as mission, responsibility, duty, risk, liability, and board meeting dynamics. Hooey Alerts! Watch for Hooey Alerts! where the author identifies and dispels common myths and legends about nonprofit board service. There are many sources of false or misleading information about the nonprofit board service environment. A perfect example is the often vaguely-worded and intimidating assertion or implication that the Sarbanes-Oxley Act passed by Congress in 2002 applies to nonprofit organizations in a manner similar to how it applies to publicly-traded companies. (It does not.) Reviews "This book is the perfect guide for every nonprofit board member! Concise, highly informative, and loaded with nuggets of wisdom, it's a must read that will take board members to the next level of successful board governance." -- J. Todd Chasteen, General Counsel, Samaritan's Purse "Mike Batts has put his quarter century of advising and serving on nonprofit boards to good use in this accurate and easy-to-read book. In addition to describing major principles of nonprofit law and governance, the book provides helpful questions to guide board members in understanding the practical applications of the concepts discussed. While geared primarily toward helping new board members get up to speed quickly, it should also help veteran board members discharge their stewardship roles wisely and efficiently." -- Chuck Hartman, Associate Professor of Business Law and Accounting, Cedarville University "This book, Board Member Orientation, is exactly what a busy volunteer board member needs. The board member's duties are presented in a clear and concise manner from the perspective of someone who has been around many boards. With a focus on those issues that are most common and/or most important, it is perfect for board member orientation and for quick reference reminders for the experienced board member." -- Doug Starcher, Partner, Broad & Cassel "This book provides clear, no-nonsense guidance on the basic issues for new nonprofit board members. Using this book for board member orientation will ensure your organization has communicated fundamental governance issues and will assist the board in determining risk management strategies." -- Dan Busby, President, ECFA

***** The Simple Board Member Orientation Process Using This Book: 1.Your board members read Chapters 1-9 of the book, which will provide them with insights regarding the key elements of nonprofit board service. 2.You provide the board members with copies of the documents described in Chapter 10 related to your organization. 3.You meet with your board members to discuss the unique attributes of your organization following the discussion questions provided in Chapter 10. Done!

Boys' Life

ÊAs a boy, the author dreamed of wonderful municipal playgrounds, of organizations giving the boys opportunity to camp in the open, of zoological and botanical gardens planned and adapted to the understanding of youth. His busy life as a civil engineer, surveyor, and work in the open gave him no opportunity to develop his dreams, but at the end of a five year tour of the United States and Canada, made over fifty years ago, he drifted into New York City and was shocked beyond

expression by the almost total lack of breathing spaces for our boys, in the greatest of American cities. True, it then had Central Park; but fifty years ago Central Park was out among the goats, only to be reached by a long and tiresome horse car journey. This lamentable state of affairs caused the writer so much real pain and concern that he then and there inaugurated a personal crusade for the benefit of the boys, a crusade with the avowed object of winning for them the peoples' interest in the big outdoors. The most difficult part of his task was to convince the men of the swivel chairs that boys' leisure should be spent in the open; that the blue sky is the only proper roof for a normal boy's playground; also that the open spaces are the places where God intended young people to live, work and play. No great crusade, no great movement of any kind is one man's work, nevertheless, every successful movement must have one enthusiast in the front rank, one who knows the trail and comprehensively envisions the objective—Objectum quod complexum. Others may and will join him, and occasionally spurt ahead of the leader, like the hare in the fable, but the enthusiast keeps right on just the same. Pray do not understand by this that the writer claims that he alone is responsible for this bloodless revolution. No, no, his propaganda work did however win for him the moral support of the editorial staff of St. Nicholas, Youth's Companion and Harpers. Later he was openly backed and encouraged by such distinguished sportsmen as President Roosevelt, his chief forester Governor Pinchot, and his Chief of Staff Major General Bell. While the stalwart men of the Camp Fire Club of America worked hand and glove with him, all similar organizations failed not in voicing their approval. Furthermore he was always helped by his loyal friends of the daily press. Many famous writers lent their influence, all working consciously or unconsciously to help the great cause of boyhood.

Sea Scout Manual

'In my previous books I have tried to emphasize our kinship with the animals by showing that in them we can find the virtues most admired in Man. Lobo stands for Dignity and Love-constancy; Silverspot, for Sagacity; Redruff, for Obedience; Bingo, for Fidelity; Vixen and Molly Cottontail, for Mother-love; Wahb, for Physical Force; and the Pacing Mustang, for the Love of Liberty. In this volume, Majesty, Grace, and the Power of Wisdom, the sweet Uses of Adversity, and the two-edged Sorrows of Rebellion are similarly set forth. The material of the accounts is true. The chief liberty taken, is in ascribing to one animal the adventures of several. Contents: Krag, the Kootenay Ram; A Street Troubadour; Being the Adventures of a Cock Sparrow; Johnny Bear; The Mother Teal and the Overland Route; Chink: The Development of a Pup; The Kangaroo Rat; Titop: The Story of the Coyote that Learned How; Why the Chickadee Goes Crazy Once a Year. The Scouting Guide to Survival: An Officially-Licensed Book of the Boy Scouts of America

Robert Baden Powell's Scout movement was in its springtime when the Great War broke out in 1914. Emerging from the pioneering first camp on Brownsea Island in Poole Harbour, Scouting for boys soon spread like wildfire throughout the British Empire and by the time of the war, there were thousands of Scouts who flocked to join their country's colours. This anthology presents a selection of heroic deeds performed by Scouts in the conflict in suitably admiring terms. In his foreword, Baden Powell himself stresses the self-sacrifice; self-discipline and social equality of the Scouts as the key factors in their heroism. The deeds recorded here range from the famous self-sacrifice of 'Boy Jack Cornwell at Jutland - an act which won him a posthumous VC - to Piper David Laidlaw's equally brave exploit when he walked along the trench parapet during the battle of Loos playing the pipes to encourage his comrades. Laidlaw survived the action to win another celebrated VC. This is the perfect book for all former Boy Scouts - and for anyone interested in stirring deeds performed by brave men and boys in war. It also contains lengthy details of numerous awards, from MMs to VCs and the lives of leading Scouts killed in action during the Great War.

An extraordinary journey alongside America's new generation of Eagle Scouts, who are discovering their purpose and bringing the values of Scouting to the world. Over the past century, Scouts have helped to guide the course of American history. But what does Scouting and the Eagle badge mean to the Scouts of today? How will they shape the future of Scouting and America itself? In Spirit of Adventure, Scouting expert and Eagle Scout Alvin Townley finds the answer. Townley traveled across the country and to the far corners of the globe to meet these young Eagle Scouts. He found them everywhere, continuing the life of adventure and service that they had begun in Scouting. He discovered them in Afghanistan providing medical care to villagers, in Australia saving coral reefs, at the Super Bowl and Olympic venues striving for victory, on desert cliffs and at inner-city schools teaching new lessons, in Africa bringing hope to children, and on the windswept deck of the aircraft carrier USS Nimitz preparing for takeoff. Whether doctors, activists, servicemen, entrepreneurs, or teachers, these young men are changing the world through bold actions that capture the essence of the Scouting tradition. In Spirit of Adventure, Townley answers important questions about the future of Scouting and America, while revealing stories of service, courage, and pure excitement that introduce our nation to an inspiring new generation of leaders.

No Longer the Forgotten Season Just after Labor Day, Ken McAlpine said good-bye to his family and began a drive up the East Coast, from Florida to Maine, on a one-man quest to capture the elusive “forgotten season” of beach towns shuttered until the return of warm weather. *Off-Season* is a moving portrait that brings to life the magic of the sea and shore in winter, the charm of beach towns emptied of summer crowds, and the warmth and eccentricities of year-round coastal residents who revel in small-town spirit. McAlpine skipped the more popular destinations like Nags Head, Virginia Beach, Cape May, and the Hamptons, opting to visit lesser known locales like Sharpes, Florida; Tangier Island, Virginia; and Montauk, New York. There he found people who celebrated the departure of the tourists with the cautious hope they’d return next summer. He encountered fishermen struggling to make a living, a former playboy lifeguard now ministering to the elderly and ill, a marine policeman both reviled and respected, a lone kayaker paddling away his grief, a couple fighting to save the world’s coral reefs, divers searching for everything from false teeth to dead bodies in dark waters, and deserted snow-covered beaches more beautiful than anyone could describe. More than a travelogue—and a whole new breed of beach read—*Off-Season* is a stroll off the beaten path and a look at the people and places in our country that keep the spirit of community alive.
