Chile peppers are hot--they add culinary fire to dishes from a variety of cuisines and inspire near-fanatical devotion in vegetable gardeners and collectors. The Complete Chile Pepper Book, by world-renowned chile experts Dave DeWitt and Paul W. Bosland, shares detailed profiles of the one hundred most popular chile varieties and include information on how to grow and cultivate them successfully, along with tips on planning, garden design, growing in containers, dealing with pests and disease, and breeding and hybridizing. Techniques for processing and preserving include canning, pickling, drying, and smoking. Eighty-five mouth-watering recipes show how to use the characteristic heat of chile peppers in beverages, sauces, appetizers, salads, soups, entrees, and desserts. Is that one guy dragging you all down? The control-freak, the narcissist, the slacker, the cynic Difficult people are the worst part of a manager's job. Whether it comes from direct reports or people above, outbursts, irrational demands, griping, and other disruptions need to be dealt with-and it's your responsibility to do it. Leading the Unleadable turns this dreaded chore into a straight forward process that gently, yet effectively, improves behaviors. Written by an insider in the tech industry, where personality issues routinely wreck projects, the book reveals a core truth: most people actually want to contribute results, not cause headaches. Once you realize the potential for change, the book's simple steps, examples, and scripts explain how to right even the most hopeless situations. You'll learn how to:

- * Master the necessary mindset
- * Explain the problem calmly in a short feedback session
- * Get a commitment to change, and follow up
- * Coach others to replicate the process
- * Develop the situational awareness required to spot trouble even earlier in the future

Every manager has "problem people." What sets great managers apart is how they turn them into productive team players. Prepare to transform the troublesome into the tremendous.

The Lying Game #3: Two Truths and a Lie

Mexico 1900-1950 offers an unprecedented survey of Mexican art from the turn of the century through the Revolution (1910-20) and until the early 1950s. It examines key works across different mediums by major Mexican artists, including Diego Rivera, Frida Kahlo, and José Clemente Orozco, as well as by lesser-known figures and women artists. The catalogue showcases Mexican modern art as its own distinct avant-garde, fundamentally different from that of Europe. Although many Mexican artists lived and practiced in Paris during the early decades of the 20th century, they eventually returned home and drew extensively from themes surrounding nationhood and Mexico's rich, mythical past, poignantly articulating their country's revolutionary ideals, traditions, and aspirations. Over 250 illustrations foreground this

wholly original and sweeping study of Mexico as a hotbed for modernism and artistic achievement.

The First Lie

While her late twin watches from the afterlife, Emma assumes Sutton's identity to solve the mystery of the latter's murder, an investigation that repeatedly implicates the handsome and mysterious Thayer.

Life-cycle Management

In the tradition of grand sweeping histories such as *From Dawn To Decadence*, *The Structure of Scientific Revolutions*, and *A History of God*, Hecht champions doubt and questioning as one of the great and noble, if unheralded, intellectual traditions that distinguish the Western mind especially—from Socrates to Galileo and Darwin to Wittgenstein and Hawking. This is an account of the world's greatest 'intellectual virtuosos,' who are also humanity's greatest doubters and disbelievers, from the ancient Greek philosophers, Jesus, and the Eastern religions, to modern secular equivalents Marx, Freud and Darwin—and their attempts to reconcile the seeming meaninglessness of the universe with the human need for meaning. This remarkable book ranges from the early Greeks, Hebrew figures such as Job and Ecclesiastes, Eastern critical wisdom, Roman stoicism, Jesus as a man of doubt, Gnosticism and Christian mystics, medieval Islamic, Jewish and Christian skeptics, secularism, the rise of science, modern and contemporary critical thinkers such as Schopenhauer, Darwin, Marx, Freud,

Nietzsche, the existentialists.

Sergio Ruzzier brings his mischievous touch to a timeless favorite by Florence Parry Heide, beloved author of *The Shrinking of Treehorn*. This delightful new edition includes one never-before-published story. Ruby is reliable (kinda). Arthur is careful (sorta). Harry eats his carrots (though it depends on what you mean by "eat"). And just like all perfect children, Gloria helps her mother (well, that might be an exaggeration). As the eight deliciously wicked tales featured in this hilarious chapter book prove, it's perfectly nice to be a perfect child—but where's the fun in that?
