Luxury Arts of the Renaissance

Overview: The 18th edition of Crafting and Executing Strategy represents one of our most important and thoroughgoing revisions ever. The newest member of the author team, Margie Peteraf, led a thorough re-examination of every paragraph on every page of the 17th edition chapters. The overriding objectives were to inject new perspectives and the best academic thinking, strengthen linkages to the latest research findings, modify the coverage and exposition as needed to ensure squarely on-target content, and give every chapter a major facelift. While this 18th edition retains the same 12-chapter structure of the prior edition, every chapter has been totally refreshed. And the chapter content continues to be solidly mainstream and balanced, mirroring both the best academic thinking and the pragmatism of real-world strategic management. Known for its cases and teaching notes, this edition provides an unparalleled case line up of 28 cases. (1) 25 of the 28 cases are brand new or extensively updated for this edition, (2) The selection of cases is diverse, timely, and thoughtfully-crafted and complements the text presentation pushing students to apply the concepts and analytical tools they have read about. (3) Many cases involve high-profile companies. (4) And there's a comprehensive package of support materials that are a breeze to use, highly effective, and flexible enough to fit most any course design. Thompson 18e, your best case scenario!

Services Marketing: Concepts, Strategies, & Cases

Aiming to bridge the gap between theory and application, this work focuses on strategic management.

Keeping Faith with the Constitution

John Boyd is often known exclusively for the so-called 'OODA' loop model he developed. This model refers to a decision-making process and to the idea that military victory goes to the side that can complete the cycle from observation to action the fastest. This book aims to redress this state of affairs and re-examines John Boyd's original contribution to strategic theory. By highlighting diverse sources that shaped Boyd's thinking, and by offering a comprehensive overview of Boyd's work, this volume demonstrates that the common interpretation of the meaning of Boyd's OODA loop concept is incomplete. It also shows that Boyd's work is much more comprehensive, richer and deeper than is generally thought. With his ideas featuring in the literature on Network Centric Warfare, a key element of the US and NATO's so-called 'military transformation' programmes, as well as in the debate on Fourth Generation Warfare, Boyd continues to exert a strong influence on Western military thinking. Dr Osinga demonstrates how Boyd's work can help us to understand the new strategic threats in the post- 9/11 world, and establishes why John Boyd should be regarded as one of the most important (post)modern strategic theorists.

Lessons Encountered

Readers examine the use of services marketing as a competitive tool from a uniquely broad perspective with Hoffman/Bateson's SERVICES MARKETING: CONCEPTS, STRATEGIES, AND CASES, 5E. Using a reader-friendly, streamlined structure, this book explores services marketing not only as an essential focus for service firms, but also as a competitive advantage for companies that market tangible products. A wealth of real examples feature a variety of businesses from industries both within and beyond the nine service economy supersectors: education and health services, financial activities, government, information, leisure and hospitality, professional and business services, transportation and utilities, wholesale and retail trade, and other services. Cutting-edge data addresses current issues, such as sustainability, technology, and the global market, giving readers valuable insights and important skills for success in business today. Crafting & Executing Strategy: The Quest for Competitive Advantage: Concepts and Cases

Small Business Management, with its loyal following and great package, is far and away the market leading text in small business and has been for many years. It is a proven text, comprehensive in its approach, with the best fully integrated content, graphics, and resources devoted to business plan development. SBM has always been a step ahead of the competition (first to cover family businesses and first to integrate computer technology for small business) and continues to provide innovative coverage in each new edition. Increasingly adopted in hybrid courses that combine small business management and entrepreneurship and in standalone entrepreneurship courses, SBM shows aspiring business owners not only how to start a business but how to grow one.

United States History: Preparing for the Advanced Placement Examination, 2018 Edition

This book proposes that organizational policies are what ensure the institutionalization and sustainability of futures thinking in organizations. It presents several case studies from corporations and other institutions that describe effective use of foresight methods and internal policies to respond to rapid change. The case studies address changing trends in technology, globalization and/or workforce diversity, and the impact on the economic and political well-being of the organization. The editors also develop an organizational capability maturity model for futures thinking as well as providing questions for discussion that promote critical review of each case chapter. This book will inform scholars and organizational leaders how best to utilize foresight methodologies and organizational policies to sustain successful management strategies within futures thinking organizations. Chapter 9 is available open access under a Creative Commons Attribution 4.0 International License via link.springer.com.

Contemporary Strategy Analysis and Cases

NEW! Combined Text & Cases Version Considered by many to be the best textbook on Strategy, Contemporary Strategy Analysis 7th edition builds on the strengths of previous editions by introducing students to the core concepts and principles of strategy. In this most accessible strategy text, Robert M. Grant combines clarity of exposition with concentration on the fundamentals of value creation and an emphasis on practicality. In this seventh edition, a greater focus on strategy implementation reflects the needs of firms to reconcile scale economies with entrepreneurial flexibility, innovation with cost efficiency, and globalization with local responsiveness. Rob Grant eloquently combines theory with current real world examples and practice using a clearly written, logical and comprehensive style. Contemporary Strategy Analysis 7th edition is suitable for both MBA and advanced undergraduate students. Full teachings notes to the cases will be available upon publication at the companion website www.contemporarystrategyanalysis.com Contemporary Strategy Analysis 7th Edition is also available in a text only version – ISBN: 9780470747100

Essentials of Strategic Management

Today we associate the Renaissance with painting, sculpture, and architecture—the “major” arts. Yet contemporaries often held the “minor” arts—gem-studded goldwork, richly embellished armor, splendid tapestries and embroideries, music, and ephemeral multi-media spectacles—in much higher esteem. Isabella d’Este, Marchesa of Mantua, was typical of the Italian nobility: she bequeathed to her children precious stone vases mounted in gold, engraved gems, ivories, and antique bronzes and marbles; her favorite ladies-in-waiting, by contrast, received mere paintings. Renaissance patrons and observers extolled finely wrought luxury artifacts for their exquisite craftsmanship and the symbolic capital of their components; paintings and sculptures in modest materials, although discussed by some literati, were of lesser consequence. This book endeavors to return to the mainstream material long marginalized as a result of historical and ideological biases of the intervening centuries. The author analyzes how luxury arts went from being lofty markers of ascendancy and discernment in the Renaissance to being dismissed as “decorative” or “minor” arts—extravagant trinkets of the rich unworthy of the status of Art. Then, by re-examining the objects themselves and their uses in their day, she shows how sumptuous creations constructed the world and taste of Renaissance women and men.

Strategic Management with Powerweb

This book is the first to present a rich selection of over 30 real-world cases of how leading organizations conduct Business Process Management (BPM). The cases stem from a diverse set of industry sectors and countries on different continents, reporting on best practices and lessons learned. The book showcases how BPM can contribute to both exploitation and exploration in a digital world. All cases are presented using a uniform structure in order to provide valuable insights and essential guidance for students and practitioners.

Reconomics

This text includes recent research in strategy in a way that students can understand and apply to business cases and problems. Also, it offers coverage of strategy implementation, which many instructors think is critical if students are to understand the how and not just the what and why. This book also includes coverage of Michael Porter's classic 5-forces model. In this 13th edition there are two new chapters on global and e-commerce strategy, and cases that should spark student interest and generate lively classroom discussions. Many of the cases reflect high profile companies, products, and people that students will have heard of, know about from personal experience, or can easily identify with. The new case line-up features a collection of dot.com/new economy companies. Cases are further selected to highlight other critical types of business and trends, such as non-US companies, globalization, cross-cultural situations, relatively small, entrepreneurial

firms, non-profit organizations and more.

Chairman Xi Remakes the PLA

What is strategy? For many it is the application of a theory, model or framework. In this book Spender develops a different creative approach. Emphasizing that firms face uncertainties and unknowns (knowledge gaps) he argues that the core of strategic thinking and processes rests on the organization's leaders developing newly imagined solutions to the opportunities that these uncertainties open up. Drawing on a wide range of ideas from strategy, economics, entrepreneurship and philosophy he stresses the importance of judgment in strategy, and argues that a key element of the entrepreneur and executive's task is to engage chosen uncertainties, develop a language to express and explain the firm's particular business model for dealing with these, and thus create innovation and value. At the same time he shows how the language the strategist creates to do this gives the firm identity and purpose, and communicates this to its members, stakeholders, and customers. In an accessible and engaging style Spender introduces these ideas, and reviews the strategy tools currently available from consultants and academics. Throughout he stresses the uncertainties or knowledge absences that pervade business and make effective strategizing both necessary and valuable. He outlines a structured practice that managers and consultants might chose to follow, not a theory. With appendices on casework, teaching strategy, current strategy texts, and further reading this book makes an important contribution to our understanding of the field and practice of strategy, opening up new approaches for managers, consultants, strategy teachers and students.

Strategic Employee Communication

Although much has changed in schools in recent years, the power of differentiated instruction remains the same—and the need for it has only increased. Today's classroom is more diverse, more inclusive, and more plugged into technology than ever before. And it's led by teachers under enormous pressure to help decidedly unstandardized students meet an expanding set of rigorous, standardized learning targets. In this updated second edition of her best-selling classic work, Carol Ann Tomlinson offers these teachers a powerful and practical way to meet a challenge that is both very modern and completely timeless: how to divide their time, resources, and efforts to effectively instruct so many students of various backgrounds, readiness and skill levels, and interests. With a perspective informed by advances in research and deepened by more than 15 years of implementation feedback in all types of schools, Tomlinson explains the theoretical basis of differentiated instruction, explores the variables of curriculum and learning environment, shares dozens of instructional strategies, and then goes inside elementary and secondary classrooms in nearly all subject areas to illustrate how real teachers are applying differentiation principles and strategies to respond to the needs of all learners. This book's insightful guidance on what to differentiate, how to differentiate, and why lays the groundwork for bringing differentiated instruction

into your own classroom or refining the work you already do to help each of your wonderfully unique learners move toward greater knowledge, more advanced skills, and expanded understanding. Today more than ever, *The Differentiated Classroom* is a must-have staple for every teacher's shelf and every school's professional development collection.

Contemporary Management, Fourth Edition

Corporate governance around the world continues to develop rapidly and this new edition has been extensively rewritten to reflect these changes. The global financial crisis has led to a whole host of changes in corporate governance requirements, which are analysed by Bob Tricker.

Caliban and the Witch

Taking an interdisciplinary approach, *An Introduction to Global Studies* presents readers with a solid introduction to the complex, interconnected forces and issues confronting today's globalized world. Introduces readers to major theories, key terms, concepts, and notable theorists Equips readers with the basic knowledge and conceptual tools necessary for thinking critically about the complex issues facing the global community Includes a variety of supplemental features to facilitate learning and enhance readers' understanding of the material

Crafting and Executing Strategy

Chief Justice John Marshall argued that a constitution "requires that only its great outlines should be marked [and] its important objects designated." Ours is "intended to endure for ages to come, and consequently, to be adapted to the various crises of human affairs." In recent years, Marshall's great truths have been challenged by proponents of originalism and strict construction. Such legal thinkers as Supreme Court Justice Antonin Scalia argue that the Constitution must be construed and applied as it was when the Framers wrote it. In *Keeping Faith with the Constitution*, three legal authorities make the case for Marshall's vision. They describe their approach as "constitutional fidelity"--not to how the Framers would have applied the Constitution, but to the text and principles of the Constitution itself. The original understanding of the text is one source of interpretation, but not the only one; to preserve the meaning and authority of the document, to keep it vital, applications of the Constitution must be shaped by precedent, historical experience, practical consequence, and societal change. The authors range across the history of constitutional interpretation to show how this approach has been the source of our greatest advances, from *Brown v. Board of Education* to the New Deal, from the *Miranda* decision to the expansion of women's rights. They delve into the complexities of voting rights, the malapportionment of legislative districts, speech freedoms, civil liberties and the War on Terror, and the evolution of checks and balances. The Constitution's framers

could never have imagined DNA, global warming, or even women's equality. Yet these and many more realities shape our lives and outlook. Our Constitution will remain vital into our changing future, the authors write, if judges remain true to this rich tradition of adaptation and fidelity.

Twenty Thousand Leagues Under the Sea

Strategy

Since its creation in 1963, United States Southern Command has been led by 30 senior officers representing all four of the armed forces. None has undertaken his leadership responsibilities with the cultural sensitivity and creativity demonstrated by Admiral Jim Stavridis during his tenure in command. Breaking with tradition, Admiral Stavridis discarded the customary military model as he organized the Southern Command Headquarters. In its place he created an organization designed not to subdue adversaries, but instead to build durable and enduring partnerships with friends. His observation that it is the business of Southern Command to launch "ideas not missiles" into the command's area of responsibility gained strategic resonance throughout the Caribbean and Central and South America, and at the highest levels in Washington, DC.

Strategy Pure & Simple II: How Winning Companies Dominate Their Competitors

Praise for Outpacing the Competition Patent-Based Business Strategy "Outpacing the Competition provides a useful IP management framework for rapidly evolving and inherently unpredictable R&D environments where companies are partners, customers, and competitors at the same time." -Marshall Phelps, Corporate Vice President for IP Policy & Strategy, Microsoft "Robert Cantrell's book Outpacing the Competition: Patent-Based Business Strategy?should be read by?anyone?involved in the practice of litigating or licensing patent rights or policymakers responsible for patent issues. Mr. Cantrell provides a cogent approach for applying decisional methodology and game theory to enhance the utilization and understanding of patent rights."-Bradley J. Olson, Esq., patent attorney, Washington, DC "Robert Cantrell makes a compelling case for using intellectual property as a core for building solid business strategy. He provides a unique and valuable perspective on competitive advantage, as delivered through patent-based business strategy. This is an excellent addition to anyone's business strategy arsenal." -Jeff Hovis, Managing Principal, Product Genesis, Innovation Genesis LLC "Robert truly treats patents and related intellectual property as both a weapon and a shield to help the reader use patents to out-manuever global competitors of all kinds—the low-cost producer, the high-end innovator, etc. CEOs, attorneys, business and engineering professionals and the like will enjoy the military imagery and flavor provided by Robert. Thanks for clarifying how critical it is to have an understanding of patents in running a truly competitive global business today."

-José W. Jimenez, Esq., Chief Intellectual Property Officer,AMS Research Corporation

Basic Concepts of Health Care Human Resource Management

This title responds head-on to the growing requests by business faculty for a concise, theory-driven strategic management concepts and cases text.

Fundamentals of Global Strategy

STRATEGY: Winning in the Marketplace is the newest offering from proven authors Thompson, Gamble, and Strickland. As in previous works, the authors' mainstream presentation includes the most recent research in strategy presented in a way that students can understand and apply to business cases and problems. With fewer chapters and pages than previous texts by these authors, this text offers a more concise, lively, and user-friendly presentation of strategic management. Fundamental strengths of Thompson/Gamble/Strickland text treatments are very much evident in this edition-a compelling presentation of Porter's Five-Forces model and globally competitive markets and first-rate coverage of strategy execution and the drive for operating excellence.

An Introduction to Global Studies

Literary Nonfiction. CALIBAN AND THE WITCH is a history of the body in the transition to capitalism. Moving from the peasant revolts of the late Middle Ages to the witch-hunts and the rise of mechanical philosophy, Federici investigates the capitalist rationalization of social reproduction. She shows how the battle against the rebel body and the conflict between body and mind are essential conditions for the development of labor power and self-ownership, two central principles of modern social organization."It is both a passionate work of memory recovered and a hammer of humanity's agenda." Peter Linebaugh, author of The London Hanged"

The Art of War

The Glencoe Math Student Edition is an interactive text that engages students and assist with learning and organization. It personalizes the learning experience for every student. The write-in text, 3-hole punched, perfed pages allow students to organize while they are learning.

Small Business Management

This volume represents an early attempt at assessing the Long War, now in its 14th year. Forged in the fires of the 9/11 attacks, the war includes campaigns against al Qaeda, major conflicts in Iraq and Afghanistan, and operations in the Horn of Africa, the Republic of the Philippines, and globally, in the air and on the sea. The authors herein treat only the campaigns in Afghanistan and Iraq, the largest U.S. efforts. It is intended for future senior officers, their advisors, and other national security decisionmakers. By derivation, it is also a book for students in joint professional military education courses, which will qualify them to work in the field of strategy. While the book tends to focus on strategic decisions and developments of land wars among the people, it acknowledges that the status of the United States as a great power and the strength of its ground forces depend in large measure on the dominance of the U.S. Navy and U.S. Air Force in their respective domains.

Science, Strategy and War

In the last few years implementation has become an integral part of strategy discussions due to the staggering failure of organizations to deliver on the strategy promises. In *Beyond Strategy*, Robin shifts his focus from why strategy implementation is important, which was the focus of his last international best seller *Bricks to Bridges*, to what leaders must do differently. Implementation of strategy can't simply be delegated. In the book he provides the structure, framework and specific actions leaders must take to go beyond strategy and deliver on their promises. The book is divided into the areas of the Implementation Compass, a tool for implementing strategy that identifies the eight global best practices of implementation. Each chapter ends with the actions leaders must take. The book is concise, based on the latest thinking and packed with useful tips and case studies.

Crafting And Executing Strategy: The Quest For Competitive Advantage (Special Indian Edition)

RECONOMICS is the first book that shows how to boost economic growth and community resilience simultaneously. It also reveals the surprising factor that sabotages most revitalization / resilience efforts. RECONOMICS is THE guide to healing economies, societies and nature together! "RECONOMICS is a must-read for every mayor, resilience activist, planning commissioner and urban redevelopment professional who has been frustrated in their attempts to revitalize a place. It succinctly describes why most revitalization plans fail, analyzes what's missing, and provides a simple, easy-to-follow strategic process for success." - Kevin L. Maevers, D.Mgmt., AICP; President, Arivitas Strategies, LLC, La Quinta, CA; Vice Director of Policy, IES, California Chapter, American Planning Association. "Storm Cunningham is so far ahead of the community revitalization game, I'm in awe." - Sarah Sieloff, Executive Director, Center for Creative Land Recycling (September 2019) "RECONOMICS hits the nail on the head!" - Nalin Seneviratne, Director of City Centre Development, Sheffield City Council, Sheffield, England "Storm Cunningham's RECONOMICS Process raises the bar for community and

regional revitalization. It's a powerful package, succinctly capturing the process that we have doggedly tried to identify over time, not always knowing the next step. The RECONOMICS Process brings a holistic dimension to redevelopment, inextricably linking vision and task." - Eric Bonham, P.Eng, Board of Partnership for Water Sustainability in British Columbia, Former Director, BC Ministry of Environment & BC Ministry of Municipal Affairs "Storm Cunningham is the world's thought leader on community revitalization and natural resource restoration." - George Ochs, Managing Director of Real Assets, JP Morgan. "RECONOMICS should be mandatory reading for all Mayors, Chief Executives and Directors of Planning in cities and regions." - Rick Finc, Principal, RFA Development Planning, Edinburgh, Scotland "RECONOMICS is very concentrated, highly sophisticated and stunningly accurate." - Merrit Drucker, Anacostia Waterfront Trust, Washington, DC "Storm Cunningham's RECONOMICS transformed our latest project, which uses his 3Re strategy." - Dumas F. Lafontant, Director, Lower Roxbury Coalition, Boston, Massachusetts Does your city or region have an actual process for reliably creating resilient, inclusive economic growth or just the usual vision, plan and projects? The reliable production of ANYTHING requires a process. Everyone knows this except most leaders of local renewal initiatives. Over 95% of community revitalization and resilience projects fail to achieve their goals, and a shocking percentage of them fail outright. The reason is the same in almost all cases: lack of a complete renewal process. There's always at least one crucial element of the process missing. Since most leaders don't know what the minimum viable process is, they can't fill the gap. In RECONOMICS, that complete strategic renewal process is revealed for the first time. It can be applied at the community, regional or national levels. If you have ANY role in improving your local future, you need to read this book. What it reveals can easily double the ROI (revitalization on investment) of your redevelopment, renewal and climate adaptation efforts.

Essentials of Strategic Management

The concept of sustainability is important for companies both in the case of SMEs and worldwide multinational companies. Some key factors to help a company achieve its sustainability objectives are based on human resource management. Sustainable human resource management is a typical cross-functional task that becomes increasingly important at the strategic level of a company. Industry 4.0 technologies, Internet of Things, and competitive demands, as signs of globalization, have led to significant changes across the organizational structures and human resource strategies of companies. The increasing importance of sophisticated human resource strategies in the life of companies and the intention to find optimal design and operation strategies for sustainable human resource management were a motivation for launching this book. This book offers a selection of papers which explain the impact of smart human resource management on economy. Authors from 14 countries published working examples and case studies resulting from their research in this field. The aim of this book is to help students at the level of BSc, MSc, and PhD level, as well as managers and researchers, to understand and appreciate the concept, design, and implementation of sustainable human resource management solutions.

Strategy and Policy

Drawing on his 20 years of pioneering research and work with some 400 top companies, Robert offers today's executives guidance in strategy formulation, implementation, and deployment. Filled with examples drawn from the experiences of today's commercial leaders and interviews with CEOs of companies in a variety of industries, this updated edition of a revolutionary and inspiring best seller offers a sure-fire process of strategic thinking that's been tested and refined in the "war rooms" of America's most successful corporations.

The Differentiated Classroom

Thorough yet concise, ESSENTIALS OF STRATEGIC MANAGEMENT, Third Edition, is a brief version of the authors' market-leading text STRATEGIC MANAGEMENT: AN INTEGRATED APPROACH. Following the same framework as the larger book, ESSENTIALS helps students identify and focus on core concepts in the field in a more succinct, streamlined format. Based on real-world practices and current thinking, the text's presentation of strategic management features an increased emphasis on the business model concept as a way of framing the issues of competitive advantage. Cutting-edge research, new strategic management theory, and a hands-on approach allow students to explore major topics in management, including corporate performance, governance, strategic leadership, technology, and business ethics. In addition, a high-quality case program examines small, medium, and large companies--both domestic and international--so that students gain experience putting chapter concepts into real-world practice in a variety of scenarios. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Crafting and Executing Strategy CC with Connect Access Card

"China's current military reforms are unprecedented in their ambition and in the scale and scope of the organizational changes. Virtually every part of the People's Liberation Army (PLA) now reports to different leaders, has had its mission and responsibilities changed, has lost or gained subordinate units, or has undergone a major internal reorganization. Drawing upon papers presented at two conferences co-organized by the U.S. National Defense University, RAND, and Taiwan's Council of Advanced Policy Studies, this edited volume brings together some of the world's best experts on the Chinese military to analyze the various dimensions of the reforms in detail and assess their implications for the PLA's ability to conduct joint operations, for the Chinese Communist Party's control of the army, and for civil-military integration. The contributors review the drivers and strategic context underpinning the reform effort, explore the various dimensions of PLA efforts to build a force capable of conducting joint operations, consider the implications for the PLA services, and examine Xi Jinping's role in driving the reforms through and using them to strengthen control over the military. The chapters chronicle

successes and outstanding problems in the reform effort and consider what the net effect will be as the PLA strives to become a "world-class" military by mid-century, if not much sooner."--Page 4 of cover.

Strategic Management

Basic Concepts of Health Care Human Resource Management is a comprehensive overview of the role of Human Resource Management (HRM) in all aspects of healthcare management. Beginning with a survey of HRM, from its beginnings to present-day trends, the text moves on to cover state and federal healthcare laws, codes of ethics, staffing organizations, training and development, employee relations, and long-term planning.

Futures Thinking and Organizational Policy

Strategic Management: Text and Cases, 2nd Edition, by Dess/Lumpkin/Eisner is both readable and rigorous - written for today's student. A rocket-ship in its first edition, the revision continues to provide solid treatment of traditional topics in strategic management, as well as contemporary topics like entrepreneurship, knowledge management, and internet strategies. The prestigious author team understands the importance of thorough, modern concepts illustrated by rich, relevant and teachable cases. The new case selections emphasize variety, currency, and familiar company names. The cases are up-to-date in terms of both financial data and strategic issues. This group of cases gives both instructors and students unparalleled quality and variety. Based on consistent reviewer feedback, these selections combine comprehensive and shorter length cases about well known companies.

Outpacing the Competition

Employee engagement (or a lack thereof) can often be linked to poor communication and a detachment from company goals. Companies of all sizes are looking for ways to boost communication, recognizing its impact on key business outcomes, such as productivity and profitability. This book offers fresh insights about opportunities to improve the quality of employee communications based on employees' needs. It highlights the importance of simple, jargon-free communication that focuses on dialogue and content. High-performing organizations are more likely to think about communication from the audience perspective, rather than purely from the management perspective. The case studies offer readers a firm understanding of ways to implement and measure communication in daily practice. Effective communication requires planning and this book, with its focus on the US, Latin America, and emerging markets, will guide readers in using communication in the alignment of corporate and employee needs.

Sustainable Human Resource Management

Perfect for students preparing to take the 2018 AP U.S. History Examination. -- Publisher's website.

Corporate Governance

Business Strategy

The globalization of the competitive landscape has forced companies to fundamentally rethink their strategies. Whereas once only a few industries such as oil could be labeled truly global, today many—from pharmaceuticals to aircraft to computers—have become global in scale and scope. As a consequence, creating a global competitive advantage has become a key strategic issue for many companies. Crafting a global strategy requires making decisions about which strategy elements can and should be globalized and to what extent.
