elegant in its design. We started with a white glossy cover so minor spills clean up easily. Your family surname, located towards the top front of the planner, is proudly displayed in red in 40 pt. type. Then we added two great graphics: on the front, a circular design incorporates the Italian flag, the Leaning Tower of Pisa, other Italian-themed items with the word "Italy" in the center; the sleek "swish" graphic on the back of the planner incorporates the Italian colors with the words "Fatto in Italia," or, Made in Italy. The planner includes lines for appointments from 6:00 AM through 8:00 PM along with prompts for NOTES, PRIORITIES and a TO DO list to organize your busy life. Italian Pride Press has created personalized daily planners with over 150 popular Italian names. They make a great gift item. All the journals, notebooks and planners published by Italian Pride Press celebrate Italian heritage and the incredible contributions Italian-Americans have made in America.

engineering at levels one to three. Produced alongside the ATT online learning resources, this textbook covers all the theory and technology sections that students need to learn in order to pass levels 1, 2 and 3 automotive courses. It is recommended by the Institute of the Motor Industry and is also ideal for exams run by other awarding bodies. Unlike the current textbooks on the market though, this title takes a blended learning approach, using interactive features that make learning more enjoyable as well as more effective. When linked with the ATT online resources it provides a comprehensive package that includes activities, video footage, assessments and further reading. Information and activities are set out in sequence so as to meet teacher and learner needs as well as qualification requirements. Tom Denton is the leading UK automotive author with a teaching career spanning lecturer to head of automotive engineering in a large college. His nine automotive textbooks published since 1995 are bestsellers and led to his authoring of the Automotive Technician Training multimedia system that is in common use in the UK, USA and several other countries.
