“Christopher Moore is a very sick man, in the very best sense of that word.” —Carl Hiassen “[Moore’s novels] deftly blend surreal, occult, and even science-fiction doings with laugh-out-loud satire of contemporary culture.” —Washington Post “If there’s a funnier writer out there, step forward.” —Playboy Absolutely nothing is sacred to Christopher Moore. The phenomenally popular, New York Times bestselling satirist whom the Atlanta Journal-Constitution calls, “Stephen King with a whoopee cushion and a double-espresso imagination” has already lampooned Shakespeare, San Francisco vampires, marine biologists, Death...even Jesus Christ and Santa Claus! Now, in his latest masterpiece, *Sacré Bleu*, the immortal Moore takes on the Great French Masters. A magnificent “Comedy d’Art” from the author of *Lamb*, *Fool*, and *Bite Me*, Moore’s *Sacré Bleu* is part mystery, part history (sort of), part love story, and wholly hilarious as it follows a young baker-painter as he joins the dapper Henri Toulouse-Lautrec on a quest to unravel the mystery behind the supposed “suicide” of Vincent van Gogh.

French Grammar Drills

Jean-Luc Godard, like many of his European contemporaries, came to filmmaking through film criticism. This collection of essays and interviews, ranging from his early efforts for *La Gazette du Cinéma* to his later writings for *Cahiers du Cinéma*, reflects his dazzling intelligence, biting wit, maddening judgments, and complete unpredictability. In writing about Hitchcock, Welles, Bergman, Truffaut, Bresson, and Renoir, Godard is also writing about himself—his own experiments, obsessions, discoveries. This book offers evidence that he may be even more original as a thinker about film than as a director. Covering the period of 1950-1967, the years of *Breathless*, *A Woman Is a Woman*, *My Life to Live*, *Alphaville*, *La Chinoise*, and *Weekend*, this book of writings is an important document and a fascinating study of a vital stage in Godard's career. With commentary by Tom Milne and Richard Roud, and an extensive new foreword by Annette Michelson that reassesses Godard in light of his later films, here is an outrageous self-portrait by a director who, even now, continues to amaze and bedevil, and to chart new directions for cinema and for critical thought about its history.

Festivals and the French Revolution--the subject conjures up visions of goddesses of Liberty, strange celebrations of Reason, and the oddly pretentious cult of the Supreme Being. Every history of the period includes some mention of festivals; Ozouf shows us that they were much more than bizarre marginalia to the revolutionary process.

Where did the baguette come from? A simple enough question, but this search for an answer ranges from the long breads of Babylon and Egypt to the first long (but wide) breads in France to the gradual evolution of long narrow breads from the eighteenth into the twentieth century, resulting in both the roll-sized "flute" and the gigantic jockos of the nineteenth century. Strangely, there are those today who claim the baguette is not French, but a foreign import. Here you will find the

"Hippolyte Adolphe Taine (21 April 1828 ? 5 March 1893) was a French critic and historian. He was the chief theoretical influence of French naturalism, a major proponent of sociological positivism and one of the first practitioners of historicist criticism. Literary historicism as a critical movement has been said to originate with him."--Wikipedia.

Harold McGee's *On Food and Cooking* is a kitchen classic. Hailed by *Time* magazine as "a minor masterpiece" when it first appeared in 1984, *On Food and Cooking* is the bible to which food lovers and professional chefs worldwide turn for an understanding of where our foods come from, what exactly they're made of, and how cooking transforms them into something new and delicious. Now, for its twentieth anniversary, Harold McGee has prepared a new, fully revised and updated edition of *On Food and Cooking*. He has rewritten the text almost completely, expanded it by two-thirds, and commissioned more than 100 new illustrations. As compulsively readable and engaging as ever, the new *On Food and Cooking* provides countless eye-opening insights into food, its preparation, and its enjoyment. *On Food and Cooking* pioneered the translation of technical food science into cook-friendly kitchen science and helped give birth to the inventive culinary movement known as "molecular gastronomy." Though other books have

The French Revolution

The world-famous French singer Edith Piaf (1915-63) was never just a singer. Dozens of biographies of her, of variable quality, have seldom got beyond the well known and usually contested 'facts' of her life. This book suggests new ways of understanding her. A 'cultural history' of Piaf means exploring her cultural, social and political significance as a national and international icon, looking at her shifting meanings over time, at home and abroad. How did she become a star and a myth? What did she come to mean in life and in death? At the centenary of her birth and more than fifty years after her passing, why do we still remember her work and commemorate her through the work of others, from Claude Nougaro and Elton John to Ben Harper and Zaz, as well as in films, musicals, documentaries and tribute acts around the world? What does she mean today? The book proposes the notion of an imagined Piaf. To a large extent, she was her own invention, not only by

virtue of her talent but because she produced narratives about herself, building a mystery. But she was also the invention of others: of those she worked with but above all of her audiences, who made their own meanings from her carefully staged performances. Since her death, the world has been free to imagine new Piafs. From the 1930s until today, she has variously embodied conceptions of the 'popular' and of 'chanson' as a new kind of middlebrow, of gender, sexuality, national identity and the human condition. "

The Myth of the Savage and the Beginnings of French Colonialism in the Americas

After its succès de scandale in France in 1856, Flaubert's Madame Bovary was widely adapted, sometimes so closely they were dismissed as plagiarism yet they achieved canonical status in their national traditions. This study traces Madame Bovary's journey abroad and asks why the novel was given such import in foreign literatures.

The Making of Tocqueville's Democracy in America

Letters Concerning the English Nation

Arthur Young's Travels in France

It is impossible fully to understand the American experience apart from Alexis de Tocqueville's *Democracy in America*. Moreover, it is impossible fully to appreciate Tocqueville by assuming that he brought to his visitation to America, or to the writing of his great work, a fixed philosophical doctrine. James T. Schleifer documents where, when, and under what influences Tocqueville wrote different sections of his work. In doing so, Schleifer discloses the mental processes through which Tocqueville passed in reflecting on his experiences in America and transforming these reflections into the most original and revealing book ever written about Americans. For the first time the evolution of a number of Tocqueville's central themes--democracy, individualism, centralization, despotism--emerges into clear relief. As Russell B. Nye has observed, "Schleifer's study is a model of intellectual history, an account of the intertwining of a man, a set of ideas, and the final product, a book." The Liberty Fund second edition includes a new preface by the author and an epilogue, "The Problem of the Two Democracies." James T. Schleifer is Professor of History and Director of the Gill Library at the College of New Rochelle

The main objective of *À votre tour!* is to advance students to a level at which they can comfortably express themselves on a variety of French and francophone topics. Avoiding the excessive rigor of most intermediate texts, *À votre tour!* immerses students in authentic language and cultural contexts to achieve three key objectives: to build and reinforce oral and written communicative skills, to develop reading skills and cultural awareness, and to forge a strong linguistic base. New! *Tête à tête* communicative activities require one student to use communicative skills to elicit unknown details from another student in order to complete a task, with basic vocabulary and grammar structures recycled to reinforce previously learned material. New! Integrated video correlates to the *Français Pratique* section of each unit and to corresponding video activities provided in the Student Activities Manual. New! Updated cultural material highlights recent cultural trends, such as prices expressed in euros, French phone numbers with appropriate area codes; reflects the current political realities; and offers many entry points for further development of cultural awareness, grammar, and lexical points. A broad introduction to French and Francophone cultures provides authentic language and cultural contexts without an intense grammar curriculum—adapted for students who might take French as a minor, rather than a major. Accessible presentation enables students with basic conversational and grammar skills to achieve success through careful pacing, cyclical review and re-entry of structures and vocabulary, and engaging conversational material. About the Baguette

"With a title derived literally from the explorations of the French in the Pacific and metaphorically from classroom encounters with another culture - both of which form important subsections to the volume - Explorations and Encounters in French actively seeks to unite those fields of enquiry sometimes seen as separate, namely, culture and language. The essays selected for inclusion in Explorations and Encounters in French bring together many of the current research strands in French Studies today, tapping into current pedagogical trends, analysing contemporary events in France, examining the Franco-Australian past, while reviewing teaching practice and the culture of teaching. Collectively, the essays reflect the common engagement with language, culture and society that

characterizes the community of French teachers and scholars in Australia and abroad."--University of Adelaide Press webpage.

This volume provides a lively and authoritative synthesis of recent work on the social history of France and is now thoroughly updated to cover the 'long nineteenth century' from 1789-1914. Peter McPhee offers both a readable narrative and a distinctive, coherent argument about this remarkable century and explores key themes such as: - peasant interaction with the environment - the changing experience of work and leisure - the nature of crime and protest - changing demographic patterns and family structures - the religious practices of workers and peasants - the ideology and internal repercussions of colonisation. At the core of this social history is the exercise and experience of 'social relations of power' - not only because in these years there were four periods of protracted upheaval, but also because the history of the workplace, of relations between women and men, adults and children, is all about human interaction. Stimulating and enjoyable to read, this indispensable introduction to nineteenth-century France will help readers to make sense of the often bewildering story of these years, while giving them a better understanding of what it meant to be an inhabitant of France during that turbulent time.
