As public accountability has increased and resources have become scarcer, public health, like clinical medicine, has been forced to re-examine the benefits and costs of its activities. Decision and economic analysis are basic tools in carrying out that mission. These methods have become standard practice in clinical medicine and health services research. This book, now in its second edition, was written in an effort to apply and adapt that experience with public health situations. The book was originally written to introduce Centers for Disease Control and Prevention staff to the concepts of decision and economic analysis, to provide guidance on methods to maximize comparability of studies, and to provide access to frequently used reference information. It has been adapted to meet the needs of scientists and managers in state and local health departments and managed care organizations as well as students in schools of public health and clinicians for an introductory text --a text that shows how these methods can be applied in population-based practice, to facilitate better comparability of studies, and to solidify understanding of the scientific basis for use of these tools in decision making. Decision makers will learn how these studies are conducted so they can be critical consumers-- understanding the strengths and limitations- and apply findings to policy and practice. The second edition updates and expands upon the standard methodology for conducting prevention effectiveness analyses. Each chapter has been revised or re-written. The chapters on measuring effectiveness,

decision analysis, and making information useful for decision makers as well as several appendices are entirely new.

The passport is one of the most widespread documents in worldwide use and yet, paradoxically, it has no basis in law: one state cannot demand another to do something - give access - simply by issuing a document. Yet, by insisting on the requirement of holding a passport the state has provided itself with a neat self-financing, data collection and surveillance system. This well illustrated book tells, for the first time, the story of the passport, from earliest times to the present day. only do so with the authority of the king or emperor. The passport's power to facilitate passage was, then, embodied in it from the beginning. But the passport is also connected with territorial and population control by the State. Today, the

When Heinz Lüning posed as a Jewish refugee to spy for Hitler's Abwehr espionage agency, he thought he had discovered the perfect solution to his most pressing problem: how to avoid being drafted into Hitler's army. Lüning was unsympathetic to Fascist ideology, but the Nazis' tight control over exit visas gave him no chance to escape Germany. He could enter Hitler's army either as a soldier . . . or a spy. In 1941, he entered the Abwehr academy for spy training and was given the code

name “Lumann.” Soon after, Lüning began the service in Cuba that led to his ultimate fate of being the only German spy executed in Latin America during World War II. Lüning was not the only spy operating in Cuba at the time. Various Allied spies labored in Havana; the FBI controlled eighteen Special Intelligence Service operatives, and the British counterintelligence section subchief Graham Greene supervised Secret Intelligence Service agents; and Ernest Hemingway’s private agents supplied inflated and inaccurate information about submarines and spies to the U.S. ambassador, Spruille Braden. Lüning stumbled into this milieu of heightened suspicion and intrigue. Poorly trained and awkward at his work, he gathered little information worth reporting, was unable to build a working radio and improperly mixed the formulas for his secret inks. Lüning eventually was discovered by British postal censors and unwittingly provided the inspiration for Graham Greene’s *Our Man in Havana*. In chronicling Lüning’s unlikely trajectory from a troubled life in Germany to a Caribbean firing squad, Thomas D. Schoonover makes brilliant use of untapped documentary sources to reveal the workings of the famed Abwehr and the technical and social aspects of Lüning’s spycraft. Using archival sources from three continents, Schoonover offers a narrative rich in atmospheric details to reveal the political upheavals of the time, not only tracking Lüning’s activities but also explaining the broader trends in the region and in local counterespionage. Schoonover argues that ambitious Cuban and U.S. officials turned Lüning’s capture into a grand victory. For at least five months after Lüning’s arrest, U.S. and Cuban leaders—J. Edgar Hoover, Fulgencio Batista, Nelson

Rockefeller, General Manuel Benítez, Ambassador Spruille Braden, and others—treated Lüning as a dangerous, key figure for a Nazi espionage network in the Gulf-Caribbean. They reworked his image from low-level bumbler to master spy, using his capture for their own political gain. In the sixty years since Lüning’s execution, very little has been written about Nazi espionage in Latin America, partly due to the reticence of the U.S. government. Revealing these new historical sources for the first time, Schoonover tells a gripping story of Lüning’s life and capture, suggesting that Lüning was everyone’s man in Havana but his own.

Unfunded Mandates Reform Act

In 2007, following the implementation of new document requirements for travelers entering the U.S. from within the Western Hemisphere, the Dept. of State (State) received a record number of passport applications. In June 2009 further document requirements are scheduled to go into effect and will likely lead to another surge in passport demand. This report examined: (1) the extent to which State was prepared for the surge in passport demand and how its readiness affected passport

This first-person account of a legendary necropolis will delight Francophiles, tourists and armchair travelers, while enriching the experience of taphophiles (cemetery lovers) and aficionados of art and architecture, mystery and romance. Carolyn Campbell's evocative images are complemented by those of renowned landscape photographer Joe Cornish. "City of Immortals" celebrates the novelty and eccentricity of Père-Lachaise Cemetery through the engrossing story of the history of the site established by Napoleonic decree along with portraits of the last moments of the cultural icons buried within its walls. In addition to several "conversations" with some of the high-profile residents, three guided tours are provided along with an illustrated pull-out map featuring the grave sites of eighty-four architects, artists, writers, musicians, dancers, filmmakers and actors, including Oscar Wilde, Jim Morrison of the Doors, Frédéric Chopin, Georges Bizet, Edith Piaf, Maria Callas, Isadora Duncan, Eugène Delacroix, Gertrude Stein, Amedeo Modigliani, Sarah Bernhardt, Simone Signoret, Colette and Marcel Proust.

and social history from the early 19th century to the modern era. It shows how the Australian passport evolved from a signifier of British nationality into a badge of membership of one of the most multicultural countries in the world. The book explores the landmark events in this history: the great 19th century diasporas, resulting from relaxation of official controls on the movement of people; the early passport regime regulating the movement of "ticket-of-leave" convicts; the establishment of the centralised passport system during World War I; the enactment of the first passport legislation for the Commonwealth, The Passports Act 1920, and the reaction of some Australians who felt the new law infringed the liberties of the British subject; changes to the laws in 1938 such that possession of a passport was no longer mandatory for an Australian to travel, though still a practical necessity; the use of the government's discretionary power to cancel or withhold passports to inhibit the movement of individual communists; the establishment of Australian citizenship in 1948 - the basis for possession of an Australian passport; the removal of the word "British" from the cover in 1967; the effects of globalisation and heightened security in the late 20th and early 21st century. It also touches on the lives of individuals: boxer Les Darcy, journalist Wilfred Burchett, and General Sir Thomas Blamey, are among the many Australians featuring in these pages. The book is based on an exhaustive examination of hitherto unexamined primary sources of many government departments, including the Departments of External Affairs, the Prime Minister's, the Attorney-General's, Defence, Home and Territories, Immigration and Foreign Affairs. The Invention of the Passport

"The myth of return was sacred to the majority of the Irish who left the 'ould sod' to work in post-war Britain. Generally, this dream was left unfulfilled, and several English cities became their permanent homes, leaving them as the largest 'ethnic minority' in Britain. This book focuses on Irish experiences in the most popular destination for Irish emigration in the 20th century: London and the southeast of England during the times of "The Troubles." Over 30 original interviews - with first generation and second generation emigrants born in the English capital - bring to life the experiences of Irish Londoners. The book offers an analysis of the under-explored theme of the formation of a coherent ethnic community among the emigrants, through such organizations as the Catholic Church, the Gaelic Athletic

Association, and County Associations. With powerful insight into Irish emigrant life in London, it also analyzes the divisions and differences within the community along class and gender lines."--Publisher's website.

The Passport

In today's world of constant identification checks, it's difficult to recall that there was ever a time when "proof of identity" was not a part of everyday life. And as anyone knows who has ever lost a passport, or let one expire on the eve of international travel, the passport has become an indispensable document. But how and why did this form of identification take on such a crucial role? In the first history of the passport in the United States, Craig Robertson offers an illuminating account of how this document, above all others, came to be considered a reliable answer to the question: who are you? Historically, the passport originated as an official letter of introduction addressed to foreign governments on behalf of American travelers, but as Robertson shows, it became entangled in contemporary negotiations over citizenship and other forms of identity documentation. Prior to

World War I, passports were not required to cross American borders, and while some people struggled to understand how a passport could accurately identify a person, others took advantage of this new document to advance claims for citizenship. From the strategic use of passport applications by freed slaves and a campaign to allow married women to get passports in their maiden names, to the "passport nuisance" of the 1920s and the contested addition of photographs and other identification technologies on the passport, Robertson sheds new light on issues of individual and national identity in modern U.S. history. In this age of heightened security, especially at international borders, Robertson's *The Passport in America* provides anyone interested in questions of identification and surveillance with a richly detailed, and often surprising, history of this uniquely important document.

This book is the first comprehensive examination of the citizenship regimes of the new states that emerged out of the break up of Yugoslavia. It covers both the states that emerged out of the initial disintegration across 1991 and 1992 (Slovenia, Croatia, Bosnia-Herzegovina, the Federal Republic of Yugoslavia and Macedonia), as well as those that have been formed recently through subsequent partitions (Serbia, Montenegro and Kosovo). While citizenship has often been used as a tool of ethnic engineering to reinforce the position of the titular majority in

many states, in other cases citizenship laws and practices have been liberalised as part of a wider political settlement intended to include minority communities more effectively in the political process. Meanwhile, frequent (re)definitions of these increasingly overlapping regimes still provoke conflicts among post-Yugoslav states. This volume shows how important it is for the field of citizenship studies to take into account the main changes in and varieties of citizenship regimes in the post-Yugoslav states, as a particular case of new state citizenship. At the same time, it seeks to show scholars of (post) Yugoslavia and the wider Balkans that the Yugoslav crisis, disintegration and wars as well as the current functioning of the new and old Balkan states, together with the process of their integration into the EU, cannot be fully understood without a deeper understanding of their citizenship regimes. This book was originally published as a special issue of *Citizenship Studies*.

The Long Partition and the Making of Modern South Asia

The Unfunded Mandates Reform Act of 1995 (UMRA) culminated years of effort by state and local government officials and business interests to control, if not eliminate, the imposition of unfunded intergovernmental and private-sector federal mandates. Advocates argued the statute was needed to forestall federal legislation and regulations that imposed obligations on state and local governments or

Download Ebook Documents Required For Passport Application

businesses that resulted in higher costs and inefficiencies. Opponents argued that federal mandates may be necessary to achieve national objectives in areas where voluntary action by state and local governments and business failed to achieve desired results. UMRA provides a framework for the Congressional Budget Office (CBO) to estimate the direct costs of mandates in legislative proposals to state and local governments and to the private sector, and for issuing agencies to estimate the direct costs of mandates in proposed regulations to regulated entities. Aside from these informational requirements, UMRA controls the imposition of mandates only through a procedural mechanism allowing Congress to decline to consider unfunded intergovernmental mandates in proposed legislation if they are estimated to cost more than specified threshold amounts. UMRA applies to any provision in legislation, statute, or regulation that would impose an enforceable duty upon state and local governments or the private sector. It does not apply to conditions of federal assistance; duties stemming from participation in voluntary federal programs; rules issued by independent regulatory agencies; rules issued without a general notice of proposed rulemaking; and rules and legislative provisions that cover individual constitutional rights, discrimination, emergency assistance, grant accounting and auditing procedures, national security, treaty obligations, and certain elements of Social Security. State and local government officials argue that UMRA's coverage should be broadened, with special consideration given to including conditions of federal financial assistance. During the 114th Congress, H.R. 50, the Unfunded Mandates Information and

Download Ebook Documents Required For Passport Application

Transparency Act of 2015, which was passed by the House on February 4, 2015, and its companion bill in the Senate, S. 189, would have broadened UMRA's coverage to include both direct and indirect costs, such as foregone profits and costs passed onto consumers, and, when requested by the chair or ranking Member of a committee, the prospective costs of legislation that would change conditions of federal financial assistance. The bills also would have made private-sector mandates subject to a substantive point of order and removed UMRA's exemption for rules issued by most independent agencies. H.R. 50 has been reintroduced in the 115th Congress as the Unfunded Mandates Information and Transparency Act of 2017. This report examines debates over what constitutes an unfunded federal mandate and UMRA's implementation. It focuses on UMRA's requirement that CBO issue written cost estimate statements for federal mandates in legislation, its procedures for raising points of order in the House and Senate concerning unfunded federal mandates in legislation, and its requirement that federal agencies prepare written cost estimate statements for federal mandates in rules. It also assesses UMRA's impact on federal mandates and arguments concerning UMRA's future, focusing on UMRA's definitions, exclusions, and exceptions that currently exempt many federal actions with potentially significant financial impacts on nonfederal entities. An examination of the rise of unfunded federal mandates as a national issue and a summary of UMRA's legislative history are provided in Appendix A. Citations to UMRA points of order raised in the House and Senate are provided in Appendix B.
