Except for the removal of Wake Forest College to Winston-Salem, there has never been a more exciting or impactful time in the history of the institution than during the 22 years of the Hearn administration (1983-2005). In this era, Wake Forest went from a strong regional, Baptist-affiliated university to a top 30 national, independent, institution of higher education. It hosted two presidential debates, won four NCAA team and one individual athletic championships, produced nine Rhodes Scholars, raised over a billion dollars, started a divinity school, invested millions in the renovation of old and the construction of new buildings, increased the number and academic excellence of its faculty, brought in higher quality students, lowered its student/faculty ratio, had groups and individuals within it excel academically, athletically, and altruistically, and became more united. It grew slightly in size physically but more significantly it magnified its influence in the world and produced a bevy of leaders on all levels dedicated to making a positive and humanistic difference. This book traces the events that led to the explosive growth and influence of Wake Forest. At the helm, guiding the university, was Thomas K. Hearn, Jr. He was a visionary and decisive leader whose strong will and high energy propelled the institution. With him, and even sometimes ahead of him, was a supporting cast of faculty, students, administrators and staff who were creative, innovative, but above all concerned with how to live and implement the university's motto: Pro Humanitate. Within these pages you will read how the transformation of Wake Forest occurred. It involved thousands of individuals and is one of the most amazing stories of institutional change ever. Each year in the process is documented with highlights on the people, decisions, and actions, that made the overall conversion possible.

“Part post-apocalypse, part road-trip, part sword-and-sorcery . . . One of my favorite adventure novels of all time.” —Cory Doctorow  
At four-thirty one Saturday afternoon the laws of physics as we know them underwent a change. Electronic devices, cars, industries stopped. The lights went out. Any technology more complicated than a lever or pulley simply wouldn't work. A new set of rules took its place—laws that could only be called magic. Ninety-nine percent of humanity has simply vanished. Cities lie abandoned. Supernatural creatures wander the silenced achievements of a halted civilization. Pete Garey has survived the Change and its ensuing chaos. He wanders the southeastern United States, scavenging, lying low. Learning. One day he makes an unexpected friend: a smartass unicorn with serious attitude. Pete names her Ariel and teaches her how to talk, how to read, and how to survive in a world in which a unicorn horn has become a highly prized commodity. When they learn that there is a price quite literally on Ariel's head, the two unlikely companions set out from Atlanta to Manhattan to confront the sorcerer who wants her horn. And so begins a haunting, epic, and surprisingly funny

journey through the remnants of a halted civilization in a desolated world.

### **Wood Harvesting with Hand Tools**

The complete spectrum of lighting management strategies for efficiency improvement is fully detailed in this straightforward, non-technical reference. Ideal for building owners and managers, facility managers, or anyone concerned with reducing lighting costs, this book cuts through the maze of technical details to provide clear, readily applicable lighting answers. The author has placed special emphasis on the importance of effective maintenance, and the benefits of a well planned and executed lighting management program. In addition, the environmental aspects of lighting management are thoroughly addressed.

In many developing countries wood harvesting with hand tools continues on a large scale. With the shift of emphasis towards trees grown by rural people rather than forestry enterprises, it will gain in importance in the years to come. This training manual provides basic information on efficient and safe equipment and methods for manual wood harvesting. At the same time, the information helps to ensure the fullest utilization of the available wood raw material. The manual updates previous ILO publications on the same subject, while taking into account progress and new developments observed in recent years. It is richly illustrated to make it easily accessible and will be ideal for forestry training and rural extension work. "This small book is a well-illustrated guide .. simple to read, the diagrams are clear and are well described in the text .. an excellent book dealing simply and in sufficient detail with a subject where current methods of operation often leave much to be desired."

### **The History of Wake Forest University**

The beloved actress and star of *One Tree Hill*, *White Collar*, and *Lethal Weapon*, Hilarie Burton Morgan, tells the story of leaving Hollywood for a radically different kind of life in upstate New York with her husband Jeffrey Dean Morgan—a celebration of community, family, and the value of hard work in small town America. While Hilarie Burton Morgan's hectic lifestyle as an actress in New York and Los Angeles gave her a comfortable life, it did not fulfill her spiritually or emotionally. After the birth of their first son, she and her husband Jeffrey Dean Morgan, the star of *The Walking Dead*, decided to make a major change: they bought a working farm in Rhinebeck, New York, and began a new chapter in their lives. *The Rural Diaries* chronicles her inspiring story of farm life: chopping wood, making dandelion wine, building chicken coops. Burton looks back at her transition from urban to country living—discovering how to manage a farm while raising her son and making friends with her new neighbors. She mixes charming stories of learning to raise alpacas and buying and revitalizing the town's beloved candy store, Samuel's Sweet Shop, with raw observations on the ups and downs of marriage and her struggles with secondary infertility. Burton also includes delicious recipes that can be made with fresh ingredients at home, as well as home renovation and gardening tips. Burton's charisma, wide eyed attitude, and fortitude—both internal and physical—propels this moving story of transformation and self-discovery. *The Rural Diaries* honors the values and lifestyle of small-town America and offers inspiration for anyone longing to embark on their own unconventional journey.

This book is devoted to the dynamic development of retailing. The focus is on various strategy concepts adopted by retailing companies and their implementation in practice. This is not a traditional textbook or collection of case studies; it aims to demonstrate the complex and manifold questions of retail management in the form of twenty lessons, where each lesson provides a thematic overview of key issues and illustrates them via a comprehensive case study. The examples are all internationally known retail companies, to facilitate an understanding of what is involved in strategic retail management and illustrate best practices. In the third edition, all chapters were revised and updated. Two new chapters were added to treat topics like corporate social responsibility as well as marketing communication. All case studies were replaced by new ones to reflect the most recent developments. Well-known retail companies from different countries, like Tesco, Zalando, Hugo Boss, Carrefour, Amazon, Otto Group, are now used to illustrate particular aspects of retail management.
