"Rob -Thanks for the great lesson. I progressed further in 30 minutes with you than I have in the last three years of trying to teach myself and by reading all the confusing information out there. Being a sports medicine expert I can also say that your method is very back friendly and biomechanically sound. Keep spreading the word." - Dr. Ron Spallone "COG is Simple, Accurate, and Easy to remember. It Straighten out the slice I had for years and dramatically improved my short game."
- Kevin Jordan - Entertainer/Comedian, The Ice House "Your instruction helped me

to set a NEW COURSE RECORD! Being 62, you can only imagine the fanfare and recognition I received by shooting only 1 shot off my age! I appreciate your tips and I use your great system every day!" - Don Forrest "Rob's COG System stabilized my golf swing instantly resulting in consistent and crisp ball striking. Not only did it help me shoot a 68 in my last competitive round, I use his system every day to help my lesson clients see results fast! Thanks Rob" - Paul Bonnefant, CPGA Golf Professional "The C.O.G. System helps me break down the game into manageable sections. I used to be so inconsistent in my approach to the game and my scorecard had a lot of doubles & even triples on my worst days. The C.O.G. complete game system had helped me remove those high scoring holes from my scorecard once and for all!" - Steve Bayner, Entertainer - Master Hypnotist "I have benefited enormously from your system. This is only my 4th year playing golf and it has been a struggle. Your long game system has me more consistent off the tee and on the fairways, and your short game system had improved my short game immensely allowing me to make shots I never thought I could! My game is steadily improving and I'm having a lot of fun on the course. Thanks Again!" - Justin Kim "Rob is an excellent, inspirational instructor and speaker, his seminars were clear, concise and always a BIG HIT with our clients, Rob fills the room & keeps them there!" - Paul Hancox - Cruise Director, Princess Cruise Lines "Rob Bernard not only has something to say, but backs it up with probably the most innovative approach to the game of golf I've witnessed in my 40 years of playing. I recommend his presentation to anyone who is looking for improvement not only in golf, but in life

as well. Rob will keep your audience enthralled!" - Steve Moris - Comedian/Musician, The Beach Boys "Rob Bernard is a talented and dynamic speaker who has created a unique golf system that he uses to motivate his listeners in an extremely fascinating, informative and entertaining manner. He makes you want to grab your clubs and hit the course with a reborn confidence and enthusiasm." - Phil Egan - Publisher, Within 2 Hours Magazine "He immediately connected with me and the audience; I couldn't believe how strong the positive feedback was." - Darryl Branstetter - Guthy-Renker Corporation To book a Live Golf Seminar series or Private or Corporate Clinics with Rob, visit the Seminar and Clinic section of the website at WWW.COGOLF.CA

Weak Points of Cars

For golf lovers who enjoy playing with words as much as playing a round, these puzzles are like a hole in one! Done in association with AARP, they're specially designed to keep players' mental game as sharp as their swing. Fans will appreciate the focus on their favorite sport--and the fascinating facts they'll learn as they search for the answers. Who was the 1997 Masters' champ? What's the

circumference of a golf ball? Who was the first woman to design a golf course? But the most important question for solvers will be: am I on par or have these questions got me in a trap! It's almost as good as a day on the course.

The End of Leaded Petrol for a Cleaner Future

International Journal of Vehicle Design

New competitive realities have ruptured industry boundaries, overthrown much of standard management practice, and rendered conventional models of strategy and growth obsolete. In their stead have come the powerful ideas and methodologies of Gary Hamel and C.K. Prahalad, whose much-revered thinking has already engendered a new language of strategy. In this book, they develop a coherent model for how today's executives can identify and accomplish no less than heroic

goals in tomorrow's marketplace. Their masterful blueprint addresses how executives can ease the tension between competing today and clearing a path toward leadership in the future.
