How Effective Is Correctional Education, and Where Do We Go from Here? The Results of a Comprehensive Evaluation

Ancient World History

This book constitutes the refereed proceedings of the 8th International Conference on User Modeling, UM 2001, held in Sonthofen, Germany in July 2001. The 19 revised full papers and 20 poster summaries presented together with summaries of 12 selected student presentations were carefully reviewed and selected from 79 submissions. The book offers topical sections on acquiring user models from multi-modal user input; learning interaction models; user models for natural language interpretation, processing, and generation; adaptive interviewing for acquiring user preferences and product customization; supporting user collaboration through adaptive agents; student modeling; and adaptive information filtering, retrieval, and browsing.

Understanding a text requires more than the ability to read individual words: it depends greatly on vocabulary knowledge. This important book brings together leading literacy scholars to synthesize cutting-edge research on vocabulary development and its connections to reading comprehension. The volume also reviews an array of approaches to assessing vocabulary knowledge and helping diverse learners build their skills. Key topics include the relationship of vocabulary acquisition to phonological awareness and to morphological processing, the role of parents in supporting early language development, and considerations in teaching English language learners and children with reading disabilities.

School Counselor Accountability

More than 2 million adults are incarcerated in U.S. prisons, and each year more than 700,000 leave federal and state prisons and return to communities. Unfortunately, within three years, 40 percent will be reincarcerated. One reason for this is that ex-offenders lack the knowledge, training, and skills to support a successful return to communities. Trying to reduce such high recidivism rates is partly why states devote resources to educating and training individuals in prison. This raises the question of how effective -- and cost-effective -- correctional education is: an even more salient question given the funding environment states face from the 2008 recession and its continuing aftermath. With funding from the Second Chance Act of 2007, the Bureau of Justice Assistance, U.S. Department of Justice, asked RAND to help answer this question as part of a comprehensive examination of the current state of correctional education for incarcerated adults and juveniles. The RAND team conducted a systematic review of correctional education programs for incarcerated adults and juveniles. This included a meta-analysis on correctional education's effects on recidivism and postrelease employment outcomes for incarcerated adults, as well as a synthesis of evidence on programs for juveniles. The study also included a nationwide survey of state correctional education directors to understand how correctional education is provided today and the recession's impact. The authors also compared the direct costs of correctional education with those of reincarceration to put the recidivism findings into a broader context.

Go Math! Standards Practice Book Level 5

Mathematical Reasoning Level B (B/W)

An innovative instructional solution that develops students' understanding of the Common Core State Standards in an interactive format while addressing the Standards for Mathematical Practice.

Geospatial Technologies and Geography Education in a Changing World

Taking the Florida Biology 1 End-of-Course Exam? Then You Need REA's Florida Biology 1 End-of-Course Test Prep with Online Practice Exams! If you're facing the Florida Biology 1 End-of-Course exam and are concerned about your score, don't worry. REA's test prep will help you sharpen your skills and pass this high-stakes exam. REA's Florida Biology 1 End-of-Course test prep provides all the up-to-date instruction and practice you need to improve your skills. The comprehensive review features easy-to-follow examples that reinforce the concepts tested on the Biology 1 End-of-Course exam. Our test prep is ideal for classroom, group, or individual study. Tutorials and targeted drills increase your comprehension. Color icons and graphics throughout the book highlight important concepts and tasks. REA's test-taking tips and strategies give you the confidence you need on test day - so you can pass the exam and graduate. The book contains two full-length practice exams that let you test your knowledge while reinforcing what you've learned. The same two practice tests are also available online at REA's Study Center. The online tests give you the additional benefits of instant scoring, timed testing conditions, and diagnostic score reports that pinpoint your strengths and weaknesses. Each practice test comes complete with detailed explanations of answers, so you can focus on areas where you need extra review. This book is a must for any Florida student preparing for the Biology 1 End-of-Course exam. About the Exam The Florida Biology I End-of-Course exam measures middle and high school student achievement of the Next Generation Sunshine State Standards. All public school students are required to pass the exam in order to receive a high school diploma.

Mathematical Reasoning Grades 2-4 Supplement

Your students will engage in their first guided practice with fresh reading selections every week! Students can directly interact with text by underlining, circling, and highlighting text to support answers with text evidence.

This title is also available packaged with the Enhanced Pearson eText. To order the Enhanced Pearson eText packaged with a bound book, use ISBN 0133388417. Long respected as the market-leading text in content area literacy, this book gives pre- and in-service teachers an ambitious, coherent, and workable exploration of content literacy to take into their classrooms to improve reading and writing for all students. Comprehensible and accessible, Content Area Reading: Literacy and Learning Across the Curriculum, 11/e shows teachers how to use literacy-related instructional strategies to help students think and learn with both print and digital

texts. The new Eleventh Edition emphasizes the comprehensive content focus of previous editions, including an ever-expanding knowledge base in the areas of literacy, cognition and learning, educational policy, new literacies and technologies, and student diversity. Chapter content has been upgraded to reflect current theory, research, and practice related to content literacy and learning in disciplines. The Enhanced Pearson eText features embedded video. Improve mastery and retention with the Enhanced Pearson eText* The Enhanced Pearson eText provides a rich, interactive learning environment designed to improve student mastery of content. The Enhanced Pearson eText is: Engaging. The new interactive, multimedia learning features were developed by the authors and other subject-matter experts to deepen and enrich the learning experience. Convenient. Enjoy instant online access from your computer or download the Pearson eText App to read on or offline on your iPad® and Android® tablet.* Affordable. The Enhanced Pearson eText may be purchased stand-alone or with a loose-leaf version of the text for 40-65% less than a print bound book. * The Enhanced eText features are only available in the Pearson eText format. They are not available in third-party eTexts or downloads. *The Pearson eText App is available on Google Play and in the App Store. It requires Android OS 3.1-4, a 7" or 10" tablet, or iPad iOS 5.0 or later.

School Counselor Accountability: A MEASURE of Student Success provides strategies for understanding, designing and implementing accountability measures as the cornerstone of a comprehensive school counseling program. This practical book provides school counselors, counselor educators, graduate students and school administrators with the knowledge and skills to use data informed practice to connect school counseling programs to school improvement. School counselors learn how to lead, advocate, and collaborate with colleagues for the ultimate goal of improving student achievement and student success in school. MEASURE is an action research model that serves as a supplemental text for school counseling and administration courses. The book shows how to design and implement accountable programs and how to measure and report results. MEASURE is a tool that school counselors can use to align their work with the accountability requirements of state and national standards such as No Child Left Behind.

Building Thinking Skills

Provides an effective tool for implementing analysis skills necessary for success in all academic disciplines.

Reading Wonders, Grade 6, Your Turn Practice Book

Mastering the basic facts for addition, subtraction, multiplication, and division is an essential goal for all students. Most educators also agree that success at higher levels of math hinges on this fundamental skill. But what's the best way to get there? Are flash cards, drills, and timed tests the answer? If so, then why do students go into the upper elementary grades (and beyond) still counting on their fingers or experiencing math anxiety? What does research say about teaching basic math facts so they will stick? In *Math Fact Fluency*, experts Jennifer Bay-Williams and Gina Kling provide the answers to these questions—and so much more. This book offers everything a teacher needs to teach, assess, and communicate with parents about basic math fact instruction, including The five fundamentals of fact fluency, which provide a research-based framework for effective instruction in the basic facts. Strategies students can use to find facts that are not yet committed to memory. More than 40 easy-to-make, easy-to-use games that provide engaging fact practice. More than 20 assessment tools that provide useful data on fact fluency and mastery. Suggestions and strategies for collaborating with families to help their children master the basic math facts. *Math Fact Fluency* is an indispensable guide for any educator who needs to teach basic facts. This approach to facts instruction, grounded in years of research, will transform students' learning of basic facts and help them become more confident, adept, and successful at math.

College Level Academic Skills Test (CLAST)

A module to help students to understand the key concepts of the scientific method. By experiencing the process of scientific inquiry, students come to recognize the role of science in society.

Math Olympiad Contest Problems for Elementary and Middle Schools

Word Roots Level 3

After conducting a comprehensive literature search, the authors undertook a meta-analysis to examine the association between correctional education and reductions in recidivism, improvements in employment after release from prison, and other outcomes. The study finds that receiving correctional education while incarcerated reduces inmates' risk of recidivating and may improve their odds of obtaining employment after release from prison.

This book is an initiative presented by the Commission on Geographical Education of the International Geographical Union. It focuses particularly on what has been learned from geospatial projects and research from the past decades of implementing geospatial technologies (GST) in formal and informal education. The objective of this publication is to inform an international audience of teachers, professionals, scholars, and policymakers about the state of the art and prospects of geospatial practices (GPs) as organized activities that use GST and lessons learned in relation to geographical education. GST make up an advanced body of knowledge developed by practitioners of geographic information systems (GIS), remote sensing (RS), global positioning systems, (GPS), and digital cartography (DC). GST have long been applied in many different sectors; however, their first use in higher education began in the early 1980s and then diffused to secondary schools during the 1990s. Starting with GIS and RS, it evolved into a much broader context, as GST expanded to include GPS and DC with new communication technologies and Internet applications. GST have been used around the world as a combination of tools and special techniques to make research, teaching, and learning more effective.
