Their new client is a criminal defense attorney, retained by a close childhood friend of his, murder suspect Lee Hund. The murder victim, Curt Hund, the suspect's brother, was found shot to death in his bed after the last of the guests left a reunion party at his home on the west side of Las Vegas. The two brothers were business partners, owners and managers of cheap motels in South Dakota, and one on the fringe of downtown Las Vegas, the Wagon Wheel Motel. Together the brothers organized and hosted the Hund extended family reunion, taking place over the Labor Day weekend in Las Vegas. Once Upon a Darker Time

Jeffery Adams wakes up alone in a small white room, no memories, no recollections of his past. The only clue that suggests a past he shouldn't want to remember is a long red scar running down the left side of his face. When a bald man with a bulging head and a girl Jeffery's age enter the room, they inform him that he's been brought to Hero Central, an artificial cloud housing many individuals with super-human powers. They suspect that he may possess unique abilities that enable him to train at the school there: The Institute for Super-Human Education. He soon discovers the forgotten alias "Darkblade" and learns that he can control the physical manifestation of fear, a substance known as Dark Matter. However, as he soon finds out, things are not as great as they seem. Nightmares of a living shadow plague Jeffery when he sleeps. A curious student from the "evil" Pravus Track at the Institute shows an unusual interest in Jeffery and an extremely intelligent scientist named Brainiac would like nothing more than to throw him off the cloud. As memories of a not-so-perfect past begin to resurface, Jeffery grows more and more suspicious of the leadership on Hero Central and even of his two "friends" Shooting Star and Zap. His suspicions draw him closer and closer to the metropolis of Union City, but what awaits him there may be even worse than the goings-on at Hero Central. In his debut novel, author Lawrence Silveira demonstrates the gray areas in the battle between good and evil. And of course, things may not always turn out as expected.

A compass is a very helpful tool-as long as its wielder knows the direction he wants to go. This wasn't often the case in the sixties in America, when many felt directionless, with an unpopular war that had the country's moral compass spinning. "Hope Points North" is a coming-of-age experience that takes place on Long Island during this turbulent period. Of the three boys, Chris McKellar is the conventional one of the group-the glue that binds the troubled Teddy and smart, introverted Charlie together. The story is Chris's adult recollection of the time when he, Teddy, and Charlie decide to travel on their own to Grumman Aerospace Company, the builders of the Lunar Excursion Model-the craft that will eventually deliver man to the moon. Just as the boys embark on their journey, the dark-hearted preacher Lovejoy ambushes them. Teddy's grandpa has amassed a secret fortune, but it's no secret to Lovejoy, who is seducing Teddy's mother and will do anything to get the money. But the boys resist the preacher's attack in a way that leaves him dead in the creek or so they think. In shock, they follow their compass, toward the fraternity of hopes, dreams and, unsuspectingly, manhood.
