The SAAB 29, called Flygande Tunnan (English: "The flying barrel") was a Swedish fighter designed and manufactured by SAAB in the 1940s. It was Sweden's second turbojet-powered combat aircraft, the first being the SAAB 21R; additionally, it was the first Western European fighter to be produced with swept wing after the war, the Me 262 being the first during WWII. Despite its rotund appearance, from which its name derives, the SAAB 29 was a fast and agile aircraft for its era. It served effectively in both fighter and fighter-bomber roles into the 1970s. This book is the most comprehensive on the Tunnan yet published, with numerous photographs of the aircraft in service, several of which have never been published before, walkaround photographs of the preserved aircraft, illustrations from contemporary manuals, and color artwork."

A cultural history of the Volkswagen Beetle as told through historical photographs, many never before published in the U.S. From the birth of the Beetle in wartime Germany through the development of the New Beetle prototype, Volkswagen Beetle: Portrait of a Legend celebrates a lighthearted, unusual view of the most successful automobile in history. This book is not a "how to identify your Beetle" book, nor is it a year-by-year charting of model changes. Rather, through other people's experiences of the car, it allows readers to recall their own fond memories of what it was really like to own a Beetle in its heyday.
