The Final Examination Guide to Bankruptcy

Higher Geography: Environmental Interactions provides full coverage of the most popular options in Paper 2 of the most recent Higher Geography syllabus offered by the Scottish Qualifications Authority. Now in full colour throughout, it contains a fully revised text of its immediate predecessor (Higher Geography Applications), as well as the complete replacement of Scarp and Vale material with a new section on Coasts. Each topic - Rural Land Resources, Rural Land Degradation, Urban Change & its Management, and Development & Health - contains up-to-date case studies, with a particular emphasis on Scottish contexts whenever appropriate. In addition to thorough introductions, explorations and summaries of each topic (including glossaries of key terms and concepts), a final section offers study tips, hints and exam-style questions to assist in examination preparation.

Geography for Common Entrance 13+ Exam Practice Questions

There are many books about teaching in Geography, but this is the first dealing specifically with Pedagogic Research, its methods and practices. Pedagogy research concerns the processes of learning and the development of learners. It is a learner-centred activity that aims to evaluate and improve the ways that students learn and learn to manage, control and comprehend their own learning processes, first as Geographers in Higher Education but equally as future educated citizens. This book collects together some key research papers from the Journal of Geography in Higher Education. They concern original research and critical perspectives on how Geographers learn, critical evaluations of both new and traditional frameworks and methods used for Pedagogic research in Geography, and some case studies on the promotion of self-authorship, learner autonomy, in key Geography Higher Education contexts such as fieldwork and undergraduate project work. This book is a compilation of articles from various issues of the Journal of Geography in Higher Education.
