In New York Times and USA Today bestselling author Jay Crownover's third novel in her sexy, thrilling Welcome to the Point series, a woman's search for repentance leads her to the one man from her past she can't forget as they join forces to save their city—and the explosive love neither can live without. Titus King sees the world in black and white. Right and wrong. Which is why as a teenager he left behind the only family he'd ever known to make a better life for himself. Now a police detective in one of the worst cities in the country, he can't deny his life has turned into a million different shades of gray. The new criminal element in The Point has brought vengeance and destruction right to Titus's front door, and the difference between right and wrong is nothing compared to keeping those he loves alive. To add to his already strained moral compass, the beautiful and mysterious Reeve Black has made her way back to town, and she might be as dangerous to Titus as the guy trying to destroy the Point because he needs her—in more ways than one. Reeve knows all about how ruthless this new threat to destroy The Point can be... and instead of running away, she wants to help. She has a lot to repent for and saving the city, plus the hot cop that she hasn't been able to forget might just be the only way she can finally find some inner peace. With an entire city poised on the brink of war, Titus and Reeve stand in the crossfire—and it will take two brave souls to fight for the ultimate love.

The Lion, the Lamb, the Hunted

The essays in this interdisciplinary volume explore language, broadly construed, as part of the continued interrogation of the boundaries of human and nonhuman animals in the Middle Ages. Uniting a diverse set of emerging and established scholars, Animal Languages questions the assumed medieval distinction between humans and other animals. The chapters point to the wealth of non-human communicative and discursive forms through which animals function both as vehicles for human meaning and as agents of their own, demonstrating the significance of human and non-human interaction in medieval texts, particularly for engaging with the Other. The book ultimately considers the ramifications of deconstructing the medieval anthropocentric view of language for the broader question of human singularity.

The Chidester-Chichester Heritage

A smart, powerful, charismatic preacher brought back to life On October 15, 1974, Johnny Carson welcomed his next guest on *The Tonight Show* with these words: "I imagine there are very few people who are not aware of Kathryn Kuhlman. She probably, along with Billy Graham, is one of the best-known ministers or preachers in the country." But while many people today recognize Billy Graham, not many remember Kathryn Kuhlman (1907–1976), who preached faith and miracles to countless people over the fifty-five years of her ministry and became one of the most important figures in the rise of charismatic Christianity. In *The Miracle Lady* Amy Collier Artman tells the story of Kuhlman's life and, in the process, relates the larger story of charismatic Christianity, particularly how it moved from the fringes of American society to the mainstream. Tracing her remarkable career as a media-savvy preacher and fleshing out her unconventional character, Artman also shows how Kuhlman skillfully navigated the oppressive structures, rules, and landmines that surrounded female religious leaders in her conservative circles.

The prosecutor refuses to make a deal, and the court rebuffs Stacy's efforts to force Scott to tell her—or even the authorities—who his client is, holding that it's privileged information. Since the court won't do anything to help Stacy track down her son's killer, she takes matters into her own hands. And she's determined to make Scott talk—at any cost... When Stacy's stalking of Scott's young daughter escalates into a kidnapping, Scott makes the only reasonable choice a parent can—cooperate and give up the client. Gingerbread Man

The novel 'Crimes of a Guilty Land' follows the Hart and Beauchamp families through some turbulent years of the nineteenth century. It opens in the summer of 1825 when young Roger Hart, while enjoying his first visit to the beach in Rhode Island, witnesses a tragedy. The events of that day will haunt him for the rest of his life. Many years later, just prior to the Civil War, Roger Hart becomes involved in a risky undertaking to begin to teach the children of slave families in Virginia. That experience leads him to Harpers Ferry and the disastrous John Brown raid on the US Armory in 1859. There he meets the Beauchamp family who became involved in the John Brown affair with tragic results. The Hart and Beauchamp families find themselves bound together with romance and violence as the Civil War devastates the town of Harpers Ferry and as family members find themselves caught up in the Petersbug Battle of the Crater. Both of the families also become involved with a freed slave family that includes a young boy named Brownie. Ten years after the war, Roger finds himself describing all of those events to a curious Brownie. Brownie is anxious to hear his family's story while Hart is determined to pass on to the boy a sense of goodness and a respect for tolerance along with the need for an education. Hart succeeds, and Brownie grows to become a highly regarded teacher. The reader first meets Brownie as he looks back on his life. It is 1941 and America is at war again. But for Brownie, now a retired teacher in West Virginia, an old struggle is still being waged in this country as he witnesses the continued indignity and cruelty of segregation. A moment of violence causes him to reflect on his own life experience and he is drawn to write down his remembrances of his family's involvement in the struggles during the final years of slavery, the John Brown raid at Harpers Ferry, and then the Civil War and its aftermath. He reflects on how his family has experienced drama and tragedy as well as romance and humor during encounters with intolerance - including racial, religious and economic. Brownie recalls the last words of John Brown as he went to the executioner's gallows. Brown wrote on a slip of paper that "...the crimes of this guilty land will never be purged away but with blood." But after so much blood shed over so many years, Brownie is led to question how much progress has been made during his life time, and then on what a seventy five year old man might be

able to contribute to changing things.

Python programmers will improve their computer science skills with these useful one-liners. Python One-Liners will teach you how to read and write "one-liners": concise statements of useful functionality packed into a single line of code. You'll learn how to systematically unpack and understand any line of Python code, and write eloquent, powerfully compressed Python like an expert. The book's five chapters cover tips and tricks, regular expressions, machine learning, core data science topics, and useful algorithms. Detailed explanations of one-liners introduce key computer science concepts and boost your coding and analytical skills. You'll learn about advanced Python features such as list comprehension, slicing, lambda functions, regular expressions, map and reduce functions, and slice assignments. You'll also learn how to:

- Leverage data structures to solve real-world problems, like using Boolean indexing to find cities with above-average pollution
- Use NumPy basics such as array, shape, axis, type, broadcasting, advanced indexing, slicing, sorting, searching, aggregating, and statistics
- Calculate basic statistics of multidimensional data arrays and the K-Means algorithms for unsupervised learning
- Create more advanced regular expressions using grouping and named groups, negative lookaheads, escaped characters, whitespaces, character sets (and negative character sets), and greedy/nongreedy operators
- Understand a wide range of computer science topics, including anagrams, palindromes, supersets, permutations, factorials, prime numbers, Fibonacci numbers, obfuscation, searching, and algorithmic sorting

By the end of the book, you'll know how to write Python at its most refined, and create concise, beautiful pieces of

"Python art" in merely a single line.

Ghost Hand

The second book in the Everflame series. The saga continues as Evercloud and the Messenger continue to fight for their version of truth never knowing what they might find in the world around them, or what they might find within themselves. Twists and turns bend what each character knows of good and evil and raises questions of the true nature of us all.

The Waldenses

This book examines the central significance of sexualized female corpses in modern and contemporary Hispanic and Anglophone crime fiction. Beginning with the foundational detective fictions of the nineteenth century, it draws from diverse subgenres to describe a transatlantic tradition of necropornography characterized by lascivious interest in female cadavers, dissection, morgues, femicide, and snuff movies. Hard-boiled and police procedural classics from the U.S. and the U.K. are juxtaposed with texts by established Spanish and Spanish American genre masters and with obscure works that prefigure the contemporary transmedial boom in corpse-centered fictions. The rhetoric and aesthetics of necropornographic crime fiction are related to those of popular crime journalism and forensic-science television dramas. This study argues that crime fiction has long fixated disproportionately on the corpses of beautiful young white women and continues to treat their deaths and autopsies as occasions for male visual pleasure, male subjective self-affirmation and male homosocial bonding.

Then, when a mysterious email asks Seckry to break into the headquarters of the Endrin Corporation and steal a container full of worms for a hefty sum of money, his anger resurfaces, and he can't resist the revenge he promised himself. Alone at night, Seckry creeps through the sewers whilst wondering what experiments Endrin might be doing on the worms, and emerges into the silent complex.
