The History of the Russian Revolution Vol-III

“The pamphlet... outlined a broad plan of organisation in which everyone would find a place for himself, become a cog in the revolutionary machine, a cog, which, no matter how small, was vital to the working of the machine. The pamphlet urged the necessity of intensive and tireless efforts to build the foundation that had to be built if the Party was to exist in deeds and not in words...” (Nadezhda Krupskaya, Reminiscences of Lenin.) First published in early 1902, *What Is to Be Done?* remains a classic of Marxism on the building of the revolutionary party, which sets out the party’s role as the organiser and director of the revolution. The pamphlet was written as part of a conflict with the opportunism of the Economists, who emphasised ‘bread and butter issues’ rather than theory. Lenin uses the book to explain the necessity of creating a centralised group of professional and dedicated revolutionary cadres before the “times of explosion and outbursts.” The history of the past 100 years has proven Lenin right: time and again, the masses have been ready to struggle, but let down by their leadership. Today, many working-class people are beginning to reject the status quo and are looking to socialist ideas as an alternative. It is the duty of Marxists to build an organisation capable of offering a way forward, and *What is to Be Done?* represents an excellent guide as to how to do this. With a new introduction by Rob Sewell.

Sexual Revolution in Bolshevik Russia

Russian intellectual discourse on the French Revolution as a representation of the West rather than a symbol of revolution.

Civil War

In this second edition, Rex Wade presents a new account of the 1917 Russian Revolution.

Under Western Eyes

Literature and Language Arts

" will challenge (and should transform) existing interpretations of late Imperial Russian governance, peasant studies, and Russian legal history." -- Cathy A. Frierson " a major contribution to our understanding both of the dynamic of change within the peasantry and of legal development in late Imperial Russia." -- William G. Wagner Russian Peasants Go to Court brings into focus the legal practice of Russian peasants in the township courts of the Russian empire from 1905 through 1917. Contrary to prevailing conceptions of peasants as backward, drunken, and ignorant, and as mistrustful of the state, Jane Burbank's study of court records reveals engaged rural citizens who valued order in their communities and made use of state courts to seek justice and to enforce and protect order. Through narrative studies of individual cases and statistical analysis of a large body of court records, Burbank demonstrates that Russian peasants made effective use of legal opportunities to settle disputes over economic resources, to assert personal dignity, and to address the bane of small crimes in their communities. The text is enhanced by contemporary photographs and lively accounts of individual court cases.

Animal Farm

"History of Russia in 100 Minutes" is a crash course for beginners. Here you will find the complete history summarized and retold in simple language with accurate dates, the most relevant names and essential concepts. After finishing the course,

you will know: - The basic characteristics of Russian history in different epochs - The 54 most important rulers and 106 historical persons in Russian history - 126 key dates and events in Russian history - The basic terms and concepts of Russian history The text is accompanied by numerous online resources: - 20,000 pictures - 700 videos - 3,500 songs - 100 podcast episodes All that is available via the smarthistories.com website.

The Russian Revolution

States and Social Revolutions

“During the first two months of 1917 Russia was still a Romanov monarchy. Eight months later the Bolsheviks stood at the helm. They were little known to anybody when the year began, and their leaders were still under indictment for state treason when they came to power. You will not find another such sharp turn in history especially if you remember that it involves a nation of 150 million people. It is clear that the events of 1917, whatever you think of them, deserve study.” --Leon Trotsky, from *History of the Russian Revolution* Regarded by many as among the most powerful works of history ever written, this book offers an unparalleled account of one of the most pivotal and hotly debated events in world history. This book reveals, from the perspective of one of its central actors, the Russian Revolution’s profoundly democratic, emancipatory character. Originally published in three parts, Trotsky’s masterpiece is collected here in a single volume. It serves as the most vital and inspiring record of the Russian Revolution to date. “[T]he greatest history of an event that I know.” --C. L. R. James “In Trotsky all passions were aroused, but his thought remained calm and his vision clear. His involvement in the struggle, far from blurring his sight, sharpens it. The History is his crowning work, both in scale and power and as the fullest expression of his ideas on revolution. As an account of a revolution, given by one of its chief actors, it stands unique in world literature.” --Isaac Deutscher

Revolution in Russia! As Reported by the New York Tribune and the New York Herald, 1894-1921

Putin's bestselling biographer reveals how, in the space of a generation, Russia surrendered to a more virulent and invincible new strain of autocracy.

The Future is History

State structures, international forces, and class relations: Theda Skocpol shows how all three combine to explain the origins and accomplishments of social-revolutionary transformations. Social revolutions have been rare but undeniably of enormous importance in modern world history. States and Social Revolutions

provides a new frame of reference for analyzing the causes, the conflicts, and the outcomes of such revolutions. It develops a rigorous, comparative historical analysis of three major cases: the French Revolution of 1787 through the early 1800s, the Russian Revolution of 1917 through the 1930s, and the Chinese Revolution of 1911 through the 1960s. Believing that existing theories of revolution, both Marxist and non-Marxist, are inadequate to explain the actual historical patterns of revolutions, Skocpol urges us to adopt fresh perspectives. Above all, she maintains that states conceived as administrative and coercive organizations potentially autonomous from class controls and interests must be made central to explanations of revolutions.

World History: Connections to Today 4th Edition Guided Reading and Review, English Student Edition 2003c

Mr. Pipes writes trenchantly, and at times superbly. No single volume known to me even begins to cater so adequately to those who want to discover what really happened to Russia. Nor do I know any other book better designed to help Soviet citizens to struggle out of the darkness." -- Ronald Hingley, The New York Times Book Review Ground-breaking in its inclusiveness, enthralling in its narrative of a movement whose purpose, in the words of Leon Trotsky, was "to overthrow the world," The Russian Revolution draws conclusions that have already aroused great controversy in this country--and that are certain to be explosive when the book is published in the Soviet Union. Richard Pipes argues convincingly that the Russian Revolution was an intellectual, rather than a class, uprising; that it was steeped in terror from its very outset; and that it was not a revolution at all but a coup d'etat -- "the capture of governmental power by a small minority." From the Trade Paperback edition.

World History Modern Era

Bukharin and the Bolshevik Revolution

Chronicles the history of the Russian Empire from the Mongol Invasion, through the Bolshevik Revolution, to the aftereffects of the Cold War.

The Russian Revolution

"This book is a slice of intensified history—history as I saw it." So begins John Reed's first-hand account of the Bolshevik Revolution of 1917. Much anticipated when it was published in 1919, Reed's narrative remains as riveting today as when the events he describes were still reverberating throughout the world. Reed was hardly a disinterested observer, and his involvement in the Communist labor movement lends urgency and passion to his classic account. He vividly describes events in Petrograd in November 1917, when Vladimir Lenin and the Bolsheviks stormed the Winter Palace and seized the reins of power. Despite Reed's personal leanings, which he made no attempt to hide, the book garnered praise from luminaries across the political spectrum. George F. Kennan, the American diplomat, and father of the policy of Soviet containment, said that "Reed's account of the events of that time rises above every other contemporary record for its literary power, its penetration, its command of detail. It will be remembered when all others are forgotten." Reed was committed to telling the story of the Russian revolution as truthfully as possible. That the book was banned by Russian premier Josef Stalin is a testament to the author's success in carrying out his mission. One hundred years after Russia and the world trembled, *Ten Days that Shook the World* brings alive the momentous events of 1917.

The Russian Revolution and Bolshevik Victory, why and How?

Political turmoil convulses 19th-century Russia as an assassination, government intrigue, and betrayal force a young student to come to terms with accountability and human integrity. /div

The Russian Revolution, 1917

The October Revolution

This classic biography carefully traces Bukharin's rise to and fall from power, focusing particularly on the development of his theories and programmatic ideas during the critical period between Lenin's death in 1924 and the ascendancy of Stalin in 1929.

World History: Connections to Today

George Orwell (born Eric Arthur Blair), was one of the most prolific English authors of the 20th century. *Animal Farm* is one of his most celebrated works.

Gallant Goals

This gripping historical narrative relates the circumstances that led to the end of the Romanov Dynasty and the Russian aristocracy, the heartrending struggles of the peasants, the violence and bloodshed of the revolution, and the rise of the new social order and its far-reaching consequences that continue to be felt in Russia today. In addition to the causes of the Russian revolution and the events that led to civil war, the narrative delves into the mindset of the Bolshevik leadership and recounts the profound transformation and industrialization of the economy in the Soviet era.

The French Revolution in Russian Intellectual Life

A comprehensive literary and social history of sexual attitudes and mores in the Soviet Union during the 1920s, that reveals the complex and often contradictory impulses and ideas that permeated the culture.

Eyewitness to History

" a fascinating read for everyone interested in Russia, religion, and modernity." -- Nadieszda Kizenko
In the early 20th century, Baptists were the fastest-growing non-Orthodox religious group among Russians and Ukrainians. Heather J. Coleman traces the development of Baptist evangelical communities through a period of rapid industrialization, war, and revolution, when Russians found themselves

asking new questions about religion and its place in modern life. Baptists' faith helped them navigate the problems of dissent, of order and disorder, of modernization and westernization, and of national and social identity in their changing society. Making use of newly available archival material, this important book reveals the ways in which the Baptists' own experiences, and the widespread discussions that they generated, illuminate the emergence of new social and personal identities in late Imperial and early Soviet Russia, the creation of a public sphere and a civic culture, and the role of religious ideas in the modernization process.

History of the Russian Revolution

Go on a geographical tour around the world! Explore the world while solving the riddle using informational clues about each country. Students study 30 countries, grouped by continent, using maps, charts, graphs, puzzles, and hands-on activities. A skills test, glossary of geographical terms, and an answer key are included.

The Painter and Decorator

In July 1917, when the Provisional Government issued a warrant for his arrest, Lenin fled from Petrograd; later that year, the October Revolution swept him to supreme power. In the short intervening period he spent in Finland, he wrote his impassioned, never-completed masterwork *The State and Revolution*. This powerfully argued book offers both the rationale for the new regime and a wealth of insights into Leninist politics. It was here that Lenin justified his personal interpretation of Marxism, savaged his opponents and set out his trenchant views on class conflict, the lessons of earlier revolutions, the dismantling of the bourgeois state and the replacement of capitalism by the dictatorship of the proletariat. As both historical document and political statement, its importance can hardly be exaggerated. Translated and edited with an introduction by Robert Service

History of Russia in 100 Minutes

A controversial retelling of the events in the early part of the Russian Revolution and of Lenin's part in shaping the course of the future.

Year Book

Russia and the Russians

(Middle School) This middle grades geography and cultures program puts the world at your fingertips in a single convenient text - ideal for curriculum that covers the whole world in one school year.
