### Taxpertime

A practical guide to philanthropy at all levels of giving that seeks to educate and inspire A majority of American households give to charity in some form or another--from local donations to food banks, religious organizations, or schools, to contributions to prevent disease or protect basic freedoms. Whether you're in a position to give \$1 or \$1 million, every giver needs to answer the same question: How do I channel my giving effectively to make the greatest difference? In Giving Done Right, Phil Buchanan, the president of the Center for Effective Philanthropy, arms donors with what it takes to do more good more quickly and to avoid predictable errors that lead too many astray. This crucial book will reveal the secrets and lessons learned from some of the biggest givers, busting commonly held myths and challenging the idea that "business thinking" holds the answer to effective philanthropy. And it offers the intellectual frameworks, data-driven insights, tools, and practical examples to allow readers to understand exactly what it takes to make a difference.

### Our Better Angels

A practical approach to affording your kids from cradle to college. Bringing home your bouncing baby boy or girl should be an exciting time of celebration--not cause for worry about how you're going to pay for feeding, clothing, and caring for your new bundle of expenses. The average family will spend between \$11,000 and \$16,000 during a new baby's first year, and more than \$200,000 before a kid's eighteenth birthday. Unfortunately, a second child only doubles your costs, with little economy of scale for each additional baby. Before you start using these statistics as birth control, take a deep breath and know that you can have a family and make a comfortable future for your children while saving for your own important goals. The Wall Street Journal Financial Guidebook for New Parents shows you the way, with information on how to:

- Safeguard your child's well-being with wills, trusts, and life insurance
- Best weigh your child-care options and decide whether to go back to work
- Save on taxes with child-friendly tax credits

and deductions plus tax-advantaged benefits at work • Manage your family's health-care costs • Save for long-term costs by setting up a college fund • Spend smart and save money at every stage of your child's development • Continue to contribute to your own retirement savings From maternity (and paternity) leave to flexible spending accounts to 529 college plans, *The Wall Street Journal Financial Guidebook for New Parents* provides all the information you need to meet your child's expenses while also protecting your family's financial security.

### **The Newberry Library**

A practical guide to generating less waste, featuring meaningful and achievable strategies from the blogger behind *The Green Garbage Project*, a yearlong experiment in living garbage-free. Trash is a big, dirty problem. The average American tosses out nearly 2,000 pounds of garbage every year that piles up in landfills and threatens our air and water quality. You do your part to reduce, reuse, and recycle, but is it enough? In *The Zero-Waste Lifestyle*, Amy Korst shows you how to lead a healthier, happier, and more sustainable life by generating less garbage. Drawing from lessons she learned during a yearlong experiment in zero-waste living, Amy outlines hundreds of easy ideas—from the simple to the radical—for consuming and throwing away less, with low-impact tips on the best ways to:

- Buy eggs from a local farm instead of the grocery store
- Start a worm bin for composting
- Grow your own loofah sponges and mix up eco-friendly cleaning solutions
- Purchase gently used items and donate them when you're finished
- Shop the bulk aisle and keep reusable bags in your purse or car
- Bring your own containers for take-out or restaurant leftovers

By eliminating unnecessary items in every aspect of your life, these meaningful and achievable strategies will help you save time and money, support local businesses, decrease litter, reduce your toxic exposure, eat well, become more self-sufficient, and preserve the planet for future generations.

### **Now, That's a Good Question!**

"Revelatory, terrifying, but, ultimately, hopeful." -Elizabeth Kolbert, Pulitzer Prize-winning author of *THE SIXTH EXTINCTION* From the author of *Junkyard Planet*, a journey into the surprising afterlives of our former possessions. Downsizing. Decluttering. Discarding. Sooner or later, all of us are faced with things we no longer need or want. But when we drop our old clothes and other items off at a local donation center, where do they go? Sometimes across the country-or even halfway across the world-to people and places who find value in what we leave behind. In *Secondhand*, journalist Adam Minter takes us on an unexpected adventure into the often-hidden, multibillion-dollar industry of reuse: thrift stores in the American Southwest to vintage shops in Tokyo, flea markets in Southeast Asia to used-goods enterprises in Ghana, and more. Along the way, Minter meets the fascinating people who handle-and profit from-our rising tide of discarded stuff, and asks a pressing question: In a world that craves shiny and new, is there room for it all? *Secondhand* offers hopeful answers and hard truths. A history of the stuff we've used and a contemplation of why we keep buying more, it also reveals the marketing practices, design failures, and racial prejudices that push used items into landfills instead of new homes. *Secondhand* shows us that it doesn't have to be this way, and what really needs to change to build a sustainable future free of

excess stuff.

### **The Major's Daughter (The Fort Reno Series Book #3)**

A new, updated and expanded edition of this New York Times bestseller on how to reconstruct your life so it's not all about work Forget the old concept of retirement and the rest of the deferred-life plan - there is no need to wait and every reason not to, especially in unpredictable economic times. Whether your dream is escaping the rat race, experiencing high-end world travel, earning a monthly five-figure income with zero management, or just living more and working less, this book is the blueprint. This step-by step guide to luxury lifestyle design teaches: \* How Tim went from \$40,000 dollars per year and 80 hours per week to \$40,000 per MONTH and 4 hours per week \* How to outsource your life to overseas virtual assistants for \$5 per hour and do whatever you want \* How blue-chip escape artists travel the world without quitting their jobs \* How to eliminate 50% of your work in 48 hours using the principles of a forgotten Italian economist \* How to trade a long-haul career for short work bursts and frequent 'mini-retirements'. This new updated and expanded edition includes: More than 50 practical tips and case studies from readers (including families) who have doubled their income, overcome common sticking points, and reinvented themselves using the original book as a starting point \* Real-world templates you can copy for eliminating email, negotiating with bosses and clients, or getting a private chef for less than £5 a meal \* How lifestyle design principles can be suited to unpredictable economic times \* The latest tools and tricks, as well as high-tech shortcuts, for living like a diplomat or millionaire without being either.

### **The Almanac of American Philanthropy**

Don't Settle for More Most of us know we own too much stuff. We feel the weight and burden of our clutter, and we tire of cleaning and managing and organizing. While excess consumption leads to bigger houses, faster cars, fancier technology, and cluttered homes, it never brings happiness. Rather, it results in a desire for

more. It redirects our greatest passions to things that can never fulfill. And it distracts us from the very life we wish we were living. Live a better life with less. In *The More of Less*, Joshua Becker helps you

- Recognize the life-giving benefits of owning less
- Realize how all the stuff you own is keeping you from pursuing your dreams
- Craft a personal, practical approach to decluttering your home and life
- Experience the joys of generosity
- Learn why the best part of minimalism isn't a clean house, it's a full life

The beauty of minimalism isn't in what it takes away. It's in what it gives. *Make Room in Your Life for What You Really Want* "Maybe you don't need to own all this stuff." After a casual conversation with his neighbor on Memorial Day 2008, Joshua Becker realized he needed a change. He was spending far too much time organizing possessions, cleaning up messes, and looking for more to buy. So Joshua and his wife decided to remove the nonessential possessions from their home and life. Eventually, they sold, donated, or discarded over 60 percent of what they owned. In exchange, they found a life of more freedom, more contentment, more generosity, and more opportunity to pursue the things that mattered most. *The More of Less* delivers an empowering plan for living more by owning less. With practical suggestions and encouragement to personalize your own minimalist style, Joshua Becker shows you why minimizing possessions is the best way to maximize life. Are you ready for less cleaning, less anxiety, and less stress in your life? Simplicity isn't as complicated as you think.

### **The Truth About Paying Fewer Taxes**

A popular minimalist blogger and author of *The More of Less* shows you how to methodically turn your home into a place of peace, contentment, and purposeful living. One of today's most influential minimalist advocates takes us on a decluttering tour of our own houses and apartments, showing us how to decide what to get rid of and what to keep. He both offers practical guidelines for simplifying our lifestyle at home and addresses underlying issues that contribute to over-accumulation in the first place. The purpose is not just to create a more inviting living space. It's also to turn our life's HQ--our home--into a launching pad for a more fulfilling and productive life in the world.

### **Quickie Goes to the Big Game**

Philanthropy in America is a giant undertaking—every year more than \$390 billion is voluntarily given by individuals, foundations, and businesses to a riot of good causes. Donation rates are two to ten times higher in the U.S. than in comparable nations, and privately funded efforts to solve social problems, enrich culture, and strengthen society are among the most significant undertakings in the United States. *The Almanac of American Philanthropy* was created to serve as the definitive reference on America's distinctive philanthropy. Upon its publication it immediately became the authoritative, yet highly readable, 1,342-page bible of private giving—chronicling the greatest donors in history, the most influential achievements, the essential statistics, and summaries of vital ideas about charitable action. Now there is this new Compact Edition of the Almanac. It offers

highlights of the crucial information and fascinating arguments contained in the full-length Almanac, in a condensed format. All updated to 2017!

Sam is so excited about Christmas! He's thinking about his Christmas list and puzzling over a mysterious gift—a sparkly box sitting on the mantel. As Sam and his family participate in holiday activities, they bless others with gifts from the heart: they give mittens to a homeless man, support a clean water charity, and donate blankets. When Sam finally opens the Sparkle Box on Christmas morning, he finds slips of paper that say things like “mittens for those in need.” His smiling parents explain that the papers in the box represent the family's gifts to Jesus that year. Now in paperback, this heartfelt story will inspire readers to adopt this faith-centered tradition in their own homes, using the included Sparkle Box.

### **The Sparkle Box**

Now That's a Good Question! answers more than 300 challenging questions about life and faith. The keys to global business success, as taught by a T-shirt's journey *The Travels of a T-Shirt in the Global Economy* is a critically-acclaimed narrative that illuminates the globalization debates and reveals the key factors to success in global business. Tracing a T-shirt's life story from a Texas cotton field to a Chinese factory and back to a U.S. storefront before arriving at the used clothing market in Africa, the book uncovers the political and economic forces at work in the global economy. Along the way, this fascinating exploration addresses a wealth of compelling questions about politics, trade, economics, ethics, and the impact of history on today's business landscape. This new printing of the second edition includes a revised preface and a new epilogue with updates through 2014 on the people, industries, and policies related to the T-shirt's life story. Using a simple, everyday T-shirt as a lens through which to explore the business, economic, moral, and political complexities of globalization in a historical context, *Travels* encapsulates a number of complex issues into a single identifiable object that will strike a chord with readers as they:

- Investigate the sources of sustained competitive advantage in different industries
- Examine the global economic and political forces that explain trade patterns between countries
- Analyze complex moral issues related to globalization and international business
- Discover the importance of cultural and human elements in international trade

This story of a simple product illuminates the many complex issues which businesspeople, policymakers, and global citizens are touched by every day.

### **Real Impact**

**\*\*Now on Netflix as The Call to Courage\*\*** Every time we are introduced to someone new, try to be creative, or start a difficult conversation, we take a risk. We feel uncertain and exposed. We feel vulnerable. Most of us try to fight those feelings - we strive to appear perfect. In a powerful new vision Dr Brené Brown challenges everything we think we know about vulnerability, and dispels the widely accepted myth that it's a weakness. She argues that, in truth, vulnerability is strength and when we shut ourselves off from vulnerability - from revealing our true selves - we distance ourselves from the experiences that bring purpose and meaning to our lives. *Daring Greatly* is the culmination of 12 years of groundbreaking social research, across every area of our lives including home, relationships, work, and parenting. It is an invitation to be courageous; to show up and let ourselves be seen, even when there are no guarantees. This is vulnerability. This is daring greatly.

Inspiring and insightful, *Our Better Angels: Seven Simple Virtues That Will Change Your Life and the World* celebrates the shared principles that unite and enable us to overcome life's challenges together. "When the waters rise, so do our better angels."—President Jimmy Carter Jonathan Reckford, the CEO of Habitat for Humanity, has seen time and again the powerful benefits that arise when people from all walks of life work together to help one another. In this uplifting book, he shares true stories of people involved with Habitat as volunteers and future homeowners who embody seven timeless virtues—kindness, community, empowerment, joy, respect, generosity, and service—and shows how we can all practice these to improve the quality of our own lives as well as those around us. A Vietnam veteran finds peace where he was once engaged in war. An impoverished single mother offers her family's time and energy to enrich their neighbors' lives. A Zambian family of nine living in a makeshift tent makes room to shelter even more. A teenager grieving for his mother honors her love and memory by ensuring other people have a place to call home. A former president of the United States leads by example with a determined work ethic that motivates everyone around him to be the best version of themselves. These stories, and many others, illustrate how virtues become values, how cooperation becomes connection, and how even the smallest act of compassion can encourage actions that transform the world around us. Here are tales that will make readers laugh and cry and embrace with passion the calling of our better angels to change the way we take care of ourselves, our families, our communities, and the world.

### **Simple Matters**

A leading investment professional explains the world of impact investing--investing in businesses and projects with a social and financial return--and shows what it takes to make sustainable, transformative change. Impact investment--the support of social and environmental projects with a financial return--has become a hot topic on the global stage; poised to eclipse traditional aid by ten times in the next decade. But the field is at a tipping point: Will impact investment empower millions of people worldwide, or will it replicate the same mistakes that have plagued both aid and finance? Morgan Simon is an investment professional who works at the nexus of social finance and social justice. In *Real Impact*, she teaches us how to get it right, leveraging the world's resources to truly transform the economy. Over the past seventeen years, Simon has influenced over \$150 billion from endowments, families, and foundations. In *Real Impact*, Simon shares her experience as both investor and activist to offer clear strategies for investors, community leaders, and entrepreneurs alike. *Real Impact* is essential reading for anyone seeking real change in the world.

## **The Complete Idiot's Guide to Giving Back**

Wear just 33 items for 3 months and get back all the JOY you were missing while you were worrying what to wear. In *Project 333*, minimalist expert and author of *Soulful Simplicity* Courtney Carver takes a new approach to living simply--starting with your wardrobe. *Project 333* promises that not only can you survive with just 33 items in your closet for 3 months, but you'll thrive just like the thousands of woman who have taken on the challenge and never looked back. Let the de-cluttering begin! Ever ask yourself how many of the items in your closet you actually wear? In search of a way to pare down on her expensive shopping habit, consistent lack of satisfaction with her purchases, and ever-growing closet, Carver created *Project 333*. In this book, she guides readers through their closets item-by-item, sifting through all the emotional baggage associated with those oh-so-strappy high-heel sandals that cost a fortune but destroy your feet every time you walk more than a few steps to that extensive collection of never-worn little black dresses, to locate the items that actually look and feel like you. As Carver reveals in this book, once we finally release ourselves from the cyclical nature of consumerism and focus less on our shoes and more on our self-care, we not only look great we feel great-- and we can see a clear path to make other important changes in our lives that reach far beyond our closets. With tips, solutions, and a closet-full of inspiration, this life-changing minimalist manual shows readers that we are so much more than what we wear, and that who we are and what we have is so much more than enough.

## **Blood Donor Counselling**

Caroline Adams returns to Indian Territory after tiring of confining society life. She wants adventure, and when she and her friend Amber come across swaggering outlaw Frisco Smith, they find his dreams for the new territory are very persuasive. With the much-anticipated land run pending, they may just join the rush. Growing up parentless, all Frisco Smith wanted was a place to call his own. It's no wonder

that he fought to open the Unassigned Lands. After years of sneaking across the border, he's even managed to put in a dugout house on a hidden piece of property he's poised to claim. When the gun sounds, everyone's best plans are thrown out the window in the chaos of the run. Caroline and Frisco soon find themselves battling over a claim--and both dig in their heels. Settling the rightful ownership will bring these two closer than they ever expected and change their ideas of what a true home looks like.

### **Midwifery and Childbirth in America**

How can garbage turn into gold? What does recycling have to do with globalization? Where does all that stuff we throw away go, anyway? When you drop your Diet Coke can or yesterday's newspaper in the recycling bin, where does it go? Probably halfway around the world, to people and places that clean up what you don't want and turn it into something you can't wait to buy. In *Junkyard Planet*, Adam Minter--veteran journalist and son of an American junkyard owner--travels deeply into a vast, often hidden, 500-billion-dollar industry that's transforming our economy and environment. Minter takes us from back-alley Chinese computer recycling operations to recycling factories capable of processing a jumbo jet's worth of trash every day. Along the way, we meet an international cast of characters who have figured out how to squeeze Silicon Valley-scale fortunes from what we all throw away. *Junkyard Planet* reveals how "going green" usually means making money--and why that's often the most sustainable choice, even when the recycling methods aren't pretty. With unmatched access to and insight on the waste industry, and the explanatory gifts and an eye for detail worthy of a John McPhee or William Langewiesche, Minter traces the export of America's garbage and the massive profits that China and other rising nations earn from it. What emerges is an engaging, colorful, and sometimes troubling tale of how the way we consume and discard stuff brings home the ascent of a developing world that recognizes value where Americans don't. *Junkyard Planet* reveals that Americans might need to learn a smarter way to take out the trash.

### **Planning and Design Guidelines**

Having a baby is an elemental human experience—profound, even sacred to some women and their families. At the same time, it is a significant component of health care. The medical model of childbirth emphasizes the pathological potential of pregnancy and birth, while an alternative model championed by midwives focuses on the normalcy of pregnancy and its potential for health. Now available in paperback, this definitive account of the many forces that intersect over the issue of childbirth explains in a comprehensive and authoritative manner the conceptual and philosophical differences between these models. The author has brought together in a clear and readable fashion the myriad strands of history, culture, science, economics, and policy that have resulted in the current condition of maternity care in the United States. She describes the disparate backgrounds, training, and roles of certified nurse-midwives and lay or direct entry midwives, and explains the contributions of both groups. Rooks believes that maternity care and childbirth in America can, and should, be better than it is today, and offers steps to take in the direction. Author note: Judith Rooks is a nurse-midwife and epidemiologist with a long career in public health. She has taught in a school of

nursing, a school of medicine, and a school of midwifery. The author of more than 50 scientific and professional papers, she is also past-president of the American College of Nurse-Midwives. She is an Associate of the Pacific Institute for Women's Health in Los Angeles.

While deriving from legal standards of the US, British Commonwealth, European Union, and Nordic Council, a chapter is devoted to issues particular to developing countries. Following an introductory chapter on the emergence and recognition of problems relating to drug safety, 20 chapters cover such areas as: the legal framework (types of proceedings, evidence, and proof); the responsibility of everyone from the government and manufacturer to the prescriber and patient; clinical investigation of drugs; controlled drugs; self-medication; alternative and complementary medicine; and vaccines and

biologicals. Includes a table of cases, and table of conventions, statutes, and regulations. Annotation copyrighted by Book News, Inc., Portland, OR

### **A Visit from the Goon Squad**

For anyone looking to declutter, organize, and simplify, author Erin Boyle shares practical guidance and personal insights on small-space living and conscious consumption. At once pragmatic and philosophical, *Simple Matters* is a nod to the growing consensus that living simply and purposefully is more sustainable not only for the environment, but for our own happiness and well-being, too. Boyle embraces the notion that “living small” is beneficial and accessible to us all—whether we’re renting a tiny apartment or purchasing a three-story house. Filled with personal essays, projects, and helpful advice on how to be inventive and resourceful in a tight space, *Simple Matters* shows that living simply is about making do with less and ending up with more: more free time, more time with loved ones, more savings, and more things of beauty.

Individuals who donate their blood provide a unique and precious gift in an act of human solidarity. In order to donate blood, prospective donors should be in good health and free from any infections that can be transmitted through transfusion. Most blood donors perceive themselves to be healthy, but some are unsuitable to donate blood due to the potential risk of compromising or worsening their own health or the risk of transmission of infections to patients. Blood transfusion services (BTS) have a duty of care towards blood donors as well as to the recipients of transfusion. This duty of care extends to prospective donors who are deferred from donation--whether on a temporary or permanent basis--as well as those who donate blood and are subsequently found to have unusual or abnormal test results. BTS have a responsibility to confirm test results and provide information, counseling and support to enable these individuals to understand and respond to unexpected information about their health or risk status. Counseling is part of the spectrum of care that a BTS should be able to provide to blood donors--including referral to medical practitioners or specialist clinical services. Pre-donation counseling was recognized as one element of the strategy to reduce and, if possible, prevent the donation of blood by individuals who might be at risk for HIV and other TTI including hepatitis B and C viruses as well as to inform the donor of the donation process and testing of blood for HIV. Post-donation counseling was acknowledged to be a necessary element of donor management as an adjunct to informing donors of unusual or abnormal test results. Blood donor counseling by trained specialist staff is now considered to be a key component of the blood system in most countries with a well-developed blood transfusion service. It may be required at a number of stages in the blood donation process or following blood screening and should be available at any point at which the BTS has an interface with donors. In many countries, however, blood donor counseling is not yet available in a structured way. Blood Donor Counselling: Implementation Guidelines

has therefore been developed to provide guidance to blood transfusion services that have not yet established donor counseling programs.
