## **School Library Media Quarterly**

## **Macmillan/McGraw-Hill Math: Teacher ed., v. 2**

Australia is home to some of the most interesting and unusual frogs in the world, and Michael J. Tyler is acknowledged to be the foremost expert on them. This lavishly illustrated new edition of Australian Frogs is the definitive resource on the subject, with updated tables and supplementary text on the fossil record which is vital to historical understanding. Tyler covers the origins, environment, nomenclature, habits, and biology of frogs. The topic of declining frog populations, noted in American newspapers as a harbinger of ecological distress, has become the subject of a new chapter. Tyler discusses dietary studies and explains the effect on frogs of herbicides, fungicides, insecticides, and heavy metals. He provides information, as well, on an unprecedented study to control populations of the Cane Toad, *Bufo marinus*.

Earn College Credit with REA's Test Prep for CLEP® Calculus Everything you need to pass the exam and get the college credits you deserve. CLEP® is the most popular credit-by-examination program in the country, accepted by more than 2,900 colleges and universities. For over 15 years, REA has helped students pass CLEP® exams and earn college credit while reducing their tuition costs. Our CLEP® test preps are perfect for adults returning to college (or attending for the first time), military service members, high-school graduates looking to earn college credit, or home-schooled students with knowledge that can translate into college credit. The CLEP® Calculus test prep assesses the skills tested on the official CLEP® exam. Our comprehensive review chapters cover: limits and differential calculus and integral calculus, including algebraic, trigonometric, exponential, logarithmic, and general functions. The book includes two full-length practice tests. Each exam comes with detailed feedback on every question. We don't just say which answers are right, we explain why the other answer choices are wrong, so you can identify your strengths and weaknesses while building your skills. REA is the acknowledged leader in CLEP® preparation, with the most extensive library of CLEP® titles available. Our test preps for CLEP® exams help you earn college credit, save on tuition, and get a college degree.

There's even a special chapter for seniors.

## **The Bent of Tau Beta Pi**

"The Encyclopedia of Library and Information Science provides an outstanding resource in 33 published volumes with 2 helpful indexes. This thorough reference set--written by 1300 eminent, international experts--offers librarians, information/computer scientists, bibliographers, documentalists, systems analysts, and students, convenient access to the techniques and tools of both library and information science. Impeccably researched, cross referenced, alphabetized by subject, and generously illustrated, the Encyclopedia of Library and Information Science integrates the essential theoretical and practical information accumulating in this rapidly growing field."

## **Amateur Radio**

This is an integrated guide to the documentation, reference aids and key organizational sources of information about online and CD-ROM searching worldwide. Databases in online and CD-ROM format represent applications of computer technology which enable people to cope with the so-called information explosion that has gained momentum in the 20th century. They may be used in a wide variety of ways and by a variety of users to promote the transfer of new

ideas, eliminate duplicative and unnecessary research, provide supporting data for problem solving and long range planning, and to help individuals learn about and evaluate educational, leisure and consumer options. Interest in online and CD-ROM database searching has expanded rapidly in the information profession, the academic world and many commercial fields.

## **Keyguide to Information Sources in Online and CD-ROM Database Searching**

The Internet permeates contemporary American life, creating enormous possibilities for innovative use in history classrooms and student projects. This concise guide focuses on practical ways that students and teachers can utilize the growing body of library and archival catalogs, primary sources, web sites, images, and sounds to complement and enhance traditional ways of learning, teaching, and researching the human past. Available either as a separate work or packaged with textbooks in United States, Western Civilization, World History, and upper division history courses, this guide will help students to learn how to use e-mail, surf the Internet for quality history sites, employ search engines effectively, create online student projects, and explore the emerging world of multimedia history. Helpful for instructors who wish to learn how to use scholarly networks, professional web sites, and evaluate reliable web resources to bring new dimensions to the craft of understanding the past. An extensive appendix provides links to the best history-related sites on the Internet by time period and subject as well as resources for scholars and samples of innovative CD-ROM projects in history.
