Blank Book

Sami, the magical teddy bear comes to the aid of children who feel alone and who are facing troubling events that occur in the course of their lives. Today, Sami intervenes in the life of Jeremy and offers him support and helps him to get through these difficult times.

Sami The Magic Bear

Once lost to history a cache of fantastical stories has been found but only the bravest can survive their telling. Journey from the North Pole to faraway fantasy lands, from a pirate ship to a secluded mansion in the mountains, from a subterranean cavern to the burning skies of the Ptero Knights. You'll travel back in time for a heist, then you'll vault forward to humanity's high-tech future here on earth, and then you'll travel even further ahead to our bleak, desperate future among the stars. Along the way, you'll hang out with zombies, a werewolf, birds of a feather that flock together, and the world's rattiest supervillain. You'll soar with the Skyborne, try to survive a dystopia with your siblings, and fight for your life against undead reindeer. And just when you think it's going to end, you'll find paths to even more exciting adventures. These tales represent ten years of award-winning author Ben Wolf 's forays into the world of writing and publishing short stories. If you love sci-fi, fantasy, horror, and everything in-between, and if you love the punch that great short stories and flash fiction can deliver, you'll love this collection. Get it now.

Proverbs 31

He did indeed say the acerbic, insightful, original, candid and frequently seemingly outrageous things in this long-awaited book. For this is one of America's top theologians come down from the ivory tower of scholarship to deal with the moral and ecclesiastical problems of everyday life in the crisp, colorful, and jargon-free style that have made John L. McKenzie one of the most widely read and highly regarded Catholic writers of our day. One of the few things Father McKenzie is not famous for is pulling his punches. When he talks about the problems of evil in modern life his indictments shy away from no sacred cows. His outspoken criticism of authority in the church, of ecclesiastical repression of personal and academic freedom have not necessarily made him friends in high places but they have influenced many. His tremendous depth of scriptural knowledge illuminates all his writing without ever slipping over to the pedantic. Best of all, his passionate concern for people and for the authentic message of the Gospels, is converted and focused onto the major moral problems which openly or covertly subvert the quality of contemporary Christian life--as it is lived very much in this world.

Women of Mythology: Goddesses, Warriors, and Hunters (Set)

Gambling played a major role in the lives of the men that drove the western movement of Americans across the continent during the nineteenth century. Wherever there were men with money there was gambling. Saloons and gambling halls had a large array of games to entice customers to take a chance of walking out a winner - a very little chance. The soft slap of cards, the click of dice, and the rattle of a roulette wheel greeted players as they walked into the top saloons of the 1880's. But what were the games of that era? How were they played and why are most of the games not found in casinos today? Ante up and find out in this concise, compact book that takes you inside the frontier gambling saloons and gambling halls. Card games, dice games, and wheel games are vividly described with plenty of vintage photographs to illustrate how the games were played.

Poems, Tales, and Essays

A novelistic retelling of a family legend chronicles the ill-fated 1908 love affair between Indiana politician Ham Dillon and Allie Hale, his sister-in-law, an affair leading to the arrest and trial of Allie's husband for Ham's murder. 18,000 first printing. Tour.

Sketch Book

Two wooden pulleys are attached to a large wooden beam stretched across the temple ceiling. The assistants pull the rope and raise the litter into a standing position on its end. Andre, strapped with leather restraints crossing his forehead, chest, waist, legs, arms, and hands, facing the giant candles as he seeks the celestial spirit, he meditates. As Andre's body starts shaking violently, he lets out a terrifying shriek, and then, as if on cue, his body does limp and he is deathly silent. "The human body has unknown abilities that science has yet to uncover. What if that potential could be harnessed by means of medicine men and monks? Andre Roberson seeks the answer when he goes to South Dakota and then to China to learn under the tutelage of Shaolin monks. The author has familiar knowledge of the various locales and traditions within the countries, which makes them come alive for the reader." --Maria A. Hughes, the US Review of Books "An intriguing novel about a man named Andre who goes on a quest in search of enlightenment. Andre's quest takes him in search of his father's killer, and the story surrounding this adventure is filled with excitement, companionship, mystery and emotion. Andre ends up in a Shaolin Buddhist monastery in China where he is about to go through the experience of his lifetime. The Gifted One is a spiritual awakening that lifts the senses to a new heights." --Stephen McElwaine, former casting director, Creative Casting

The Gifted One

120 Pages Goals Diary Dream Diary Journal or Diary College Ruled Great for Homeschool Perfect for taking notes in school or to use as a diary.

Open Closet Doors

This thrilling set tells the stories and explores the history of some of the most famous women in ancient mythology. Readers will learn of these women's achievements, origin stories, the history surrounding the rise of each particular myth, and what it was like for women in society at the time. Presented are references to comparative myths or fables, and pop references to the women today, helping readers learn why they are is still important. Fact boxes and sidebars talk about the ancient world in which each myth started, including society's traditions, beliefs, and practices. These books are carefully crafted for young readers, using simple text, vivid images, and easy-to-understand language and sentence structure. Features include: Straightforward content that explains the differences between fables, folktales, and myths. Critical thinking questions exploring connections between the main myth and a related myth in another society. Allows readers to understand differences between different literary works, such as myths, fables, and folktales. Encourages readers to think critically about similar myths and draw conclusions about myths' relationships to each other.

A Careers Advice Guide

Everyone has a story. Enjoy stories of everyday people in the LGBTQ community. They have opened their closet doors for you and shared their stories of coming out to friends or family, views on religion and on civil rights for LGBT men and women. They open their hearts and share their stories of first kisses, sexual experiences and even where they find themselves in the future. If your closet door is still closed, may this help you open it and step out into the world and be proud of who you are.

The guidelines on the practice paper are instrumental in learning to letter. Use our Calligraphy Practice Paper to make your practice as enjoyable and effective as possible. Get a copy now!

Montana Native Diane

The Earth's modern climate change has been characterized by interlinked changes in temperature, CO₂, ice sheets and sea level. Global sea level change is a critical indicator for study of contemporary climate change. Sea level rise appears to have accelerated since the ice sheet retreats have stopped some 5000 years ago and it is estimated that the sea level rise has been approx. 15 cm over the last century. Contemporary radar altimeters represent the only technique capable of monitoring global sea level change with accuracy approaching 1 mm/yr and with a temporal scale of days and a spatial scale of 100 km or longer. This report highlights the major accomplishments of the TOPEX/POSEIDON (T/P) Extended Mission and Jason-1 science investigation. The primary objectives of the investigation include the calibration and improvement of T/P and Jason-1 altimeter data for global sea level change and coastal tide and circulation studies. The scientific objectives of the investigation include: (1) the calibration and improvement of T/P and Jason-1 data as a reference measurement system for the accurate cross-linking with other altimeter systems (Seasat, Geosat, ERS-1, ERS-2, GFO-1, and Envisat), (2) the improved determination and the associated uncertainties of the long-term (15-year) global mean sea level change using multiple altimeters, (3) the characterization of the sea level change by analyses of independent data, including tide gauges, sea surface temperature, and (4) the improvement coastal radar altimetry for studies including coastal ocean tide modeling

and coastal circulation. Major accomplishments of the investigation include the development of techniques for low-cost radar altimeter absolute calibration (including the associated GPS-buoy technology), coastal ocean tide modeling, and the linking of multiple altimeter systems and the resulting determination of the 15-year (1985-1999) global mean sea level variations. The current rate of 15-year sea level rise observ
