Tender Is the Flesh

In the Flesh

In 2 Corinthians 12: 7 Paul makes the extraordinary admission that he was given a 'thorn in the flesh'. Although we can never be sure what that torment was, many of us will know what it feels like to experience a painful problem which does not seem to go away. In this book R. T. Kendall explains what a thorn in the flesh is, why we have it, and what we should understand by it. Looking with compassion at the kinds of acute situation in which we may find ourselves - an unhappy marriage, difficult working conditions, loneliness, sexual misgivings or chronic illness, for example - he shows how the grace of God is sufficient whatever our thorn, and how it can lead us into unimaginable intimacy with Jesus.

In the Flesh

Living is a process of continuous transformation: we have been embryos, children, adolescents, thin, fat, sick, better again. And as humans, we are always at odds with at least one part of our bodies. Have we inherited the family nose? Is there nothing to be done for our finicky stomach or our limp hair? *In the Flesh* is an intelligent, witty, and provocative look at how we think about—and live within—our bodies. The editors and writers in this collection describe, in many voices, what human bodies feel now. Each author's candid essay focuses on one part of the body, and explores its function, its meanings, and the role it has played in his or her life. Written from both the male and female perspectives, contributors include Caroline Adderson, André Alexis, Taiaiake Alfred, Brian Brett, Trevor Cole, Dede Crane, Lorna Crozier, Candace Fertile, Stephen Gauer, Julian Gunn, Heather Kuttai, Susan Olding, Kate Pullinger, Marilyn Simonds, Richard Steel, Madeleine Thien, Sue Thomas, and Margaret Thompson.

In the Flesh

Hailed by Jean Cocteau as a "masterpiece," and by the Guardian as "Bret Easton Ellis's Less Than Zero, avant la lettre," this taut tale written by a teenager in the form of a frank "confession" is a gem of early twentieth century romanticism. Long unavailable in the U.S., it is here presented in a sparkling new translation. Set in Paris during the First World War, it tells the story of Francois, the 16-year-old narrator, who falls in love with Marthe, an older, married woman whose husband is off fighting at the front. What seems to begin as a charming tale of puppy love quickly darkens, and they launch into a steamy affair. In the tense environment of the wartime city, their love takes on a desperation transcending their youthfulness. And as the badly-kept secret of their relationship unfolds, scandal descends, leading the story to a final, startling conclusion—and causing the book itself to become a scandal when it was first published in 1923, just before the author's death at the age of 20. From the Trade Paperback edition.

Through an interview-based study, Victoria Pitts has researched the subcultural milieu of contemporary

body modification, focusing on the ways sexuality, gender and ethnicity are being reconfigured through new body technologies - not only tattooing, but piercing, cyberpunk and such 'neotribal' practices as scarification. She interprets the stories of sixteen body modifiers (as well as some subcultural magazines and films) using the tools of feminist and queer theory. Pitts not only covers a hot topic but also situates it in a theoretical context.

The Sensual Flesh

The Word Appears in the Flesh

The past decades have witnessed a surge of sociological interest in the body. From the focal point of aesthetic investment, political regulation and moral anxiety, to a means of redefining traditional conceptions of agency and identity, the body has been cast in a wide variety of sociological roles. However, there is one topic that proves conspicuously absent from this burgeoning literature on the body, namely its role in the everyday (re)production of class-boundaries. *Distinctions in the Flesh* aims to fill that void by showing that the way individuals perceive, use and manage their bodies is fundamentally intertwined with their social position and trajectory. Drawing on a wide array of survey-data - from food-preferences to sporting-practices and from weight-concern to tastes in clothing - this book shows how bodies not only function as key markers of class-differences, but also help to naturalize and legitimize

such differences. Along the way, it scrutinizes popular notions like the 'obesity epidemic', questions the role of 'the media' in shaping the way people judge their bodies and sheds doubt on sociological narratives that cast the body as a malleable object that is increasingly open to individual control and reflexive management. This book will be of interest to scholars of class, lifestyle and identity, but also to social epidemiologists, health professionals and anyone interested in the way that social inequalities become, quite literally, inscribed in the body.

The Thorn in the Flesh

This prize-winning novel, the first to be written by an Algerian woman in Arabic, is set against Algeria's struggle against foreign domination as well as its post-independence struggle with itself and the fate of revolutionary ideals in a post-revolutionary society. The story, spanning more than four decades of Algerian history, from the 1940s to the 1980s, revolves around a love affair between Khaled, the middle-aged militant who turns to painting after losing his left arm in the struggle, and Hayat, the fiction writer and young daughter of his friend the freedom fighter Si Taher, all brilliantly told through Khaled's voice. It features such as this convincing embodiment of a male voice alongside narrative techniques in which the author subtly joins the achievements of world literature with that of local storytelling and traditional modes of narration that particularly impressed the judges who awarded this novel the Naguib Mahfouz Medal for Literature.

"They were amazed at his teaching."; "They fell down before him."; "He touched her hand."; "They left their nets."; Often when we read the New Testament accounts of Jesus' life, we focus on his teachings and stories. But Don Everts draws our attention to the seemingly insignificant "stage directions" of the Gospels that describe the activity surrounding him. "It's significant," Everts writes, "that in the Gospels we don't just have a bullet list of quotes from Jesus." We also have observations of what he did and how people responded to him. By examining these simple phrases and casual comments, Everts assembles a startlingly fresh portrait of who Jesus was and is. While no one has seen the invisible God, when we look at the life of Jesus, we discover what his early followers discovered - that Jesus is the very flesh of God. "Many people find themselves put off by Christianity but haunted and compelled by the figure of Jesus. In *God in the Flesh*, Don Everts reminds us why." Verdi, Wagner, polymorphous perversion, Puccini, Brunnhilde, Pinkerton, and Parsifal all rub shoulders in this delightful, poetic, insightful, sexual book sprung by one man's physical response to the power and exaggeration we call opera. Sam Abel applies a light touch as he considers the topic of opera and the eroticized body: Why do audiences respond to opera

in a visceral way? How does opera, like no other art form, physically move watchers? How and why does opera arouse feelings akin to sexual desire? Abel seeks the answers to these questions by examining homoerotic desire, the phenomenon of the castrati, operatic cross-dressing, and opera as presented through the media. In this deeply personal book, Abel writes, 'These pages map my current struggles to pin down my passion for opera, my intense admiration for its aesthetic forms and beauties, but much more they express my astonishment at how opera makes me lose myself, how it consumes me.' In so doing, Abel uncovers what until now, through dry musicology and gossipy history, has been left behind a wall of silence: the physical and erotic nature of opera. Although Abel can speak with certainty only about his own response to opera, he provides readers with a language and a resonance with which to understand their own experiences. Ultimately, *Opera in the Flesh* celebrates the power of opera to move audiences as no other book has done. It is indeed a treasure of scholarship, passion, and poetry for everyone with even a passing interest in this fascinating art form.

God Manifest in the Flesh

Adam O'Riordan's remarkable first collection traces the hidden paths from past to present, from the lost to the living, seeking familiarity in a world of 'false trails and disappearing acts'. Here relatives, friends and other absences are coaxed into life and urgently pressed on the reader as they surface, in the flesh. Journeys begin with indelible detail and open into new and astonishing landscapes of the head and the heart. Whether in graceful elegies for the dead or the charged lyrics of love and desire, poems cross space as well as time, from the 'blackened lung' of Victorian Manchester and the fateful events of the 1913 Derby, to enter a modern era of satellites and late night searches for lost lovers. At the heart of the collection lies the sonnet sequence 'Home', a slant look at the lives of William and Dorothy Wordsworth, intersected by more recent, sometimes unsettling, personal portraits. Clear-eyed and sensuous, these are poems linked by a strong sense of place and presence, longing and loss; of history captured in an irrevocable moment. In the Flesh is a startling debut from one of our finest young British poets.

Sins of the Flesh

This book The Sensual Flesh is written for the person that has an honest desire to know the relationship that exists between God and mankind. It examines the writings of the authors of the Bible to understand where and how they obtained their knowledge and to what extent their concepts are truly from God the creator. It then compares their teachings with man's concepts of organized religion as well as one's personal beliefs. This book shows the why and wherefore of man's existence.

Christ's Body, Human Flesh If we're honest, no one really cares about theology unless it reveals a gut-level view of God's presence. According to pastor and ministry leader Hugh Halter, only the incarnational power of Jesus satisfies what we truly crave, and once we taste it, we're never the same. God understands how hard it is to be human, and the incarnation—God with us—enables us to be fully alive. With refreshing, raw candor, *Flesh* reveals the faith we all long to experience—one based on the power of Christ in the daily grind of work, home, school, and life. For anyone burned out, disenchanted, or seeking a fresh honest-to-God encounter, *Flesh* will invigorate your faith.

In the Flesh

In this first book-length study of lesbian s/m, Lynda Hart creates a vivid and compelling counterdiscourse to the erotophobic voices in contemporary cultural debates. Focusing on a variety of representations, from the boundary-shattering work of queer performances to the daring conjunction of childhood sexual abuse and perverse desire in the work of Dorothy Allison, *Between the Body and the Flesh* situates s/m as a lightning rod that stimulates discussions of censorship in the arts, the fetishization of sexual paraphernalia, recombinations of class, race, and sexuality, and the politics of psychoanalysis.

In the Flesh

Almighty God, Christ of the last days, who has appeared to do His work, expresses all truths that purify and save mankind, and all of them are included in *The Word Appears in the Flesh*. This has fulfilled what is written in the Bible: "In the beginning was the Word, and the Word was with God, and the Word was God" (Jhn 1:1). As for *The Word Appears in the Flesh*, this is the first time since the creation of the world that God has addressed all mankind. These utterances form the first text expressed by God among mankind in which He exposes people, guides them, judges them, and speaks heart-to-heart to them and so, too, are they the first utterances in which God lets people know His footsteps, the place in which He lies, God's disposition, what God has and is, God's thoughts, and His concern for mankind. It

can be said that these are the first utterances that God has spoken to mankind from the third heaven since the creation, and the first time that God has used His inherent identity to appear and express the voice of His heart to mankind amid words.
