Integrated Korean Workbook

This workbook accompanies the thoroughly revised third edition of Integrated Korean: Beginning 1, the first volume of the best-selling series developed collaboratively by leading classroom teachers and

linguists of Korean. All the series' volumes have been developed in accordance with performance-based principles and methodology—contextualization, learner-centeredness, use of authentic materials, usage-orientedness, balance between skill getting and skill using, and integration of speaking, listening, reading, writing, and culture. Grammar points are systematically introduced in simple but adequate explanations and abundant examples and exercises. Each situation/topic-based lesson of the main texts consists of model dialogues, narration, new words and expressions, vocabulary notes, culture, grammar, usage, and English translation of dialogues. In response to comments from hundreds of students and instructors of the second edition, the new third edition features an attractive color design with new photos and drawings and lesson and vocabulary exercises that have been fully reorganized. Each lesson contains a conversational text (with its own vocabulary list) and a reading passage. The workbook—available online as well as in paperback—provides students with extensive skill-using activities based on the skills learned in the main text. Integrated Korean is a project of the Korean Language Education and Research Center (KLEAR) with the support of the Korean Foundation. In addition to the five-level Integrated Korean textbooks and workbooks, volumes include Korean Composition, Korean Language in Culture and Society, Korean Reader for Chinese Characters, Readings in Modern Korean Literature, A Resource for Korean Grammar Instruction, and Selected Readings in Korean. Kierkegaard's infamous and hugely influential philosophical work on faith, choice and sacrifice In Fear and Trembling Kierkegaard, writing under the pseudonym Johannes de silentio, expounds his personal view of religion through the scene in Genesis in which Abraham prepares to kill his son at God's command. Kierkegaard believed Abraham's unreserved obedience to be the essential leap of faith needed to make a full commitment to his religion. The conviction shown in this polemic - that an individual can have an exceptional mission in life - informed all

his later writings, and was also hugely influential for both Protestant theology and the existentialist movement. Translated with an Introduction by Alastair Hannay

This vocabulary guide contains all 5000 HSK vocabularies grouped by level starting from HSK 1 and finishing with HSK 6. The vocabularies are based on the changes from 2012 and all come with Pinyin and English translation. If you are just starting out preparing for an HSK test, this book is ideal to slowly and step by step build the vocabulary you need to successfully pass whatever level it is you are aiming for. Shortly before the test, the book can again be very helpful in acting as a checklist to see which words haven't been learned yet or need to be studied again. As common with most vocabulary books, it's possible to study from Chinese to English as well as

English to Chinese. Chinese to English provides you with the opportunity to make quick progress in areas like listening and reading. English to Chinese on the other hand allows you to practice your writing and also has positive effects on your speaking skills. To successfully pass any of the 6 HSK levels there are further topics for you to consider like grammar or listening which are not covered in this book. This book concentrates on helping you to build the foundation that allows you to then accelerate further learning in courses, with mock exams or whatever other form of studying works best for you. Good luck!

Korean is the seventh most commonly spoken language in the United States, and Korean heritage students—those with some proficiency in or a cultural connection to the language through family or community—make up a substantial portion of Korean learners at the college level. Many schools offer a separate heritage track for learning Korean, but until now there has been no textbook designed specifically for heritage learners as well as the increasing number of students from diverse backgrounds who are interested in pursuing intensive learning to build on their prior experience with Korean. *Integrated Korean: Accelerated 1 and 2* directly address the linguistic needs and abilities of heritage and accelerated learners in a single academic year. Volume 1 presents lessons on thematically organized subjects, starting with familiar topics such as family, friends, daily routines, schoolwork, campus activities, dining out, and shopping. Volume 2 advances to more formal subjects beyond family and friends, such as travel, transportation, housing, holidays, lifestyles, careers, and Korean history and culture. Students approach the lessons with multilevel communicative classroom activities and reading materials with standards-based exercises and projects that not only focus on the particular language requirements of heritage learners, but also encourage them to participate more fully in their own family and community life. Each volume's textbook and workbook offer authentic conversations and texts in both informal and formal contexts, structured tasks, and a wealth of interesting and relevant cultural content. *Integrated Korean* is a project of the Korean Language Education and

Research Center (KLEAR) with the support of the Korea Foundation. In addition to the five-level Integrated Korean textbooks and workbooks, volumes include Korean Composition, Korean Language in Culture and Society, Korean Reader for Chinese Characters, Readings in Modern Korean Literature, A Resource for Korean Grammar Instruction, and Selected Readings in Korean. Encounters

Learning Chinese can be frustrating and difficult, partly because it's very different from European languages. Following a teacher, textbook or language course is not enough. They show you the characters, words and grammar you need to become proficient in Chinese, but they don't teach you how to learn them! Regardless of what program you're in (if any), you need to take responsibility for your own learning. If you don't, you will miss many important things that aren't included in the course you're taking. If you study on your own, you need to be even more aware of what you need to do, what you're doing at the moment and the difference between them. Here are some of the questions I have asked and have since been asked many times by students: How do I learn characters efficiently? How do I get the most out of my course or teacher? Which are the best learning tools and resources? How can I become fluent in

Mandarin? How can I improve my pronunciation? How do I learn successfully on my own? How can I motivate myself to study more? How can I fit learning Chinese into a busy schedule? The answers I've found to these questions and many others form the core of this book. It took eight years of learning, researching, teaching and writing to figure these things out. Not everybody has the time to do that! I can't go back in time and help myself learn in a better way, but I can help you! This book is meant for normal students and independent language learners alike. While it covers all major areas of learning, you won't learn Chinese just by reading this book. It's like when someone on TV teaches you how to cook: you won't get to eat the delicious dish just by watching the program; you have to do the cooking yourself. That's true for this book as well. When you apply what you learn, it will boost your learning, making every hour you spend count for more, but you still have to do the learning yourself. This is what a few readers have said about the book: "The book had me nodding at a heap of things I'd learnt the hard way, wishing I knew them when I started, as well as highlighting areas that I'm currently missing in my study." - Geoff van der Meer, VP engineering "This publication is like a bible for anyone serious about Chinese proficiency. It's easy for anyone to read and written with scientific precision." - Zachary Danz, foreign teacher, children's theatre artist About me I started learning Chinese when I was 23 (that's more than eight years ago now) and have since studied in many different situations, including serious immersion programs abroad, high-intensity programs in Sweden, online courses, as well as on the side while working or studying other things.

I have also successfully used my Chinese in a graduate program for teaching Chinese as a second language, taught entirely in Chinese mostly for native speakers (the Graduate Institute for Teaching Chinese as a Second Language at National Taiwan Normal University). All these parts have contributed to my website, Hacking Chinese, where I write regularly about how to learn Mandarin.
