### The Miracle Equation

The Old Testament looked forward to the final King of kings who would bring everlasting salvation and peace. In his Gospel, Matthew demonstrates that Jesus Christ is that King, perfect in His eternal glory and majesty. As the King's ambassadors, Christians today will find in Matthew great motivation for heartfelt worship and service. Join John MacArthur as he explains each verse of Matthew 24-28 in a way that is both doctrinally precise and intensely practical. Taking into account the cultural, theological, and Old Testament contexts of each passage, MacArthur tackles interpretive challenges and fairly evaluates differing views, giving the reader confidence in his conclusions. The MacArthur New Testament Commentary series comes from the experience, wisdom, and insight of one of the most trusted ministry leaders and Bible scholars of our day. Each volume was

written to be as comprehensive and accurate as possible, dealing thoroughly with every key phrase and word in the Scripture without being unnecessarily technical. This commentary will help to give a better, fuller, richer understanding of God's Word, while challenging the reader to a vibrant personal spiritual walk. According to UNICEF, growing up with domestic violence is one of the most pervasive human rights violations in the world, affecting more than a billion people. Yet too few people are aware of the profound impact it can have. *Invincible* seeks to change this lack of awareness and understanding with a compelling look at this important issue, informing and inspiring anyone who grew up living with domestic violence - and those who love them, work with them, teach them, and mentor them. Through powerful first-person stories, including the author's own experiences, as well as insightful commentary based on the most recent social science and psychology research, *Invincible* not only offers a deeper understanding of the concerns and challenges of those who grew up with domestic violence, but also provides proven strategies everyone can use to reclaim their lives and futures. 'When you grow up living with domestic violence, witnessing those you love tear each other down with physical and verbal blows, your brain doesn't know how to deal with that.' from the foreword by Tony Robbins The author is donating all net royalties to the Childhood Domestic Violence Association. 'I have never shared the fact that I was a child of domestic violence. And, if I had not met Brian Martin, I don't know if I would have. What appeals to me most about Brian's approach is that it is based on empowerment. Our experiences as children living with domestic violence have given us the equipment - a secret weapon, if you will - to overcome all kinds of obstacles in our lives. It means we are not victims, we are victorious.' Tony Robbins, bestselling author and Peak Performance strategist 'Attention-grabbing and revealing, giving us insight into the world of CDV. It will be a valuable tool for our staff and New York City's most vulnerable population - its children.' Trevor M. Johns, acting associate commissioner, NYC Administration for Children's Services 'Martin's kindness shines through this book. And though many purported self-help books often have the stench of the obvious - House too cluttered? Throw out stuff! Overweight? Eat less, move more! - *Invincible* has the air of honesty and hard work, and the feeling of someone who wants to help. It is not easy reading. It is not pleasant reading. But for anyone who grew up in a violent household, it could very well be the most important reading.' NJ.com

## **Mr. Invincible**

Taking place during the most critical period of our nation's birth, *The First Conspiracy* tells a remarkable and previously untold piece of American history that not only reveals George Washington's character, but also illuminates the origins of America's counterintelligence movement that led to the modern day CIA. In 1776, an elite group of soldiers were handpicked to serve as George Washington's bodyguards. Washington trusted them; relied on them. But unbeknownst to Washington, some of them were part of a treasonous plan. In the months leading up to the Revolutionary War, these traitorous soldiers, along with the Governor of New York, William Tryon, and Mayor David Mathews, launched a deadly plot against the most important member of the military: George Washington himself. This is the story of the secret plot and how it was revealed. It is a story of leaders, liars, counterfeiterers, and jailhouse confessors. It also shows just how hard the battle was for George Washington and how close America was to losing the Revolutionary War. In this historical page-turner, New York Times bestselling author Brad Meltzer teams up with American history writer and documentary television producer, Josh Mensch to unravel the shocking true story behind what has previously been a footnote in the pages of history. Drawing on extensive research, Meltzer and Mensch capture in riveting detail how George Washington not only defeated the most powerful military force in the world, but also uncovered the secret plot against him in the tumultuous days leading up to July 4, 1776. Praise for *The First Conspiracy*: "This is American history at its finest, a gripping story of spies, killers, counterfeiterers, traitors?and a mysterious prostitute who may or may not have even existed. Anyone with an interest in American history will love this book." —Douglas Preston, #1 bestselling author of *The Lost City of the Monkey God* "A wonderful book about leadership?and it shows why George Washington and his moral lessons are just as vital today. What a book. You'll love it." —President George H.W. Bush "This is an important book: a fascinating largely unknown chapter of our hazardous beginning, a reminder of why counterintelligence matters, and a great read." —President Bill Clinton

An entertaining and inspiring account of conquering the fear of rejection, offering a completely new perspective on how to turn a no into a yes. Jia Jiang came to the United States with the dream of being the next Bill Gates. But despite early success in the corporate world, his first attempt to pursue his entrepreneurial dream ended in rejection. Jia was crushed, and spiraled into a period of deep self doubt. But he realized that his fear of rejection was a bigger obstacle than any single rejection would ever be, and he needed to find a way to cope with being told no without letting it destroy him. Thus was born his "100 days of rejection" experiment, during which he willfully sought rejection on a daily basis--from requesting a lesson in sales from a car salesman (no) to asking a flight attendant if he could make an announcement on the loud speaker (yes) to his famous request to get Krispy Kreme doughnuts in the shape of Olympic rings (yes, with a viral video to prove it). Jia learned that even the most preposterous wish may be granted if you ask in the right way, and shares the secret of successful asking, how to pick targets, and how to tell when an initial no can be converted into something positive. But more important, he learned techniques for steeling himself against rejection and ways to develop his own confidence--a plan that can't be derailed by a single setback. Filled with great stories and valuable insight, Rejection Proof is a fun and thoughtful examination of how to overcome fear and dare to live more boldly. From the Hardcover edition.

When the Spaniards settled in Latin America, they immediately surrounded themselves with cities. Equating civilization with urban existence, the early conquerors of the New World rapidly established themselves as urban lords. Latin American cities then became synonymous with Spanish power and all of its privileged attributes: political authority, ecclesiastical activity, commerce, finance, and conspicuous consumption. This volume represents some of the most enduring reflections on the Latin American city. All of the essays were written by public officials, journalists, and social commentators, among others, who participated actively in the affairs of the cities they so perceptively describe. The collection offers critical analyses spanning hundreds of years, beginning with the era of the conquistadores in Tenochtitl-n and continuing to the deafening bustle of today's urban crowds in Mexico City. Professors Gilbert Joseph and Mark Szuchman offer translations of classic pieces by writers previously little known to Western audiences: Cobo, García, Santos Vilhena, and Leite de Barros.
