Have your children ever asked what bunnies have to do with Jesus's resurrection? Why do we celebrate Easter with jellybeans and Easter egg hunts? While our culture seems to have lost sight of the reason for the season, you can keep your family's focus on Jesus during the Easter season with the fifteen devotions included in *Easter Is about Jesus: Family Devotions for the Easter Season*. Rather than worrying about who finds the most eggs or who got the most treats in their basket, Mukkove Johnson has written a kid-friendly devotional that clearly illustrates the need to focus on Jesus's and God's blessings during the Easter season. This devotional puts Jesus into Easter symbols, from chocolate bunnies and Easter baskets to baby chicks and Easter lilies. Each devotion includes study questions and fun activities to remind you and your children that Easter Is about Jesus. With this adaptable and flexible format to follow, you'll always have time for Family Devotions for the Easter Season.

Farang in Thailand – Yes, You! This book is about your life, a life only you and your mates in Thailand understand. The Thailand expat life that has to be lived but you can't quite explain why. These brief poems say what you feel. You must have this book for your life to be complete. Whether you are a Westerner living in Thailand or observant visitor, the complete contrast to life in the West becomes apparent immediately after arriving and leaving the plane. Then, after living in Thailand for some time, that which is foreign and strange can become familiar. This interplay between the bizarre and the familiar makes living in Thailand an exciting, odd journey. A long-stay foreigner can become a philosopher, especially as the ice rattles in the empty glass in the waning hours of Happy Hour. The deep questions abound: where is home? Who are these people smiling at me? Why is there always

chilie in my food? Why is there not enough chilie in my food? Nong! Where are the chilies, please? So I took a step back and prescribed myself some more medical Sang Som and wrote these observations about Thai culture from the perspective of that guy rattling the ice in the glass and wondering where the chilies are. Nong! Where are the chilies, please? Some of these vignettes are from real experiences; some are from my imagination. All encapsulate part of the hard to explain Thailand experience.

### **The Allegations**

Four families live in a beautiful stretch of English countryside in magnificent listed houses, built for the old aristocracy. They are the new aristocracy and the elite of their village: financiers, business tycoons, lawyers, doctors, magistrates. They leave their rural idyll only to commute first-class to London for meetings, deals and theatre outings or Heathrow flights to winter sun or half-term skiing. They and their children are protected by investments, pensions and expensive security systems. But the money is running out in Britain, and as tensions and relationships develop within the group of friends, finally, deep in the English winter, an unthinkable act of violence destroys these dream lives and demonstrates that the biggest threat may come from unexpected places. This horrific act happens on the first pages but Lawson provides dramatic twists and false turns and it is only by the end of the book that we discover who the victims are and who committed the crime. Mark

Lawson's first novel in eight years is his most ambitious yet. Combining ingenious plotting with forensic social comedy, this is a dark and brilliant novel of life in twenty-first-century England.

He was in Italy with Sir James Craig's force in 1805 and with Sir John Stuart in Calabria in the following year, witnessing the battle of Maida. In 1811 he embarked for the Peninsula with 'E' troop of the Royal Horse Artillery, as 2nd Captain. There he served in the sieges of Ciudad Rodrigo and Burgos, at the battles of Salamanca, Vitoria and those in the Pyrenees. In November 1813 he was invalided home, but was present with 'E' troop in 1815 during the Waterloo campaign. He subsequently rose to the rank of major-general in 1854 and died in 1860.

Some of the most effective gauges in field theory are noncovariant gauges of the axial kind, such as the light-cone gauge and the temporal gauge. The principal advantage of these gauges stems from the decoupling of the fictitious particles in the theory. The purpose of this volume is to give a clear and readable account of the basic features and mathematical subtleties of these ghost-free gauges, and of their truly enormous range of applicability. In addition to explicit one-loop computations in Yang-Mills and Chern-Simons theory, the book contains detailed

analysis of the unfield-gauge formalism and of the renormalization of Yang-Mills theory in the presence of nonlocal terms.

In this acclaimed memoir, Mezlekia recalls his boyhood in the arid city of Jijiga, Ethiopia, and his journey to manhood during the 1970s and 1980s. He traces his personal evolution from child to soldier--forced at the age of eighteen to join a guerrilla army. And he describes the hardships that consumed Ethiopia after the fall of Emperor Haile Selassie and the rise to power of the communist junta, in whose terror thousands of Ethiopians died. Part autobiography and part social history, *Notes from the Hyena's Belly* offers an unforgettable portrait of Ethiopia, and of Africa, during the defining and turbulent years of the last century.

### **Ishtyle**

In the tradition of Peter Matthiessen's *Wildlife in America* or Aldo Leopold, Brenda Peterson tells the 300-year history of wild wolves in America. It is also our own history, seen through our relationship with wolves. The earliest Americans revered them. Settlers zealously exterminated them. Now, scientists, writers, and ordinary citizens are fighting to bring them back to the wild. Peterson, an eloquent voice in the battle for twenty years, makes the powerful case that without wolves, not only will our whole ecology unravel, but we'll lose much of our national soul.

Ishtyle follows queer South Asian men across borders into gay neighborhoods, nightclubs, bars, and house parties in Bangalore and Chicago. Bringing the cultural practices they are most familiar with into these spaces, these men accent the aesthetics of nightlife cultures through performance. Kareem Khubchandani develops the notion of “ishtyle” to name this accented style, while also showing how brown bodies inadvertently become accents themselves, ornamental inclusions in the racialized grammar of desire. Ishtyle allows us to reimagine a global class perpetually represented as docile and desexualized workers caught in the web of global capitalism. The book highlights a different kind of labor, the embodied work these men do to feel queer and sexy together. Engaging major themes in queer studies, Khubchandani explains how his interlocutors’ performances stage relationships between: colonial law and public sexuality; film divas and queer fans; and race, caste, and desire. Ultimately, the book demonstrates that the unlikely site of nightlife can be a productive venue for the study of global politics and its institutional hierarchies.

so many detours during the years between his first instrument and Godsmack's first contract that, more than once, he nearly forgot his destination. In *The Paths We Choose*, he relates the turbulent story of his life before the platinum albums and packed arenas. Sully's story shows us that whatever hardship we may face, ultimately, our choices determine our destiny. He's made the most of every advantage and obstacle he has faced, and reminds us that we can, too. For Sully, success is not an ultimate destination. On the morning after he has celebrated his 60th birthday party at a celebrity-filled party, Ned Marriott is in bed with his partner, Emma, when there's a knock on the door. Detectives from the London police force's 'Operation Millpond' have come to arrest him over an allegation of sexual assault. Ned is one of the country's best-known historians - teaching at a leading university, advising governments and making top-rating TV documentaries - but this 'historic' claim from someone the cops insist on calling 'the victim' threatens him with personal and professional ruin and potential imprisonment. Professor Marriott would normally turn for support to Tom Pimm, his closest friend at the university, but Tom has just been informed that a secret investigation has raised anonymous complaints, which may end Dr Pimm's career. Swinging between fear, bewilderment and anger, Ned and Tom must try to

defend themselves against the allegations, and hope that no others are made. The two men's families and friends are forced to question what they know and think. Can the complainants, detectives, HR teams, journalists and Tweeters who are driving the stories all be seeing smoke that has no fire behind it? By turns shocking and comic, reportorial and thoughtful, *The Allegations* startlingly and heart-breakingly captures a contemporary culture in which allegations are easily made and reputations casually destroyed. Asking readers to decide who they believe, it explores a modern nightmare that could happen, in some way, to anyone whose view of personal history may differ from someone else's.

In the Cenozoic Era, mammals rose to dominance and spread over the globe, resulting in woolly mammoths, saber-toothed tigers, and eventually all of humankind. In this adventure, Ronnie will meet the three kinds of mammals—monotremes, marsupials, and placental mammals—as well as the other amazing ancient beasts they shared the Earth with during the Cenozoic Era. The text will track Earth's history from 66 million years ago to present day, ending with

an impassioned yet hopeful discussion of climate change.
