Dare to Repair Plumbing (Collins Gem)

"Tiger-Lilies is actually a somewhat autobiographical book. In it, Lanier analyzes the relationship between a Northerner and a Southerner throughout the Civil War. As a Southerner who had fought for the Confederate army, Lanier had experienced the war firsthand, both on the battlefield and as a prisoner of war. These experiences are recognizable in the battle scenes especially, which are considered some of the most realistic representations of Civil War combat in literature. Ultimately, Tiger-Lilies can be interpreted as an anti-war novel and one of Lanier's less successful endeavors in the course of his career."--The History Engine.

Kiumajut [Talking Back]: Game Management and Inuit Rights 1900-70 examines Inuit relations with the Canadian state, with a particular focus on two interrelated issues. The first is how a deeply flawed set of scientific practices for counting animal populations led policymakers to develop policies and laws intended to curtail the activities of Inuit hunters. Animal management informed by this knowledge became a justification for attempts to educate and, ultimately, to regulate Inuit hunters. The second issue is Inuit responses to the emerging regime of government intervention. The authors look closely at resulting court cases and rulings, as well as Inuit petitions. The activities of the first Inuit community council are also examined in exploring how Inuit began to "talk back" to the Canadian state.

Women's novels have traditionally been read as 'subjective'. Through an examination of three generations of women's fiction in the post-Romantic period, this book challenges traditional readings of women's novels and argues that fiction writing for women has often been a matter of self-erasure rather than self-inscription. In particular, it examines the changing strategies, sometimes collusive and sometimes rebellious, which Charlotte Bronte, Olive Schreiner and Katherine Mansfield employed in their tentative project of inscribing female subjectivity into the novel and story form.
