Women Who Stay Behind examines the social, educational, and cultural resources rural Mexican women employ to creatively survive the conditions created by the migration of loved ones. Using narrative, research, and theory, Ruth Trinidad Galván presents a hopeful picture of what is traditionally viewed as the abject circumstances of poor and working-class people in Mexico who are forced to migrate to survive. The book studies women's and families' use of cultural knowledge, community activism, and teaching and learning spaces. Throughout, Trinidad Galván provides answers to these questions: How does the migration of loved ones alter community, familial, and gender dynamics? And what social relations (convivencia), cultural knowledge, and women-centered pedagogies sustain women's survival (supervivencia)? Researchers, educators, and students interested in migration studies, gender studies, education, Latin American studies, and Mexican American studies will benefit from the ethnographic approach and theoretical insight of this groundbreaking work.

Four Seasons of Mojo

In this book, Katrina Hazzard-Donald explores African Americans' experience and practice of the herbal, healing folk belief tradition known as Hoodoo. Working against conventional scholarship, Hazzard-Donald argues that Hoodoo emerged first in three distinct regions she calls "regional Hoodoo clusters" and that after the turn of the nineteenth century, Hoodoo took on a national rather than regional profile. The first interdisciplinary examination to incorporate a full glossary of Hoodoo culture, *Mojo Workin': The Old African American Hoodoo System* lays out the movement of Hoodoo against a series of watershed changes in the American cultural landscape. Throughout, Hazzard-Donald distinguishes between "Old tradition Black Belt Hoodoo" and commercially marketed forms that have been controlled, modified, and often fabricated by outsiders; this study focuses on the hidden system operating almost exclusively among African Americans in the Black spiritual underground.

Women Who Stay Behind

With *Moon Power*, women can connect with the primal, feminine lunar power. There was a time when the feminine and her guiding light, the Moon, were all-powerful. Men were seen primarily as consorts to the Great Goddess, as embodied in every woman. In these peaceful, agrarian societies, primal feminine powers - intuition, emotion, sexuality, creation, communion with nature - were honored. And the moon, which waxed and waned in predictable cycles, was a symbol for the birth, growth, death, and renewal of life on Earth. *Moon Power's* 12 chapters each represents a moon sign. The introduction describes what's meant by *Moon Power*, provides some history about ancient moon worship, and explains why it went underground. The basics of moon phases and the meaning of new and full moons are explained. Simple rituals for connecting with the power of the moon are included. The book offers guidance on working with each sign as the moon passes through it (i.e. when the moon is in Aries, take assertive action, but watch impulsivity). Each chapter includes a profile of a powerful woman who typifies her lunar sign (Angelina Jolie, Aries Moon; Malala Yousafzai, Libra Moon). A Goddess and Power Animal for each moon sign and activities and rituals for connecting with their energy during certain moon phases are also provided. *Moon Power* will inspire women to recognize and develop their lunar nature. It will show them how, through reflection, ritual, and purposeful action, to understand their emotional nature and inner selves more deeply.

Finding Soul on the Path of Orisa

Describes the Day of the Dead, or el Dâia de los Muertos, a holiday celebrated in Mexico from October 31 to November 2.

The Black Woman's Little Book of Spells

- A celebration of the journey of African-American women toward a new spirituality grounded in social awareness, black American tradition, metaphysics, and heightened creativity.
- Features illuminating insights from Alice Walker, Toni Cade Bambara, Lucille Clifton, Dolores Kendrick, Sonia Sanchez, Michele Gibbs, Geraldine McIntosh, Masani Alexis DeVeaux and Namonyah Soipan.
- By a widely published scholar, poet, and activist who has been interviewed by the press, television, and National Public Radio's All Things Considered From the last part of the twentieth century through today, African-American women have experienced a revival of spirituality and creative force, fashioning a uniquely African-American way to connect with the divine. In Soul Talk, Akasha Gloria Hull examines this multifaceted spirituality that has both fostered personal healing and functioned as a formidable weapon against racism and social injustice. Through fascinating and heartfelt conversations with some of today's most creative and powerful women--women whose spirituality encompasses, among others, traditional Christianity, Tibetan Buddhism, Native American teachings, meditation, the I Ching, and African-derived ancestral reverence--the author explores how this new spiritual consciousness is manifested, how it affects the women who practice it, and how its effects can be carried to others. Using a unique and readable blend of interviews, storytelling, literary critique, and practical suggestions of ways readers can incorporate similar renewal into their daily lives, Soul Talk shows how personal and social change are possible through reconnection with the spirit.

Mojo Workin'

While much work has been done on goddesses of the ancient world and the male gods of pre-Christian Scandinavia, the northern goddesses have been largely neglected. Roles of the Northern Goddess presents a highly readable study of the worship of these goddesses by men and women. With its use of evidence from early literature, popular tradition, legend and archaeology, this book investigates the role of the early hunting goddess and the local goddesses who were involved in all aspects of the household and the farm. What emerges is that the goddess was both benevolent and destructive, a powerful figure closely concerned with birth and death and with destiny of individuals.

By the world-renowned seismologist, a riveting history of natural disasters, their impact on our culture, and new ways of thinking about the ones to come Earthquakes, floods, tsunamis, hurricanes, volcanoes--they stem from the same forces that give our planet life. Earthquakes give us natural springs; volcanoes produce fertile soil. It is only when these forces exceed our ability to withstand them that they become disasters. Together they have shaped our cities and their architecture; elevated leaders and toppled governments; influenced the way we think, feel, fight, unite, and pray. The history of natural disasters is a history of ourselves. In *The Big Ones*, leading seismologist Dr. Lucy Jones offers a bracing look at some of the world's greatest natural disasters, whose reverberations we continue to feel today. At Pompeii, Jones explores how a volcanic eruption in the first century AD challenged prevailing views of religion. She examines the California floods of 1862 and the limits of human memory. And she probes more recent events--such as the Indian Ocean tsunami of 2004 and the American hurricanes of 2017--to illustrate the potential for globalization to humanize and heal. With population in hazardous regions growing and temperatures around the world rising, the impacts of natural disasters are greater than ever before. *The Big Ones* is more than just a work of history or science; it is a call to action. Natural hazards are inevitable; human catastrophes are not. With this energizing and exhaustively researched book, Dr. Jones offers a look at our past, readying us to face down the Big Ones in our future.

Moon Power

The decision to write this book is born out of 20-30 years of experience. The authors, Leilani Birely and Luisah Teish, are blessed to be two women of color who have grown up in a spiritual culture that has survived centuries of oppression and kept its regard for the sacredness of Land in tact and in the forefront of their behavior and rituals. However, they also recognize that ritual protocol is not taught in school and is not available even in schools with Spirituality Departments and in only a few of the books presently on the shelf. We long for the reconstruction of a culture that respects the Earth and Her people. Our present ecological crisis: global warming, water and air pollution, starvation and war are all manifestations of our disregard for the Earth, Her gifts and Her children. The world needs leadership that emphasizes Reverence, Community, and Peacekeeping. And this can only happen in an atmosphere of mutual respect and sharing. We must do this without arrogance and we must overcome our ignorance. This book as an offering of guidelines and protocols to heal our relationship to sacred lands and to each other. It is encouraged to use the book as a means to insure the re-creation of our Earth-centered traditions and the evolution of a global and authentic spiritual practice." It contains the authors personal stories, cultural myths and folktales, prayers, chants, rituals and exercises to help define a relationship to Mother Earth and Her Children. It also contains photographs from their travels to several sacred sites and their original artwork. This book will be useful to those wishing to travel as kindred spirits, to address ecological and environmental issues, and to experience the joys of rituals in nature.
