Yellowstone National Park was once home to an abundance of wild wolves—but park rangers killed the last of their kind in the 1920s. Decades later, the rangers brought them back, with the first wolves arriving from Canada in 1995. This is the incredible true story of one of those wolves. Wolf 8 struggles at first—he is smaller than the other pups, and often bullied—but soon he bonds with an alpha female whose mate was shot. An unusually young alpha male, barely a teenager in human years, Wolf 8 rises to the occasion, hunting skillfully, and even defending his family from the wolf who killed his father. But soon he faces a new opponent: his adopted son, who mates with a violent alpha female. Can Wolf 8 protect his valley without harming his protégé? Authored by a renowned wolf researcher

decision to sell his beloved companion. Lieutenant Eric Pedersen purchased the bodacious mare and renamed her Reckless, for the Recoilless Rifles Platoon, Anti-Tank Division, of the 5th Marines she'd be joining. The four-legged equine braved minefields and hailing shrapnel to deliver ammunition to her division on the frontlines. In one day alone, performing fifty-one trips up and down treacherous terrain, covering a distance of over thirty-five miles, and rescuing wounded comrades-in-arms, Reckless demonstrated her steadfast devotion to the Marines who had become her herd. Despite only measuring about thirteen hands high, this pint-sized equine became an American hero. Reckless was awarded two Purple Hearts for her valor and was officially promoted to staff sergeant twice, a distinction never bestowed upon an animal before or since. Author Robin Hutton has reignited excitement about this nearly forgotten legend, realizing the Sgt. Reckless Memorial Monument at the National Museum of the Marine Corps, completed in July 2013, and now spurring the creation of a second memorial at Camp Pendleton, California, where Reckless lived out the rest of her days. The paperback edition includes a new foreword by General James F. Amos, 35th Commandant of the U.S. Marine Corps. It will appeal to fans of Laura Hillenbrand's *Seabiscuit*, Elizabeth Letts' *The Eighty Dollar Champion*, and the feature film *War Horse*.

"It's hard to imagine the child—story-lover or fact-lover, dog-lover or not—who would not be drawn in by this book."—The New York Times Book Review How did dog become man's best friend? Dogs come in such a variety of shapes, sizes, and breeds, that it is hard to believe that they all have a common ancestor--the wolf! Hudson Talbott takes readers on a fascinating journey through history to see how wolves' relationships with humans sparked their development into the dogs we know and love today. Striking paintings, from an adorable wolf pup to a wide range of modern-day dog breeds, illustrate this insightful story of teamwork and friendship. Through the eyes of a prehistoric boy and a lone wolf pup, we see how the bond between our ancestors and these wild animals may have developed. Starting as enemies competing for food, the wolf and the boy realize that they'll eat better and be safer if they team up. Over time, others catch on, and as many of the wolves become more domesticated, the humans breed them for skills like hunting, herding, pulling, and rescuing. And today, there are more breeds of dog than of any other animal, all thanks to this relationship that started so long ago.
