Photonic Devices

Extrait de la couverture : "The Pukhtun society of the Swat valley in the North West Frontier Province, Pakistan, is at the crossroads of social transformation and change. The Mghan Yusufzai tribe, which migrated from Kabul more than five hundred years ago and settled in the Swat valley, has retained its particular tribal culture and characteristics to this day. It was during the last century that the culture of Yusufzai Pukhtuns, residing on this side of the Durand Line, began to be influenced by the regional historical and geo-political forces. From a rural tribal society, governed by the centuries old tribal code - Pukhtunwali - the Pukhtuns have been gradually urbanising, responding to the emerging socio-economic and historical changes. The transformation is not without its ramifications - social conflicts, breakdown of old tribal social structures and values, unplanned economic growth and its adverse effects on the natural resource base of the lush green valley, often compared with Switzerland for its scenic beauty. This book chronicles the process of urbanisation and change in the broader context, embracing the history, geography, agriculture and economics, demography and migration, culture and politics of the Swat valley. It analyses the impact of abolition of the traditional Wesh system of land distribution, merger of the State of Swat within the nation-state of Pakistan, the increasing influence of religious groups subsequent to the Soviet occupation of Afghanistan and the advent and decline of the Taliban, the remittance economy and tourism, and the donor-funded development projects that have a bearing on the process of urbanisation. What emerges is an insightful picture of the contemporary Swat valley, leading to a better understanding of the complex forces that are transforming its tribal Pukhtun society."

Untouched and unmarked by the world, Lola Ray is the sunshine that I never thought I needed in my life. She's the perfect petal on a cherry blossom tree aching to be plucked and pillaged. I long to touch her, to make her mine. To tie her up and f*ck her. I know it's wrong she is after all my best friend's daughter. But as I look closer, as I start to give in to temptation, I begin to see the scars she's so desperate to hide. They run deep. Like an abyss she cannot escape. A nightmare that never ends. Scars so raw that I'm not sure she can ever be healed. However there is one thing that I know has the chance to make her whole again. And I won't stop till I make all her dreams come true. Dream Daddy is a full length, steamy dark romance with psychological elements. Perfect for fans of Pepper Winters, Annika Martin, and Penelope Douglas.

Teaching English Grammar to Speakers of Other Languages

Colonial civil servant, Confucian scholar, and collector of Chinese art, Sir James Stewart Lockhart spent more than forty years in Hong Kong and Weihaiwei — the former British leased territory in northern China. His career reflects tension and upheaval in the emerging colony of Hong Kong and in a China rapidly giving way to civil war. In her vivid biography of Stewart Lockhart, Shiona Airlie presents a portrait of an imperial official who fought against racism, strove to preserve the Chinese way of life, and was treated by Chinese mandarins as one of their own. Sir James Stewart Lockhart (1858–1937) was a Scot who served for more than 40 years as a colonial official in Hong Kong and Weihaiwei — Britain's leased territory in northern China. In Hong Kong (1879– 1902) he rose to the highest levels and brought a refreshingly different approach to colonial rule. He immersed himself in Chinese culture, made friends with local leaders, strengthened Chinese institutions, and fought against racism. When the colony was extended in 1898 he was given the important task of delineating the boundaries of the New Territories and organising its administration. As Britain's first Civil Commissioner (1902–21) in remote Weihaiwei, he brought a unique approach to administration — a combination of Scottish laird and Confucian mandarin — and maintained peace and order during troubled times. A fine Chinese scholar, he amassed a large collection of Chinese coins, art and artefacts. Shiona Airlie's lively account of Stewart Lockhart's life and times makes use of his private papers and extensive archival research. This classic study provides valuable insight into the character, career and friends of an imperial official of rare talent and achievement.

Routledge Introductions to Applied Linguistics is a series of introductory level textbooks covering the core topics in Applied Linguistics, primarily designed for those beginning postgraduate studies, or taking an introductory MA course as well as advanced undergraduates. Titles in the series are also ideal for language professionals returning to academic study. The books take an innovative 'practice to theory' approach, with a 'back-to-front' structure. This leads the reader from real-world problems and issues, through a discussion of intervention and how to engage with these concerns, before finally relating these practical issues to theoretical foundations. Additional features include a glossary of key terms, and discussion questions. Following the back-to-front approach of the series, the book takes problematic issues in language pedagogy as its starting points. These are then examined in terms of second language acquisition. Each chapter begins with a look at the pedagogical proposals found in teacher guides and then asks 'Do these proposals accord with what we know about how languages are acquired?' Pedagogical topics covered include teaching methods, syllabus design, explicit instruction, comprehension versus production-based instruction, task-based instruction, authentic materials, the role of the learners' first language in the classroom, error correction and catering for individual differences. Including a glossary of key terms and questions for discussion at the end of each chapter, and assuming no prior knowledge of second language acquisition, this is the ideal text for all students studying language teaching methods, language teacher education,

English teaching methodology and second language acquisition modules in advanced undergraduate and postgraduate/graduate TESOL and Applied Linguistics courses.

Photonic devices lie at the heart of the communications revolution, and have become a large and important part of the electronic engineering field, so much so that many colleges now treat this as a subject in its own right. With this in mind, the author has put together a unique textbook covering every major photonic device, and striking a careful balance between theoretical and practical concepts. The book assumes a basic knowledge of optics, semiconductors and electromagnetic waves. Many of the key background concepts are reviewed in the first chapter. Devices covered include optical fibers, couplers, electro-optic devices, magneto-optic devices, lasers and photodetectors. Problems are included at the end of each chapter and a solutions set is available. The book is ideal for senior undergraduate and graduate courses, but being device driven it is also an excellent engineers' reference.

New Perspectives on Grammar Teaching in Second Language Classrooms brings together various approaches to the contextualized teaching of grammar and communicative skills as integrated components of second language instruction. Its purpose is to show from both theoretical and practical perspectives that grammar teaching can be made productive and useful in ESL and EFL classrooms. In this text: *First-rate scholars approach the teaching of grammar from multiple complementary perspectives, providing an original, comprehensive treatment of the topic. *Discourse analysis and research data are used to address such pedagogical areas as grammatical and lexical development in speaking, listening, reading, and writing. *The communicative perspective on ESL and EFL instruction that is presented provides ways for learners to enhance their production skills, whereas the meaning-based grammar instruction can supplement and strengthen current methodology with a communicative focus. This volume is intended as a foundational text for second language grammar pedagogy courses at the advanced undergraduate and master's levels.
