Mary, Bloody Mary

A television genre best known for romantic storytelling, daytime soap operas have for decades spun tales of couples embroiled in passion, lust and adventure. Yet it was not until the early 1980s that star-crossed lovers became standard and the term “super couple” was coined by the media, marking a new era of experimentation and growth in daytime soaps. This book documents the phenomenon, tracing its history, legacy and impact on the soap opera industry and on popular culture at large.

Carolyn Ellis is the leading writer in the move toward personal, autobiographical writing as a strategy for academic research. In addition to her landmark books *Final Negotiations* and *The Ethnographic I*, she has authored numerous stories that demonstrate the emotional power and academic value of

autoethnography. This volume collects a dozen of Ellis's stories—about the loss of her husband, brother and mother; of growing up in small town Virginia; about the work of the ethnographer; about emotionally charged life issues such as abortion, caregiving, and love. Atop these captivating stories, she adds the component of meta-autoethnography—a layering of new interpretations, reflections, and vignettes to her older work. An important new work for qualitative researchers and a student-friendly text for courses.

Secrets told in the church ladies' room are supposed to stay in the ladies' room. But that doesn't mean that what Trudy overhears there during her great-aunt Gertrude's funeral won't change the rest of her life. Trudy has a daughter in the middle of a major rebellion; a two-timing husband who has been cheating for their entire married life; and a mother with Alzheimer's residing in the local nursing home. She doesn't really need a crumbling old house about to fall into nothing but a pile of memories and broken knickknacks. Billy Lee Tucker, resident oddball in Tishomingo, Oklahoma, lived next door to Gert, and in her will she leaves him the funds to help Trudy remodel the old house. That's fine with Billy Lee, because he's been in love with Trudy since before they started school. And just spending time with her is something he'd never ever allowed himself to dream about. A beautiful home rises up from the old house on Broadway, and right along with it rises up a

relationship. But is Trudy too scarred from what she heard in the ladies' room to see a lovely future with Billy Lee?

The Little Grave

Compassion is widely regarded as an important moral emotion - a fitting response to various cases of suffering and misfortune. Yet contemporary theorists have rarely given it sustained attention. This volume aims to fill this gap by offering answers to a number of questions surrounding this emotion.

100s of ideas to save you money - from basic economic survival to advanced power spending. In this book, we're going to use the "B" word-B-U-D-G-E-T. We know that was painful, but hold on-don't worry-we want to make budgeting fun. You heard us right-budgeting and fun in the same sentence. Stop laughing! We know the two words don't usually go together but give us a chance. This book is about much more than budgeting-in fact, it is so much more! These pages are about what you do with your money-how you spend, save and use it more effectively. The pages of Power Spending are filled with money facts, money mistakes and money solutions, but best of all, with real people's comments. We sent out surveys and you will find some of the responses to our questions on the last page of each chapter. These pages include our respondents' ideas, recommendations and "tried and

true" solutions for making money work. You'll find even more of their great ideas on our website, <http://PowerSpendingBook.com>. We've divided the book into two sections. In the first section you'll find some useful information about money basics-we refer to this as the basic economic survival part. In the second section you'll find lots of ideas about how to spend money better-this is the part we refer to as advanced power spending. Before we go any further we need to let you know what this book is and what it isn't. We'll begin with this explanation. There are six areas of financial planning: cash management, risk management, investment planning, special needs planning, estate planning and tax planning. We will only cover the first area-cash management. If you need specific and individual help and advice in any of these areas we recommend that you work with a certified financial planner or other specialist. And just what does cash management cover? Net worth, cash flow, debt management and emergency planning, for example, but also the many different ways you use your money. We'll go into more detail in the book-we don't want to spoil the surprise!! So, what's in it for you? That's always the bottom line. We are offering you fun, facts and freedom! When you implement the strategies that we provide in this book, you'll make better money decisions; you'll be in control of your money-not the other way around. In fact, that's how we came up with the title of our book, Power Spending: Getting More For Less. That's our motto, and our goals for you are first, economic survival, and then economic prosperity!! This book shares President Lincoln's philosophy: it is "of the people, by the people, for the people." With that in mind we

invite you to continue to share your great ideas with us. Let us know how you power spend by adding your comments at <http://PowerSpendingBook.com>. This book, and our website, are meant to be resources that are current and up-to-date and that will continue to provide you with the best "true blue, tried and tested, real life" ways to use your money better. Each chapter includes sidebars (placed at the end of each chapter in the Kindle version) that will bring some added insight to the topic. We've gathered financial statistics, more detailed examples or explanations (of the text material) and words of wisdom. We know you'll love the conversational tone and excellent tips that Power Spending gives - and we'd love to hear from you after you read it.

In the summer of 1978, residents of Love Canal, a suburban development in Niagara Falls, NY, began protesting against the leaking toxic waste dump in their midst—a sixteen-acre site containing 100,000 barrels of chemical waste that anchored their neighborhood. Initially seeking evacuation, area activists soon found that they were engaged in a far larger battle over the meaning of America's industrial past and its environmental future. The Love Canal protest movement inaugurated the era of grassroots environmentalism, spawning new anti-toxics laws and new models of ecological protest. Historian Richard S. Newman examines the Love Canal crisis through the area's broader landscape, detailing the way this ever-contentious region has been used, altered, and understood from the colonial era to the present day. Newman journeys into colonial land use battles between Native Americans and European settlers, 19th-century utopian city planning, the rise of the American chemical industry in the 20th century, the transformation of environmental activism in the 1970s, and the memory of environmental disasters in our own time. In an era of hydrofracking and renewed concern about nuclear waste disposal, Love Canal remains relevant. It is only by starting at the very beginning of the site's environmental history that we can understand the road to a hazardous waste crisis in the 1970s—and to the global environmental justice movement it sparked.

Out on a Limb

The way of a man with a maiden was too wonderful for the writer of Proverbs to understand. Preoccupying so many thoughts and dreams, the subject of countless songs, films and fairy tales, the love between a man and a woman has always been a profound and perplexing mystery. And yet we do not live happily ever after. Four out of ten marriages will end in divorce. Couples now choose to live together rather than marry, and those relationships are even less likely to last. People are having fewer children, later, and with a succession of partners. Ironically, just when so much is expected of love, Western societies are witnessing lower levels of public commitment in sexual relationships than ever before. The scale of this change amounts to a revolution, a major historical paradigm shift. The statistics mask a depth of pain that every pastor and counsellor knows only too well. We must face the inevitable questions: if faithfulness is no longer esteemed, why get married at all? What is marriage? What did God intend when he gave us marriage? Christopher Ash argues that our modern idolization of the sexual relationship contains within itself the seeds of its own destruction. To begin to rebuild a biblical confidence in marriage, we need to understand that the primary blessing and purpose

of marriage is not sexual intimacy, but rather serving God in partnership. This in turn leads to the blessings of love, friendship, children, and order in society, and will help us to rediscover that faithfulness which is the heart of marriage. One of those precious rarities - a major piece of biblical scholarship which addresses an issue in today's headlines directly and warmly. One to own, not to borrow. -- David Field Deeply scholarly, extraordinarily thorough and biblically faithful, as well as courageously fresh in rethinking the role of marriage in God's intention for human life. -- David Wright Christopher Ash studied at Wycliffe Hall, Oxford, and then joined the staff at St. Andrew the Great, Cambridge. From there he headed to a church plant and is now Rector of All Saints, Little Shelford. He is married to Carolyn and they have four children.

The Happy Little Spirit

A smart, sexy guide to embracing the repressed, tabooed, and often unwanted aspects of ourselves so

we can discover our inner power and finally live the life we deserve. “We always get exactly what we want; but often, though we may not be aware of it, what we most want is dark—very dark.” Each of us has a dual nature: we are light (conscious) and dark (unconscious). The dark side of our personality—the “other,” the shadow side—is made up of what we think is our primitive, primal, negative impulses—our “existential kink.” Our existential kink also drives the dark or negative repeating patterns in our life: always choosing the abusive partner or boss, settling for less, thinking that we’re undeserving, not worthy. But it also is the source of our greatest power. In *Existential Kink*, Carolyn Elliott, PhD, offers a truth-telling guide for bringing our shadow into the light. Inviting us to make conscious the unconscious, Elliott asks us to own the subconscious pleasure we get from the stuck, painful patterns of our existence. *Existential Kink* provides practical advice and meditations so we truly see our shadow side’s “guilty pleasures,” love and accept them, and integrate them into our whole being. By doing so, Elliott shows, we bring to life the raw, hot, glorious power we all have to get what we really want in our lives.

Multimodal Approaches to Media Discourses brings together contributions from an interdisciplinary group of scholars on corpus-assisted analyses of multimodal data on austerity discourses in the United Kingdom, which extend and expand on the understanding of austerity but also of the methodologies used to analyse multimodal corpora. The volume demonstrates how the austerity measures introduced in response to global economic and financial crises in recent years can be viewed as being more complexly layered than they appear, not simply reduced to their connections to spending cuts and fiscal debt. The book employs an innovative methodological approach, in which established and emerging scholars from linguistics and computational and social sciences critically reflect on the exact same set of data – multimodal texts and articles from *The Guardian* and *The Daily Telegraph* from 2010 to 2016. This framework allows for the exploration of the role of the media in mediating the public's assessment of austerity and the ideas, actors, emotions, geographies and broader material context which contribute to such perceptions. In so doing, the volume also offers unique insights into systematic analyses to multimodal data which may be applied to other topics and connected with other disciplines. Enhancing our awareness and assessment of austerity in public discourse and of the methodologies to study it, this book is key reading for students and researchers in discourse analysis, corpus linguistics, multimodality, and those working at the intersection of these fields.

Idiot Genius: Willa Snap and the Clockwerk Boy is the first book in a new sci-fi polypunk series by Richard Due, author of the award-winning Moon Realm series. What's it about? Here's Willa (she's eleven): Ever wonder why some crazy scientist hasn't blown up the world? I used to wonder about it all the time. Actually, I was pretty sure my mom would be the one to do it. But now I know better. It turns out there's a force working hard to keep the world from going KABLOOEY. Who are these people? Wait for it: Idiots. Yep, you heard me right. How do I know? Well, apparently, I'm an Idiot. At least, according to the Geniuses I am. Confused? I'm not surprised. You're probably an Idiot too. It all began on a Thursday at precisely 8 a.m. I was standing in the family room of our lovely two-story house, directly across the street from Squirrel Brand Park in Cambridge, Massachusetts. The same family room that, in a few minutes, I would never ever, ever see again. ever.
