## Download Release, Patches and Tools - Magento

There are three tabs in the above figure. 1. Palette: It consists of all the elements through which user interacts. These elements are used to build the logic. It consists of User Interface, Logic Elements, Data section to handle DML operations, Quick Actions and Email Alerts.

## How to Create a Flow in Salesforce - Step by Step Guide

Patch MDVA-84 for Magento Community Edition – MDVA-84.zip, .tar.gz, and .tar.bz2, Apply this patch if you are running Magento CE 2.0.1 and your Magento server runs 7.0.1 or PHP 7.0.2. It adds support for PHP 7.0.2 to the updater application. See technical bulletin Issues upgrading to 2.0.1 (Jan. 28, 2016) for more information

### **Bing: Magento Community User Guide**

Magento is an open-source solution which usually means that it's limited when it comes to customer support. No phone, live chat, or email support is available for customers which can be tricky, as using Magento requires some basic code knowledge. Clients will need to find their way around technical problems solely by using Magento's blog.

Magento Commerce customers can access 2.4.x and 2.3.x patches two weeks before the General Availability (GA) date. Pre-release packages are available through Composer only. You cannot access pre-releases on the Magento Portal or GitHub until GA. If you cannot find these packages in Composer, contact Magento Support. Example - Minor release
