Real People. Real Stories. Real Politics. Politics involves people, from many backgrounds, struggling to make their voices heard. Real people, telling their stories, reflect our ideals, choices, and collective experiences as a nation. In *American Government: Stories of a Nation*, author Scott Abernathy tunes in to these voices, showing how our diverse ideas shape the way we participate and behave, the laws we live by, and the challenges we face. Each chapter features real stories illustrating how the American political system is the product of strategies, calculations, and miscalculations of countless individuals. Students learn the nuts and bolts of political science through these compelling stories. Learning concepts in context is a tested learning technique that works to help ideas stick. The key concepts are memorable because they are tied to real politics, where students see political action and political choices shaping how institutions advance or impede the fulfillment of fundamental ideas. Not only will all students see themselves reflected in the pages, but they will come to understand that they, too, are strategic players in American politics, with voices that matter. Just like the Full version, *The Essentials* edition is perfect for instructors who don't wish to cover the last three chapters on policy.

Government in America

What Kind of Nation is a riveting account of the bitter and protracted struggle between two titans of the early republic over the power of the presidency and the independence of the judiciary. The clash between fellow Virginians (and second cousins) Thomas Jefferson and John Marshall remains the most decisive confrontation between a president and a chief justice in American history. Fought in private as well as in full public view, their struggle defined basic constitutional relationships in the early days of the republic and resonates still in debates over the role of the federal

government vis-à-vis the states and the authority of the Supreme Court to interpret laws. Jefferson was a strong advocate of states' rights who distrusted the power of the federal government. He believed that the Constitution defined federal authority narrowly and left most governmental powers to the states. He was suspicious of the Federalist-dominated Supreme Court, whose members he viewed as partisan promoters of their political views at the expense of Jefferson's Republicans. When he became president, Jefferson attempted to correct the Court's bias by appointing Republicans to the Court. He also supported an unsuccessful impeachment of Federalist Supreme Court Justice Samuel Chase. Marshall believed in a strong federal government and was convinced that an independent judiciary offered the best protection for the Constitution and the nation. After he was appointed by Federalist President John Adams to be chief justice in 1801 (only a few weeks before Jefferson succeeded Adams), he issued one far-reaching opinion after another. Beginning with the landmark decision *Marbury v. Madison* in 1803, and through many cases involving states' rights, impeachment, treason, and executive privilege, Marshall established the Court as the final arbiter of the Constitution and the authoritative voice for the constitutional supremacy of the federal government over the states. As Marshall's views prevailed, Jefferson became increasingly bitter, certain that the Court was suffocating the popular will. But Marshall's carefully reasoned rulings endowed the Court with constitutional authority even as they expanded the power of the federal government, paving the way for later Court decisions sanctioning many pivotal laws of

the modern era, such as those of the New Deal, the Great Society, and the Civil Rights Act of 1964. In a fascinating description of the treason trial of Jefferson's former vice president, Aaron Burr, James F. Simon shows how Marshall rebuffed President Jefferson's claim of executive privilege. That decision served as precedent for a modern Supreme Court ruling rejecting President Nixon's claim that he did not have to hand over the Watergate tapes. More than 150 years after Jefferson's and Marshall's deaths, their words and achievements still reverberate in constitutional debate and political battle. *What Kind of Nation* is a dramatic rendering of a bitter struggle between two shrewd politicians and powerful statesmen that helped create a United States.

seduce humanity into a false sense of freedom. Pope Benedict XVI, Christ's personally chosen defender of the Truth is fighting back. He recognized this in his homily on April 18, 2005, "We are building a dictatorship of relativism that does not recognize anything as definitive and whose ultimate goal consists solely of one's own ego and desires." Through a down-to-earth, easily accessible Question-and-Answer format, Stefanick's book shows: Why relativism inherently contradicts its own claims. What makes it one of the worst ideas in the history of ideas. How relativism has a direct influence on the morals and virtues of a nation. Why relativism doesn't even work "in real life." How relativism is counterproductive to the true practice of tolerance Why religion which makes claims to absolute truth is finally more tolerant than relativism. What Christianity has almost singlehandedly done to foster true tolerance in the world. How all laws legislate morality What the true meaning of "open-minded" means it's not what you think!
