The “riveting” #1 New York Times bestseller: A true story of three wealthy families and the unbreakable ties of blood (Kirkus Reviews). The first bodies found were those of a feisty millionaire widow and her daughter in their posh Louisville, Kentucky, home. Months later, another wealthy widow and her prominent son and daughter-in-law were found savagely slain in Winston-Salem, North Carolina. Mystified police first suspected a professional in the bizarre gangland-style killings that shattered the quiet tranquility of two well-to-do southern communities. But soon a suspicion grew that turned their focus to family. The Sharps. The Newsoms. The Lynches. The only link between the three families was a beautiful, aristocratic

young mother named Susie Sharp Newsom Lynch. Could this former child “princess” and fraternity sweetheart have committed such barbarous crimes? And what about her gun-loving first cousin and lover, Fritz Klenner, son of a nationally renowned doctor? In this tale of three families connected by marriage and murder, of obsessive love and bitter custody battles, Jerry Bledsoe recounts the shocking events that ultimately took nine lives, building to a truly horrifying climax that will leave you stunned. “Recreates . . . one of the most shocking crimes of recent years.” —Publishers Weekly “Absorbing suspense.” —Chicago Tribune “Astonishing . . . Brilliantly chronicled.” —Detroit Free Press “An engrossing southern gothic sure to delight fans of the true-crime genre. Bledsoe maintains the suspense with a sure hand.” —The Charlotte Observer

The distinctive look of the Luger and its role in German military history make it the world's most famous handgun. In *Luger*, renowned gun expert John Walter traces the history of this semiautomatic pistol from an early design by Hugo Borchardt in the 1890s through its use in the trenches of the First World War to the final days of the Third Reich in WWII. Other books on the Parabellum-Pistole, as the Luger was also known, focus strictly on narrow subjects like manufacturing details or accessories. While still offering the technical details to satisfy the collector, Walter provides a comprehensive narrative history. Readers will learn of the initial collaboration between Borchardt and Georg J. Luger, who patented the design in 1898. Following initial adoption by the Swiss Army, design refinements convinced the Imperial German Navy to order the sidearm, while the US Army passed on it following field trials in favor of the Colt. Production ramped up for World War I and the gun became a prized trophy for Allied soldiers in both that conflict and World War II. (German soldiers, aware of their desirability, even used them as bait for booby traps.) Today, it is still desired by collectors both for its unique design and for its connection to the history of Nazi Germany, and *Luger: The Story of the World's Most Famous Handgun* tells how it came to be.

Due to the fact that German military awards have spiraled in value in recent years, the Collector's Guide to German Nazi Party Awards 1919-1945 is a prime opportunity to tap in this international market and provide a useful and practical

guide for collectors of such memorabilia. The book features 80-90 medals, fully illustrated from the author's extensive collection, including such medals like the Munich Putsch, Blood Order and the German Order which in current market conditions are expected to fetch over £20,000-£100,000 each. Unlike military medals within the Third Reich structure, the Nazi Party Awards were issued within the Nazi hierarchy as well as to foreigners; the Art and Science Award being deemed as the Nobel Prize, for example. The latter was encrusted in platinum and diamonds and only one copy is known to exist and was presented to the Third Reich's vice chancellor (the medal resides in Christopher Ailsby's collection). As well as a glittering array of medals and historical information, there are photographs of state luminaries such as Porsche and Willy Messerschmitt receiving their awards. Introduction.
