Ford's 4.6-liter-powered Mustang is the last remaining "classic" muscle car in the world and is incredibly popular with performance enthusiasts. More than 1,000,000 Mustangs have been built since 1996. Covers all 4.6 and 5.4-liter "Modular" motors--Ford's only V8 engine for Mustangs, fullsize cars, and light trucks from 1996 to 2004.

High-performance tweaks for the most popular cars and motorcycles. Tips and techniques from the experts will help you maximize the horsepower, handling, and appearance of your car.

The Commercial Motor

Includes a mid-December issue called Buyer guide edition.

Chrysler Engines 1922-1998

IPCC Report on sources, capture, transport, and storage of CO₂, for researchers, policy-makers and engineers.

Aviation Week & Space Technology

Auto Repair For Dummies, 2nd Edition (9781119543619) was previously published as Auto Repair For Dummies, 2nd Edition (9780764599026). While this version features a new Dummies cover and design, the content is the same as the prior release and should not be considered a new or updated product. The top-selling auto repair guide--400,000 copies sold--now extensively reorganized and updated Forty-eight percent of U.S. households perform at least some automobile maintenance on their own, with women now accounting for one third of this \$34 billion automotive do-it-yourself market. For new or would-be do-it-yourself mechanics, this illustrated how-to guide has long been a must and now it's even better. A complete reorganization now puts relevant repair and maintenance information directly after each automotive system overview, making it much easier to find hands-on fix-it instructions. Author Deanna Sclar has updated systems and repair information throughout, eliminating discussions of carburetors and adding coverage of hybrid and alternative fuel vehicles. She's also revised schedules for tune-ups and oil changes, included driving tips that can save on maintenance and repair costs, and added new advice on troubleshooting problems and determining when to call in a professional mechanic. For anyone who wants to save money on car repairs and maintenance, this book is the place to start. Deanna Sclar (Long Beach, CA), an acclaimed auto repair expert and consumer advocate, has contributed to the Los Angeles Times and has been

interviewed on the Today show, NBC Nightly News, and other television programs.

The Waterways Journal

American Modeler

This book provides a comprehensive survey of the most recent methodology--both theoretical and applied--on the statistical analysis and detection of defective/"non-conforming" items in various types of inspection for attributes, when the inspection itself is subject to error.

Canadian Aviation

This book chronicles over 75 years of engine design, development, and production at Chrysler Corporation. Every production engine built by Chrysler is covered, with descriptions, pictures, specifications, and timelines provided for each. Each engine is defined in terms of its basic structure (including its cylinder bore spacing, number of main bearings, and valve operation). In addition to the specifications, the book also looks at the personalities behind the engines' development and the vehicles in which the engines were used.

Your Body on Gluten

Pacific Islands Monthly

Wisconsin Wood Marketing Bulletin

Gluten is found in wheat and some other grains. It's in foods people eat every day. Many people can eat it without problems. Others have a disease that makes gluten damage their bodies. Your Body on Gluten uncovers the nutritional benefits of foods containing gluten, how gluten interacts with the body, and how to include it as part of a balanced diet. Easy-to-read text, vivid images, and helpful back matter give readers a clear look at this subject. Features include a table of contents, infographics, a glossary, additional resources, and an index. Aligned to Common Core Standards and correlated to state standards. Core Library is an imprint of Abdo Publishing, a division of ABDO.

Autocar & Motor

The greatest small engines in the world are manufactured by Briggs & Stratton. From the informal partnership Stephen F. Briggs and Harold M. Stratton formed in 1908, Briggs & Stratton has evolved into an industry leader whose name is synonymous with the lawn mower engines it pioneered. The Legend of Briggs & Stratton, 208 pages, is filled with 125 color and 145 black & white images chronicling Briggs & Stratton's fascinating history.
