"Over the last half century, there has been a marked increase in ideological conservatism among African Americans, with nearly 50% of black Americans describing themselves as conservative in the 2000s, as compared to 10% in the 1970s. Support for redistributive initiatives has likewise declined. And yet, even as black Americans shift rightward on ideological and issue positions, Democratic Party identification has stayed remarkable steady, holding at 80% to 90%. It is this puzzle that White and Laird look to address in this new book: Why has ideological change failed to push black Americans into the Republican party? Most explanations for homogeneity have focused on individual dispositions, including

ideology and group identity. White and Laird acknowledge that these are important, but point out that such explanations fail to account for continued political unity even in the face of individual ideological change and of individual incentives to defect from this common group behavior. The authors offer instead, or in addition, a behavioral explanation, arguing that black Americans maintain political unity through the establishment and enforcement of well-defined group expectations of black political behavior through a process they term racialized social constraint. The authors explain how black political norms came about, and what these norms are, then show (with the help of survey data and lab-in-field experiments) how such norms are enforced, and where this enforcement happens (through a focus on black institutions). They conclude by exploring the implications of the theory for electoral strategy, as well as explaining how this framework can be used to understand other voter communities"--

Historically, Notaries Public predate the Roman empire; their development coincides with that of written and recorded communication. As the ability to read and write was rare, the earliest Notaries Public served primarily as scribes to assist the illiterate. The decline of the Roman empire saw a corresponding reduction in the volume and importance of written communication. It wasn't until the dawning of the Renaissance that Notaries Public were once again called upon to perform important societal functions. Over the centuries, many a great author, poet and historian supplemented their incomes with fees collected from the provision of literacy services. American pioneer history is replete with examples of notarial assistance. Among them: the processing of land or mining claims, the authentication of public or private documents, and the reading and writing of general correspondence.

In Arizona, a notary public is a public officer commissioned by the Secretary of State to perform notarial acts, as defined in the Arizona Revised Statutes (see Chapter 5). A notary, in essence, serves as an impartial witness pursuant to A.R.S. § 41-328(B). Government offices, businesses and the public rely on the accuracy and integrity of notaries public. This means the notary should take the required steps to authenticate signatures and ensure that all notarizations are properly completed and performed. Many documents require a notarization in an effort to deter fraud, to prove the authenticity of the signature and to ensure that a signature was made willingly and not under duress. Therefore, it's essential that a notary accept a valid form of identification, as defined in statutes, to determine that a signer is who he or she claims to be. Because the prevention of fraud and deception is central to the notary's role, it is essential that a notary have no conflict of interest when notarizing a document.

A notary is a public official responsible for independently verifying signatures and oaths. Depending on how a document is written, a notarization serves to affirm the identity of a signer and the fact that they personally executed their signature. A notarization, or notarial act, officially documents the identity of a party to a document or transaction and the occasion of the signing that others can rely upon,

usually at face value. A notary's authentication is intended to be reliable, to avoid the inconvenience of having to locate a signer to have them personally verify their signature, as well as to document the execution of a document perhaps long after the lifetime of the signer and the notary. An oath is a sworn statement. In most cases a person will swear that a written statement, oral statement, or testimony they are about to give is true. A notary can document that the notary administered an oath to an individual.

He was the only one. He was the only man to have committed suicide in the town's seventeenth-century history. So begins Donna Merwick's fascinating tale of a Dutch notary who ended his life in his adopted community of Albany. In a major

feat of historical reconstruction, she introduces us to Adriaen Janse van Ilpendam and the long-forgotten world he inhabited in Holland's North American colony. Her powerful narrative will make readers care for this quiet and studious man, an "ordinary" settler for whom the clash of empires brought tragedy. Like so many of his fellow countrymen, Janse left his Dutch homeland as a young adult to try his luck in New Netherland. After spending a few years on Manhattan Island, he moved on to the fur trading settlement today known as Albany. Merwick traces his journey to a new continent and re-creates the satisfying existence this respected burgher enjoyed with his wife in the bustling town. As a notary Janse was, in the author's words, "surrounded by stories, those he listened to and recorded, the hundreds he archived in a chest or trunk." His familiar life was turned upside down by the British conquest of the colony. Merwick recounts the changes brought about by the new rulers and imagines the despair Janse must have felt when English, a language he had never learned, replaced his native tongue in official transactions. In any military adventure, truth is alleged to be the first casualty. Merwick offers a poignant reminder that the first casualties are in fact people. As much a musing on what history obscures as what it reveals, her book is a superior work by a master practitioner of her craft.
