Back in the 1860's, gold fever was not only in California but in the Northwest as well. There lived a different breed of men
then, most trustworthy and honorable and some hostile and unsavory. These men faced banditry and frozen death and
others found legendary wealth in gold. They were all lured to hidden, stolen, buried gold and gold that was to be had for the
taking. In the vast Indian lands, which soon became territories, tent and log towns sprang up and then were abandoned
with new discoveries of gold, while some grew and remain to this day. This book is a compilation of stories of men in their
quest for gold in the Northwest.

★ FOR A LIMITED TIME ONLY ★ Buy the Paperback and Get the eBook for FREE! Includes 2 Manuscripts Chakra Healing Book: The art of chakra healing has been used for centuries to balance important energy centers in our body called chakras. We can use several different tools, such as stones or meditation during chakra balancing. The result will be a physically healthier body and a happier, more peaceful you. The word chakra comes from a Sanskrit - ancient Indian language - a word which can mean either spinning wheel, circle or vortex. From this word, we intuit that chakras are a spiraling dynamic force. Energy flows through the subtle body and indeed the physical body through nadis or channels. The Sushumna is the central channel which is like the spinal cord of the subtle body, with lesser channels, Ida, and Pingala spiraling around it, and thousands of smaller nadis, extending to all areas of the body. The nadis are kind of like the central nervous system of the subtle body. Practical Meditation Book: Meditation is one of the great eastern practices that has started to take hold in western culture. People all over the world are benefiting from it, both in mind and body. So, why isn't everyone meditating? It could be that not everyone knows of all the amazing benefits like increased relaxation and decreased levels of anxiety and depression. This book contains a rundown of only some of the many benefits of meditation and a set of instructions for starting your meditation practice. Some styles of meditations rely on complete silence, some employ the repetition of specific words or "mantras," some offer guided imagery and affirmations, some focus on specific energy centers or "chakras," some utilize specific sounds and music, some have very ancient roots, rituals, and religious traditions. And there are many more varieties and combinations. Some meditations focus primarily on relaxation and the well-documented health benefits associated with this. Other meditations go beyond relaxation to help us reconnect with the deeper clarity, power, peace, and wholeness within us.

The Union Quarterly, Devoted To Science, Statesmanship, And Art, The Interests Of Humanity, And Our United Country;

After sixteen years of hiding her identity as a Guardian in the human kingdom of Zovinmere, Adelia Amber is about to receive the choice of a lifetime: to return to her people's homeland of Loredana, or stay behind in the world she has grown to love. The catch: it is a one time deal. She can follow her dream and meet her people, but that also means leaving behind her family and friends forever. Algar Syndri has been Addy's Destined for the last sixteen years-and also her dearest friend. Now he could lose her forever, but there is little he can do to stop it. His only option is to stand by Addy's side and ensure that she gets the opportunity to make that choice-no matter what she decides. Eve Shanon is a stranger when she shows up at the Syndri's house just days before Addy is to make her choice. She comes offering help and friendship, but Addy is certain she has more sinister plans-which require taking Addy out of the picture. Will Addy survive long enough for her choice to even matter?

NASA's Living With a Star (LWS) initiative is a systematic, goal-oriented research program targeting those aspects of the Sun-Earth system that affect society. The Targeted Research and Technology (TR&T) component of LWS provides the theory, modeling, and data analysis necessary to enable an integrated, system-wide picture of Sun-Earth connection science with societal relevance. Recognizing the central and essential role that TR&T would have for the success of the LWS initiative, the LWS Science Architecture Team (SAT) recommended that a Science Definition Team (SDT), with the same status as a flight mission definition team, be formed to design and coordinate a TR&T program having prioritized goals and objectives that focused on practical societal benefits. This report details the SDT recommendations for the TR&T program. New Perspectives: Portfolio Projects for Business Analysis

An incredible true story. It was to be a three-country, backpacking adventure of making a giant circle from Portugal, Spain up into the South of France, back through Spain, and back over to Lisbon. The author set out to make the best of a shoestring budget, get a few nice photos and hopefully a decent story to tell. What ensued was a nearly unbelievable journey immersed in the rich culture of the region, emotive prose that makes you feel like you're traveling along too, and images that take the reader into mysterious dark corners, ethereal rendezvous, Scottish wizards, an unwitting encounter with dark revolutionaries, and so much more. Punch your ticket and come along for a once in a lifetime, spectacular adventure! ATTN: Paperback version of Absinthe Carousel has a glossy color exterior, and black & white with cream paper interior. The Kindle version is 100% color.
