The Port Chicago 50

Paperbound Books in Print

Bibliographic Index

The Newbery Award-winning and National Book Award finalist author of *Bomb* presents an account of the 1944 civil rights protest involving hundreds of African-American Navy servicemen who were unjustly charged with mutiny for refusing to work in unsafe conditions after the deadly Port Chicago explosion.

A Subject Bibliography from Highway Safety Literature

An index to library and information science literature.

Treating Complex Trauma in Adolescents and Young Adults

Library Literature

Books in Print Supplement

"An index to library and information science".

Manpower Development

The Model Rules of Professional Conduct provides an up-to-date resource for information on legal ethics. Federal, state and local courts in all jurisdictions look to the Rules for guidance in solving lawyer malpractice cases, disciplinary actions, disqualification issues, sanctions questions and much more. In this volume, black-letter Rules of Professional Conduct are followed by numbered Comments that explain each Rule's purpose and provide suggestions for its practical application. The Rules will help you identify proper conduct in a variety of given situations, review those instances where discretionary action is possible, and define the nature of the relationship between you and your clients, colleagues and the courts.

Law Books Published

Systematic Evidence Reviews to Answer Health Care Questions is your most effective, A-to-Z guide to conducting thorough, comprehensive systematic reviews. By breaking down topics and essential steps, this volume teaches you how to form key questions, select evidence, and perform illuminating review not just in predictable circumstances, but when basic rules don't apply—honing your ability to think critically and solve problems. You'll learn how to define a review's purpose and scope, develop research questions, build a team, and even manage your project to maximize efficacy. If you're looking to refine your approach to systematic reviews, don't just catalog and collect; use this powerful text to evaluate, synthesize, and deliver results that will help shape the health care industry. FEATURES Presented in standard format throughout to allow for more practical, easy to read approach Provides useful instruction on how to conduct a high-quality systematic review that meets the recent standards of the Institute of Medicine Accessible, concise information about the state-of-the-art methods of systematic review, from key question formulation to assessing the quality of included studies and reporting results Illustrated throughout with real-world examples from systematic reviews that have been used to inform practice guidelines and health policy

The Journal of Long Term Care Administration

The leading resource for collaborative critical care for newborns, Merenstein & Gardner's Handbook of Neonatal Intensive Care, 7th Edition provides a multidisciplinary approach and a real-world perspective. It focuses on evidenced-based practice, with clinical directions in color for easy retrieval and review. Special features help you prioritize the steps in initial care, and provide a guide to

sharing information with parents. With each chapter written jointly by both physicians and nurses, this book is comprehensive enough to suit the needs of the entire team in your neonatal intensive care unit. Unique! A multidisciplinary perspective is provided by an editorial team of two physicians and two nurses, and each chapter is written and reviewed by a physician and nurse team, so information mirrors the real-world experience in a neonatal intensive care unit. Unique! Clinical content is in color, so you can quickly scan through chapters for information that directly affects patient care. Unique! Parent Teaching boxes highlight the relevant information to be shared with a patient's caregivers. Critical Findings boxes outline symptoms and diagnostic findings that require immediate attention, helping you prioritize assessment data and steps in initial care. Coverage in clinical chapters includes pathophysiology and etiology, prevention, data collection, treatment, complications, outcomes, prognosis, and parent education. Expanded Neonatal Surgery chapter covers all of the most common procedures in neonatal surgery. Follow-up of the Neonatal Intensive Care Unit Infant chapter is expanded to include coverage of outcomes management and discharge planning. Streamlined references are updated to include only the most current or classic sources.

Leaders in Education

Revised to incorporate important new information about No Child Left Behind and the 2004 re-authorization of IDEA, this classic work in the field of teaching methodology for students with special needs continues to be the most comprehensive textbook available for students with mild/high incidence disabilities (i.e., learning disabilities, mild retardation/intellectual disabilities, emotional and behavioral disorders, and students experiencing learning problems in the general education classroom). The focus of the book is on effective instructional strategies for students being served in diverse educational settings, with a primary emphasis on those being taught in inclusive educational environments. In Part I, the text provides basic information on curriculum development and instruction while in Part II, an in-depth discussion of key curricular areas is provided. For educators teaching learning disabled students.
