Maths in Action - Advanced Higher Mathematics 2

"Gibbons begins with a strong theoretical underpinning for her practice, drawing on a functional model of language,

sociocultural theories of learning, and current research on second-language development. After supporting her view that the regular curriculum offers the best language-learning environment for young ESL students, Gibbons demonstrates the ways in which content areas provide a context for the teaching of English skills, from speaking and listening to reading and writing. These skills can be integrated in the learning of diverse subjects as Gibbons illustrates with a wide range of teaching and learning activities across the curriculum, supplemented with programming and assessment formats and checklists."--BOOK JACKET.

A Level Maths Revision Notes for the Edexcel Pure Maths A Level Exams (new specification). This is "The Alternative Formula Booklet". It contains everything you need to learn for the pure maths exams that are not in the Formula Booklet! Who is this booklet for? This booklet is for anyone taking the new A Level maths course. It has been designed specifically for the Edexcel pure maths exams, but will be very useful for the other exam boards. It is suitable for both teachers and students. What is in this booklet? This is the alternative formula booklet! It contains all the things you need to know for the pure maths exams that aren't given to you in the official exam formula book. How to use this booklet Students: Use this booklet alongside your homework and past paper questions. Think of it as the clues you need to complete the questions. Get used to using the formulas in this booklet and then learn the whole lot off by heart for the exams! Teachers: Take this booklet to all your lessons. Use it as a reference to double check formulas, or quickly look up something you should know but have forgotten. Use it to test students on their formula knowledge! Notes from the Author I hope you find this booklet as useful as I do! It is the result of many years of teaching A Level maths. Note that this version of the booklet has some colour inside rather than just black and white and it is slightly smaller than A4 size.
