God's Keys to a Happy Life

A BOOK FOR LOVERS
Maybe the John 10:10 life was meant to encompass the pleasurable enjoyment and fulfillment of sex and sexual intimacy, when it is done God's way. Proverbs 5: 15 - 19 commends those who are married to do the following:
Drink water from your own cistern,?And running water from your own well.
Should your fountains be dispersed

abroad,?Streams of water in the streets?Let them be only your own,?And not for strangers with you.Let your fountain be blessed,?And rejoice with the wife of your youth.As a loving deer and a graceful doe,?Let her breasts satisfy you at all times;?And always be enraptured with her love.Sex goes wrong. It does not always work. It does not always click into place. The “No, No, No” and “don't, don't, don't” before marriage, becomes “yes, yes, yes” after marriage, but so often and too often the “how, how, how” is missing from any guidance and pre-marriage preparation. Myths, misunderstandings, misinformation, misdirection and repeated practice, becomes entrenched and sex no longer holds the pleasure it once promised. Recapture it. Get it for the first time. Your enthusiasm that is! That sex can be great – when practiced in the context that God designed it and when His instruction manual is followed and practiced.Sometimes a little help is needed to redirect and get us back on track or on a new track. Prov 4: 7 “And in all your getting, get understanding”. Gary McFarlane will seek to help you to get understanding.

Proposing a new theoretical framework, "instrumental agency," Keller offers a far more nuanced portrait of spirit possession as a negotiation with multiple kinds of power which requires a radical receptivity on the part of the possessed persons and as a reorientation of scholarship."--BOOK JACKET.

The Neville Goddard Lectures, Volume 7

In this essay, Monaghan argues for an account of property possession as strict, numerical identity. According to this account, for an entity to possess a property is for that entity and that property to be numerically identical to each other. To defend this view, he argues against two views he call Externalism and Internalism about property possession. Monaghan argues that it is impossible for one entity to possess a second entity as a property. He provides replies to variety of objections one might raise against his account.

Amhara Traditions of Knowledge

Not your typical spiritual disciplines book Most books on the spiritual disciplines follow the same pattern: introduce the discipline, prove it from Scripture, and give tips for how to do it. Habits for our Holiness does more than that: It connects the disciplines to all of life. By showing how the disciplines have their greatest power when practiced in community and on mission, Philip Nation gives Christians a bigger reason—and greater desire—to pursue spiritual disciplines. He also warns us

of what happens when we neglect them. With plenty of examples, stories, and illustrations, Habits for our Holiness will inspire you to nourish your life with discipline, enjoy the fruit of godliness, and have a hand in building the church.

Record of Christian Work

The world is fast becoming a very terrible place because wickedness is increasing. Today, things like joy, happiness, peace and contentment are becoming scarce commodities even among Christians. A lot of people have never really found true and lasting happiness. Some even believe that happiness can only be found in heaven and not on earth. But this is only a lie of the devil. In this book, the author, after a deep research of the Bible, shows clearly that a happy life as one of the promises of the Almighty God for His children is possible for all who are ready to have it even here on earth. Avail yourself of this wonderful opportunity and bid sorrow and fear a permanent goodbye.

Reflections of a Bankruptee on Debt, Amnesty, Revolution, and History

The Self Possessed is a multifaceted, diachronic study reconsidering the very nature of religion in South Asia, the culmination of years of intensive research. Frederick M. Smith proposes that positive oracular or ecstatic possession is the most common form of spiritual expression in India, and that it has been linguistically distinguished from negative, disease-producing possession for thousands of years. In South Asia possession has always been broader and more diverse than in the West, where it has been almost entirely characterized as "demonic." At best, spirit possession has been regarded as a medically treatable psychological ailment and at worst, as a condition that requires exorcism or punishment. In South (and East) Asia, ecstatic or oracular possession has been widely practiced throughout history, occupying a position of respect in early and recent Hinduism and in certain forms of Buddhism. Smith analyzes Indic literature from all ages—the earliest Vedic texts; the Mahabharata; Buddhist, Jain, Yogic, Ayurvedic, and Tantric texts; Hindu devotional literature; Sanskrit drama and narrative literature; and more than a hundred ethnographies. He identifies several forms of possession, including festival, initiatory, oracular, and devotional, and demonstrates their multivocality within a wide range of sects and religious identities. Possession is common among both men and women and is practiced by members of all social and caste strata. Smith theorizes on notions of embodiment, disembodiment, selfhood, personal identity, and other key issues through the prism of possession, redefining the relationship between Sanskrit and vernacular culture and between elite and popular religion. Smith's study is also comparative, introducing considerable material from Tibet, classical China, modern America, and elsewhere. Brilliant and persuasive, The Self Possessed provides careful new translations of rare material and is the most comprehensive study in any language on this subject.

Nothing is more important in English land law than 'possession'. It is the foundation of all title, rights and remedies. But what exactly is it, and why does it still matter? This book, first published in 2006, is about the meaning, significance and practical effect of the concept of possession in contemporary land law. It explains the different meanings of possession, the relationship between possession and title, and the ways in which the common law and equity do, and do not, protect possession. The rights and remedies of freeholders, tenants and mortgage lenders, between themselves and against third parties, are all to some extent dependent on questions of status and possession. This book shows how. It is designed to provide an understanding of the basic principles for the student, and answers to difficult, real problems for the practitioner.

The Works of Thomas Goodwin: An exposition of the first chapter of the Epistle to the Ephesians

The current trend in church leadership involves looking for a highly gifted leader who will take over, direct the future, cast a vision, and attract the faithful to a new mission or purpose. This desire for a leader to come to the rescue is eerily reminiscent of the desire of the Israelites for a king, so they could "be like every other nation." In spite of Samuel's warnings, the people insisted, so God reluctantly gave them King Saul. That didn't go so well. While we always need good, new, and talented leaders, we also need leaders who know how and when to be good followers. Particularly in a culture of distrust, leadership must be granted, earned, and supported by those who are willing to follow. Leading begins with the counter-intuitive command: "Come, follow me." This imperative is far from easy. Many turned away from Jesus, unable to follow. However, one excellent model of "followership" stood out from the rest - the little-known disciple Andrew. In fact, Andrew is the model and paradigm for being a Lead Follower. Excellent Christian leadership is more about following Jesus than it is about learning the latest fads or tricks from business, the marketplace, or the academy. Being an excellent Christian leader involves first and foremost being an excellent and faithful follower of Jesus Christ.

The Possessed and the Dispossessed

The Andrew Paradigm

This finely drawn portrait of a complex, polycultural urban community in Madagascar emphasizes the role of spirit medium healers, a group heretofore seen as having little power. These women, Leslie Sharp argues, are far from powerless among the peasants and migrant laborers who work the land in this plantation economy. In fact, Sharp's wide-ranging analysis shows that tromba, or spirit possession, is central to understanding the complex identities of insiders and outsiders in this community, which draws people from all over the island and abroad. Sharp's study also reveals the contradictions between indigenous healing and Western-derived Protestant healing and psychiatry. Particular attention to the significance of migrant women's and children's experiences in a context of seeking relief from personal and social ills gives Sharp's investigation importance for gender studies as well as for studies in medical anthropology, Africa and Madagascar, the politics of culture, and religion and ritual.

Law for Non-Law Students is written in a clear and readable style and aims to make the law understandable for readers at undergraduate or comparable level. It explains the practical influences under which the law has been formed, so that the student will be better able to understand why the law has developed in the way that it has. It gives lots of straightforward examples as to how the law works in practice and aims to equip students with the ability to appraise the effectiveness of the law in a particular circumstance rather than simply providing a list of rules for the student to regurgitate at exam time. The facts of the more important cases are given in some detail to enable the student to appreciate the range of factors which the court may have taken into account in reaching its decision. The new edition has been updated to take account of all recent developments, both in relation to statute and to case law. Certain chapters, particularly in the area of sale of goods, have been substantially rewritten and expanded in an attempt to give more detail, while at the same time remaining student-friendly. New chapters on Agency and Negligence have been added. This new edition should be suitable for most courses which have a law element.

Review text: "Ronald W. Langacker is universally acclaimed as one of the founding fathers of the cognitive linguistics movement. His pioneering efforts towards developing a meaning-oriented, usage-based theory of grammar have given cognitive linguistics many of its key concepts, and his theory of Cognitive Grammar is not only one of the cornerstones of cognitive linguistics, it is also a magnificent achievement in its own right." The Preacher's Complete Homiletical Commentary on the Old Testament: Numbers, chapters XVI to XXXVI

The Law Journal Reports

One of the greatest tragedies in the Body of Christ today is an identity crisis. It is unfortunate that some believers have lost their Kingdom identity while others have a distorted view of thier identity in Christ. The reality is that, until you rediscover your Kingdom identity, possessing your possessions remains elusive. This unfortunate situation has led to untold hardship and frustration among God's people. Friend, if you are in any of the above categories, I believe God has put this book in your hands to help you rediscover your Kingdom identity and stir you to rise up and possess what has been freely given to you in Christ Jesus.
